Learning Curve Adriana Hunter

Plus size, lonely and forever single, Susie has tried just about everything to meet a decent man only to crash and burn every time. When her best friend Callie suggests that she try a different approach, forcing men to get to know her personality before they ever see what she looks like, she reluctantly agrees, allowing herself to venture into the exciting world of online dating.

Ryan Marshall is a successful single with a competitive streak that leaves him very little time for dating. Sick of gold digging bimbo's he's looking for something new - different - genuine so when he stumbles across the profile of a new user in his area he decides there's no harm in sending her off a quick email.

Susie has the unfair advantage - she knows what Ryan looks like and he's hotter than any man she's ever seen before. But what will happen when it's time to meet in person and he finally sees that she's anything but thin? Will Ryan still find himself attracted to Susie and not only accept, but appreciate her big-girl curves?

WARNING: This is an erotic romance story featuring sexual content of adult nature.

Nice to see a plus sized heroine...and handsome hero...but a bit too vanilla for my taste.."cute is the word"
blah

My Thoughts:

The book was cute...the heroine a bit too angsty for me...loved Ryan though nice to hear a man who wants to be loved for himself and now his looks, money or power. However, I tend to like a stronger personality in my heroes. Overall , the story was ok, but I would like to have seen a bit more edginess in it. The friend Callie was more interesting. The we have the believability that someone like Ryan would use a online dating service to meet women. I'm thinking if he did it would be some exclusive type thing.

A few thinks in editing really bugged me her name was Susie/Suzie ??? also there were hers/hims she/he all mixed up ..needs a re-edit badly and when you go back to do that..beef up the story and it would be a 4 star easily.

Two star read mostly cause it is nice to see a plus sized heroine..and because I like a HEA.

Too cutesy for my taste.

Vampress Bathory says

super short and super hurried

Marran says

a sweet short read...

Hollie says

just read this again and I didn't remember that I had read it less than a month ago. that alone makes me take away a star. bad and forgetable.

My Rating:★★½.

It wasn't bad but it could have been better. My pet peeve? Ms. Hunter bounced between calling the heroine Susie and Suzie. My advice would be to pick a name and stick with it.

Very short and cute story but it's just too cheesy and 'dreamy' for my taste

J.S. Scott says

I love a combination of Big Girl romance and erotica. (Duh...that's probably why I write them too!) :) I loved the vulnerability of both the h & h and thoroughly enjoyed this story.
