The bitch is back!!!!  
Did she die in this book??!?  
If not, I can be ready to kill her myself!

### Aleksandra Reads says

Can I say how much those people who hate Kendall, annoy me? Of course she is insecure. She's been through a hell and yet she is here, fighting. She is the most 'real' person in the entire series. Her life story breaks my heart. #TeamKendall

? I received an RC via the author in exchange for an honest review. Thank you!! ?

I know Kendall haters will be like, "why doesn't the author kill her off?" or "I hate her" but quite honestly, I was rooting for her.

Sure, she had SO MANY darn word vomit reactions and nuances that made me want to slap her and tell her to stop acting like a petulant child...BUT! Given all that she's been through, I couldn't help but look at her as the underdog in all of this with everyone hating on her except Johnnie and Megan (although both do have their moments of annoyance and irritation with Kendall).

All in all though, I liked this novel as Kendall really works on herself and in the end redeems herself into a likable person.

I received this book from the author for an honest review.

\*Content sigh\* My baby daddy is finally happy. My baby daddy is finally not being a man whore and get his life together. My VP is back and better then EVAH!!!

So this book picks up with Johnnie still a mess after Kendall dumping him on their wedding day. She has returned from her self imposed isolation after working on her. She is here to claim her man and get her life back. However, seeing Meggie is making her go mental alllll over again. Johnnie at first is not gonna have it. He wants nothing to do with our girl except for take responsibility for their child. However, my favorite sociopath realizes, Kendall still owns his heart and caves. The two decide to take it slow and see what they can make happen. Kendall has a few weeks left before the birth of their child. I love that they develop intimacy. They had sex yes but never had the real intimacy that a couple has. It was a much needed step for them to build a forever.

Johnnie is a much happier man. He sees his life is improving. He looks at Kendall and her swollen belly as a sign of good things to come. He is still at odds with Outlaw over his woman but he sees Outlaw is changing his tune for Kendall???

Kendall...hot mess. The girl needs to have a "come to Jesus meeting" about her hate of Meggie. I loved Roxy and think she is the most amazing female character. She is the woman to take Kendall under her wing and give her the true motherly affection and TRUTH Kendall needs to hear...whether she wants to hear it or not...mostly not!!!

I am so happy that my VP FINALLY got his HEA....it was a long time coming. I cant wait to see how their relationship develops in the next few books. I am really excited to read Diggers book but Cash and Stretch...EEEEPPPP...I am REALLY READY FOR THEM !!!!

## Sivutha says

I don't know what to say to this beside awesome to Kendall finally getting her head out of her ass. As for John Boy, he sleeps around while they separated. It's more about Meggie finding good in everyone. I still don't like Kendall and Johnnie, he's weak in my opinion in this book. If he truly loves Kendall like he said, he would of done his best to fight for her. Kendall is broken and he should prove to her that he is a strong hero but instead he let her walked out on him. Self pity surrow my ass. But I like that they have a happy ending. Next up, Digger.

“Stopping next to Kendall, she held out her hand and cleared her throat. “Hi,” she said softly. “I’m Megan Caldwell.”

Kendall's released a sobby laugh. "Hi, Megan Caldwell. I'm Kendall Donovan."  
Meggie smiled, her eyes bright. "Welcome home, Mrs. Donovan."

### **Fre06 Begum says**

Nope still did not like Kendal but loved the scenes with out resident psycho stalker!

---

### **Elfina Renee says**

Absolutely hated Kendall, but I always do. With that being said it got me thinking of the entire series. I came to the conclusion no matter how twisted, deranged, screwed up, complete nut job, and psycho the woman is, the books wouldn't be the same without her!

As for Outlaw and Johnnie, well lets just say these two men proved how fucked up they really are. Outlaw being the crass, belligerent, domineering asshole he always is, showed Kendall she was right. The club's moto is they protect their women and their families. What a load of crap, strangling a pregnant woman cause he's pissed and causing her to go into early labor showed he's the monster she accused him of. I lost respect for him as well as Johnnie, cause he stepped aside and gave his brother a pass! Any father whose worth his weight in salt would have gone after the Prez for endangering their unborn child regardless of how pissed their women would be. And yet the soon to be husband causally steps aside not knowing the fate of his child.

For the first time I was impressed, none of the brothers were tempted to go after Meggie's golden snatch. I'm shocked the men didn't have withdrawals, maybe they were in a trance or getting subliminal messages.  
"Leave Meggie's pussy alone....don't follow the juices!"

I was disgusted by the clubs double standards regarding her and the waiting on hand and foot. If anything it cements my beliefs how out of control Outlaw is, I'm amazed none of the brother have taken it to the table or putted it to a vote of ousting him. Sure the Prez is bad ass but hearing him referring to the club as his and not taking account of the patched members; shows how off the rails he's gone.

Anyways those are my thoughts, despite all the criticism it was more than enjoyable read, worthy of the five stars I gave. The intensity was in your face, hard hitting! Can't wait for the next! Happy reading...enjoy!

My star rating for MISALLIANCE is: 4 out of 5 stars. :)

**My 'Blogging Reader's Review' after reading a copy of  
'MISALLIANCE'(via:BooksMoviesFandoms.wordpress.com):**

\*\*\*WARNING: Possible SPOILERS if you haven't read the previous Novels/Novellas of the Death Dwellers MC Series.\*\*\*

This is the latest in The Death Dwellers MC Series by Kathryn Kelly. There is always so much raw and emotional scenes in this series and this latest installment delivers more about the gritty and tumultuous lives of those in the MC while focusing on the relationships surrounding Kendall and Johnnie. "Misalliance" is written from four P.O.V.'s(point of views). The two main P.O.V.'s are from Johnny "John-Boy" Donovan and Kendall "Red" but we also get a little from Club President Christopher "Outlaw" Caldwell and MC brother Louis "Stretch" King.

Kendall left on the day that Johnny had planned to marry her and was going to let her know that he would build her a home. There has been so many ups and downs in their relationship. The downs have been some of the worst things to have to deal with especially when you're insecure, emotionally damaged and come from such terrible settings as Kendall had. From dealing with the loss of their "Baby Biker", to hostile jealousy, never feeling adequate enough because of a retched mother and bullies that still haunted her from

her past. Kendall and Johnny had parted ways. Now, Kendall has returned only to find out that Johnny seems to have completely moved on and may have very well closed his heart to her.

Johnny “John-Boy” Donovan was on the mend from having his heart broken by Kendall when she left him. She’s carrying his baby so he was set on trying to win her back but so many things happened that made him stop the search. So many people telling him to leave her alone. So he did just that in the only ways he knew how to, and that was have meaningless sex, drinking and partying. But inside, Johnny was still battling the feelings he still carried. The anger and frustration he felt for the woman he loved...still. Possibly. Maybe. He’s just trying hard to not give in. Now with his occasional hook-up Sherilyn, he tries to hard to get lost in that to get passed Kendall. But will it really work?

With the fears lingering in the air still about where the Death Dwellers MC former brother “Digger” was as well as the so-called preacher, the club and their women had to be careful. Johnnie and Kendall have so many things they have to deal with. When they reunite will there be too much hostility to ever see eye to eye? Does love ever really have a chance to conquer all, even in the lifestyle of an MC member? Other problems arise in the club that bring to light how diverse their brothers really are and who can stay loyal regardless.

Expect the Death Dwellers MC to be what it always promises to be: chaotic, engrossing, gritty, sexy and utterly entertaining. Kendall is still her imperfect and annoying self but we see more sides to her in this book and it definitely brings her relationship with Johnnie to it’s finality that seemed perfect. This is still one of my favorite MC series’ so I do recommend it but just remember, it’s definitely for mature readers only. Plus, readers will get exclusive Bonus Chapters from Kendall’s and Johnnie’s P.O.V.’s from these past books of this series: Misappropriate, Misbehavior and Misjudged. Check this one out. It’s out now!

My star rating for MISALLIANCE is: 4 out of 5 stars. :)

**Neringa Neringiukas says**

So, all this bullsh\*t through previous books and I'm talking about Kendalls bullsh\*t, because seriously, the woman need a new pair of brains (because one isn't working for her obviously), when you think you find a tiny bit of something you can relate to her, even like her, Kendall open her mouth and you...Well, you just wanna zip it. With a fist.

So, what I was saying was after all this Kendall & Johnnies drama, we have conclusion about them. Yay!

And despite how I was annoyed and even sometimes hated Kendall, I still was curious about their romance. Kats stories are that good. You're driven batsh\*t crazy by character, but you still want more.

But when I saw this beauty was out, I was still apprehensive to read it. Because, yeah, Kendall.

I what I got was...Well, not mentally healed Kendall, but somewhere close. She still have annoying thoughts, but they are more restrained. I can see, that she tries to think before saying something, that can come as intrusive in couples personal life and rude. Not Christopher kind of 'rude'. But more into 'Thats not your business' kind one. Kendall also slowly tries to accept, that what other girls, Megan relationship is not her affair. Because if thats not work for Kendall, it doesn't mean, it wont work for Megan. But sometimes her tries is not enough, f\*cked up Kendall shows up and she f\*cks up. Again. And you think, that this come back to the old same sh\*t.

Kendall still have to go in a way to heal. And Johnnies at the beginning isn't helping. Hes feelings are hurt. Or maybe more his pride. So, when Kendall shows up, hes very rude, crude and harsh. With his words, he wants to crush her, the way how he felt when she was gone from his life.

But slowly, Johnnies ice thaw and he gives them a chance. He goes back to the same devoted Johnnie to Kendall. And thats sweet.

I just want to say about Kendall a little more, and I try to not give away anything.

What I think really helps Kendall to heal, is one part, where shes being her old self. B\*tching about Meggie and Christopher overhears it. And yeah, no ones touches his woman in any way. And he goes Outlaw on her a\*\*. That was really close, Kendall girl. But maybe thats what needed to be happening, to made her think.

And talking about my man, Christopher. He is still my fav biker here. No one can compare to him. Love ya, psycho stalker.

I LOVED Baileys mother, Roxy. Shes the sh\*t! The woman is a kick a\*\*. The part where Johnny "Do you know who you f\*cking with?" And she picks her sparkly handbag and... Damn, that was priceless. I lol'ed. Roxy has my respect. Thats was beautiful part, Kat. Thank you for it.

Stretch...Double ouch! I'm sad for him.

Well, I don't say more to not spoil anything. But I will just say this. Give Kendall a chance. Thats coming from me, so it's says something. Because I never was her fan. But I think Kat really redeemed her. So, give her the last chance.

3.5 stars for this one. While I do like this series, this one wasn't one of my favorites. It had a lot of the characters that I like. The character of "Outlaw" aka Christopher is becoming one of my least favorite, this attitude he has towards Megan is starting to become annoying. Am curious how this story will progress.

So we finally get resolution with Kendall and Johnny Yipeee!!!!. I don't know about the rest of you but I love Kendall that bitch CRAY CRAY!!!. I'm totally on board with the psychiatrist's assessment of Kendall. Let's be honest, Kendall is a batshit crazy, sociopathic, insecure hot mess, which the doctor pointed out and that's why I love her. I've always thought that Kendall had a thing for "Outlaw" and I think that they are both the same person in different bodies. Maybe someone will write a fan fiction book where they are a couple, can you imagine the angry, crazy violent sex they would have (HOT) Can I say that I actually liked Meggie in this one and anyone who has ever read my reviews about this series knows that I usually can't stand her trifling ass. I liked that she's finally finding her voice and actually doing something with herself besides being "Outlaw's" receptacle of lust (lol). Love the addition of Roxy to this series, she don't play that and I'm glad that she told Kendall about herself. Kendall needed to hear it from a motherly figure about her idiotic shooting off at the mouth self. As much as I love Kendall give it a rest already about Meggie and her life. Like Roxy said Meggie aint checkin for Kendall and don't give two shits what she does with her life. Now let's talk about my object of hate, Outlaw. Unlike the majority, I'm still am not a fan of "Outlaw" and don't care what anyone says his ass should have gotten laid out by Johnny for putting his hands on Kendall. If Johnny was my man he would have needed to have smoked Outlaw (that's my gangsta blood thirsty side talking). Loved the end and kinda teared up at the end when Meggie reintroduced herself to Kendall and they started a tentative new friendship. Hopefully Kendall can behave herself in the next books and learn to keep her mouth shut about stuff that has nothing to do with her. On second thought Nawwww that won't happen, because knowing Kendall she's gonna involve herself in something that has nothing to do with her, but that's our Kendall!

**\*\*\* SERIES JUST GETS BETTER,LOVED IT \*\*\***  
**CONTINUEING STORY OF JOHNNIE & KENDALL**

### **JOHNNIE**

### **KENDALL**

Kendall returns after leaving Johnnie months ago and has she changed???.....Hell no !!  
She is determined to win him back and at first Johnnie tries to resist but she slowly eats away at his defences.

Her mouth seriously had no filter most of the time and she's still so judgemental about Megan and of course Outlaw still hates her with a passion.I loved the introduction of Roxy, a brilliant character and the way she put Kendall in her place all the time

*"I've never had a girl for a friend before"*  
*"It's no wonder with the shit you do.I sure the fuck wouldn't want a judgemental bitch as my fucking friend"*

Now Kendall has annoyed the hell out of me so far but I truly think this series, especially the last few books, wouldn't have been the same without her and she does actually redeem herself in my eyes in this book... Well done to the Author for developing her character when people have been calling for her demise...

Oh and she finally gets 'her Johnnie'

*"I love you....Kendall, my gorgeous, beautiful, brave lady. My Wife. I think I loved you from the moment I first laid eyes on you"*

Can't finish without mentioning Outlaw... Yes he's crude, over bearing, disgusting.. the ultimate badass Biker, but my God he's sexy....

Really looking forward to more of these fascinating characters and especially can't wait for Cash and Stretches STORY... I'm all about men who do men !!

Have read 2 of this Author's books back to back and am going to have serious withdrawal symptoms... I just LOVE her writing!!

Title: Misalliance

Series: Death Dwellers MC #4.5

Author: Kathryn Kelly

Genre: Contemporary Romantic Suspense

Pages: Unknown

Heat Level: 3 out of 4 flames

Overall Star Rating: 4 out of 5 stars

Reviewed by Naughty Book Snitch

This is a wrap up of sorts to the on going love saga of Johnnie and Kendall. For all of you Kendall haters, my girl is back! I've seen some readers say that they won't read anything with her in it. To that I say, "Then don't read it. You are the ones missing out." Kendall is a non-filtered, no holds barred heroine. Her comments are abrasive, true enough but I think it comes from a good place. She wants the MC women to have identities of their own, separate from the men in their lives. I'm not saying that it's her business but it's not malicious. Except for Meggie. This story deals with that animosity.

Kendall has her issues that she truly is trying to deal with and it's still a bumpy road. Johnnie, still reeling from Kendall's leaving him, is struggling to accept the depths of his feelings. He's hateful and cruel, lashing out with his pain. He also has to consider his mistakes and own those. There are a couple of other side stories going on to take us into the next book. I can't wait.

Book given in exchange for an honest review via the author.
