Missing Witness

Craig Parshall

Missing Witness Craig Parshall

After a nerve-shattering encounter with military justice in *The Accused*, Craig Parshall's third novel, all lawyer Will Chambers wants to do this summer is relax with his wife, Fiona...

A long stay on the North Carolina coast seems perfect. But when Will reluctantly looks into a local inheritance case involving Jonathan Joppa, a down-on-his-luck preacher—

“Piracy charge—Joppa’s ancestor? What...when?”

“Why, for being part of Blackbeard’s pirate crew...in the early 1700s...”

Will just wants to rest, but Fiona keeps insisting there's something missing...buried. Soon the two have had a near-fatal brush with smugglers—and together they've unearthed the truth: about a pirate's history, about Jonathan Joppa, and about two remarkable women—one in the past, and one in the present.

Shea Kennedy says

A very cute, fast paced novel that had some quirky characters and a few surprises. Actually liked everyone involved in the story except for Will's wife Fiona. What a whiny, weak, needy woman. I wanted to slap her and tell her to take charge of her own life and happiness. She seemed a little on the dumb side too. Don't know if the author realized it or not, but she was most certainly not up to par with the protagonists' intellectual abilities. Trial details were good. Overall, I enjoyed. Will probably read another of his novels at some point in the future.

Kay M says

Missing Witness is the fourth book in the Chambers of Justice series. I've very much enjoyed all the books in this legal suspense series. This novel could be read as a stand-alone, but I love knowing the main characters and all they've been through. This story is especially exciting as Will and Fiona are navigating the waters of Fiona's first pregnancy, which in itself is not smooth sailing.

Since the pregnancy is at-risk, Will and Fiona are taking the summer off and spending it in the Outer Banks. I love this setting—the islands, the ocean, and the beaches. But unfortunately, all is not well in this pleasant environment. Blackjack Morgan seems to see himself as a modern day pirate, and his actions and schemes are designed to benefit only himself. So, Will's case turns out to be much more than even he expected, and the relaxing vacation for Fiona and Will becomes more convoluted than anyone could foresee.

I recommend this legal suspense. I think you will find it has many surprises.

Linda says

This suspense writer is wonderful! How can one prove a 300 year old charge? This had to do with piracy charges from 1718 and the treasure reputed to be still hidden - and therefore to be found. I couldn't put this book down. It kept me up most of the night on a work night! It was worth it!

Stephanie Berman says

There's no way one lawyer would try this variety of cases so early in his career (if at all!). The whole premise of the entire series just seems a little too much of a stretch.

Sheldon Lehman says

This one meandered a little compared to the previous books in the series and the sense of drama was not as marked, but still not a bad book.

Judith says

This legal thriller takes us back to Blackbeard the pirate days of old. You can run, but you can't hide.
