**Ragnarok, Volume 2** Myung-Jin Lee , Richard A. Knaak , Lauren Na

The winds of fate are stirring A great storm is about to descend upon the land and awaken the world from a 1000-year slumber. Many great, long-forgotten powers are returning. And a new master will soon rule over Midgard. Ragnarok--"the end of the world" in Norse Mythology--features a shifting ensemble of swordsmen and sorcerers in a setting reminiscent of role-playing games like Final Fantasy. Ragnarok is the best selling fantasy graphic novel in America.

# From Reader Review Ragnarok, Volume 2 for online ebook

## Anne says

Pidän Lydiasta enemmän kuin aiemmin :-).

---

## Pearl Angeli says

I've read this in 2007 when I was in college. I really enjoyed every single bit of it. :)

---

## James says

Not quite the story that I wanted but I'll read it anyway.

---

## paul says

heck yeah i said it!

---

## S. H. says

Really fun to read:)

---

## Jay says

Better than the first one in the series. I'm starting to know the characters, though I still have to flip to the front to figure out who is who sometimes.

---

## Lauren says

Enjoyable read, highly recommend this series.

---

## Lina says

This is probably one of the more interesting volumes in the series as it shows us the history of the valkyrie Sara Irine as she is reunited with the town that betrayed her twelve years ago. Beyond that this volume goes

by very quickly, dumping exposition and the like. Fernis and Chaos meet early so any suspense about that is quickly squashed. While it remains very nicely drawn, it still seems more like a game than a story at times.

---

### **Brian says**

Better than volume 1. Some interesting developments and oh yeah Loki makes an appearance.

---

### **Robert says**

I read the first volume and it was good so I wanted to read the second volume and it was still very good. Both have fast paced action and a lot of fun illustrations. My only complaint was that because it is YA the dialogue was a bit flat and childish but I will be picking up the next few volumes to finish the series:)

---

### **Scott Lee says**

Huh. Didn't mark this one finished either. Weird. I find the story hard to follow--both visually physically hard to follow and in terms of keeping up with the narrative. I LOVE norse mythology, and I'm increasingly falling in love with Manga and Anime as I've been going out of my way to search out those shows/comics people tell me are good, but as interesting as the premise is, and as much as the bits that fit together are fun, the whole thing just doesn't hang together well. i'm curious that I *might* try another volume, but I won't be holding my breath, so you definitely shouldn't.

---

### **Justin says**

This Story Is So Different From The Movie But It's Okay ;]
