## Sierra's Story Dandi Daley Mackall

When Sierra lands in the hospital following a car accident, she thinks it's her own fault. What she doesn't know is that her two friends, Ryun and Kenzie, are about to let her take the fall for their mistakes. When she discovers their betrayal, Sierra is out for revenge. Join these three friends as they experience the sting of betrayal, the treachery of deceit, and the wonder of true forgiveness. Read all three friends' stories to get each one's perspective in this exciting new trilogy from thirsty(?).

### **Jerry says**

My review of the entire series is available at:

### **Amancay says**

I picked this book up off of Ronni's shelf quite a while back... anywho, finally started reading it & could hardly get myself to put it down at times.

Flew through it and am now highly interested in reading the two accompanying stories/versions of the tale.

### **Michelle Chase says**

This was such a good book! I read it super quick because I couldn't put it down. I really felt like I knew Sierra, and felt what she was going through. I just hope the other 2 books in the series are as good as this one.

### **DragonFyre says**

I liked the beginning and the end. The middle was kind of lame.
