In the book Simpsons Comics Madness are different fictional stories about the how The Simpsons. This book is sure to make you laugh out loud. Although this book is funny and exciting I didn't enjoy this book as wel as i thought I would. Anyone who enjoys comics our short stories may like this book and that's who I'd recommend this book too.

Just as the Simpsons burned so bright initially then gradually faded, Bongo comics started out tremendously entertaining but by this point are rather humdrum. Still, there are worse ways to while away the hours

I think this book was very funny, and interesting to figure out what was going to happen next. Some characteristics the simpson's have are dumb, funny, and strange
