**Spellbound** Michelle M. Pillow

Let Sleeping Warlocks Lie...

Iain MacGregor knows how his warlock family feels about outsiders discovering the truth of their powers, it's forbidden. That doesn't seem to stop him from having accidental magickal discharges whenever he's around the woman who has captured his attention. Apparently his magick and other "parts" don't seem to care what the rules are, or that the object of his affection just might be his undoing.

Warning: Contains yummy, hot, mischievous MacGregor boys who may or may not be wearing clothing and who are almost certainly up to no good on their quest to find true love.

## From Reader Review Spellbound for online ebook

### Donna says

Oh those MacGregors and their shenanigans. Really, really liked this book, maybe even a bit more than the first in the series. Iain was such a sweetheart and the mystery surrounding Jane's "illness" had me rooting for her from the start. Humorous, romantic, a bit suspenseful, and lots of crazy moments. So much fun to read.

---

### Marta Cox says

Spellbound is the second book in the fun and extremely witty Warlocks MacGregor series and if you have a thing for magic and men in kilts then these books will surely gladden your heart and brighten even the dullest day. I've been a fan of this author since I first discovered her sci fi Dragon Lords series so reading these stories about hot men in kilts filled with mayhem and magic, plus sexy times really appealed to me! First I have to say although this book charts the romance of fun loving Iain MacGregor (whose magic just seems to keep getting away from him) and Jane who has her own unique gifts (not to mention sad history) it's a story dominated by the most mischievous and meddling clan you could ever meet! Yes these MacGregors really do roar! You will roll your eyes, gasp at the sheer affrontery and laugh out loud. If light hearted romance coupled with paranormal elements and mystery appeal to you then try this series and discover for yourself just why this author is an auto buy for so many readers.

I was gifted a copy in exchange for an honest review

### Diane says

#### Still loving this series

Very enjoyable paranormal romp involving a mad family of Scottish warlocks. The boys and one girl are hysterically funny and immature. Recommend.

---

### Sharon says

Great series. Funny, quirky, romantic...just all around fun. Adults only.

---

### Talltree says

4.25 stars!!

---

### **Shanna says**

Loved it! I love the alpha men, the setting, the characters, all of it. I love this series! The book is fun and cute with enough suspense to keep it going. This modern-setting paranormal romance is a real winner.

---

### **Sandee says**

I enjoyed this second entry into the Warlocks MacGregor series. It was complex and included the sexy Scottish warlocks. The antics of the MacGregor family were still laugh out loud funny but they were starting to get very juvenile by the end of the book. There was enough evil in this book to satisfy the drama but it did take much too long to get to the information about the evil. Dragging it out so far into the book caused more confusion than suspense. I still enjoyed the entire book and I loved the ending. I will be continuing to read this series.

---

### **Jeanie's Kindle says**

#### **Who knew?**

Not as much fun as the first but still intriguing. Never heard of a spirit banshee, but who is to say it is not possible. Eating souls of the dead, loving shape shifting warlocks? Life is odd in this Wisconsin small town!

---

### **Claire Robinson says**

3.5 - **"I want time to stand still... I don't want to lose this moment."** Stars.

Not sure if its because I read book one an age ago, but *Spellbound* was a bit disjointed for me, and maybe it is because I couldn't remember a lot of what had happened previously. Loved Iain and the shenanigans he and that rest of the MacGregor clan got up to, and Jane and him together for the most part were sweet and funny.

Easy enough to read, plenty of insta-goodness, kilts and giggles, and I still want to see the rest of the MacGregors get their happily ever afters.

---

### **Julie (Jewls Book Blog) says**

The MacGregor family is fantastically hysterical! Close knit and full of hijinks..I couldn't quit laughing! I'd say poor Jane, but she fit perfectly into the family chaos!

If you want a relatively lighthearted, comedic paranormal romance, definitely check the MacGregor family series out!

---

## **Tegan Genone darkhaven says**

This book shows just how much this author has grown as a writer. This one continues on with the next MacGregor brother finding his female and we encounter a double wedding. Another cute romantic fairy tale.

---

## **Linda says**

It's overflowing with magic, mayhem and sexy guys in kilts (and some without)!

"So, the MacGregors."

"Yeah." Jane nodded with a long sigh. "The MacGregors."

"I don't get what the big deal is with them," Charlotte said.

"If you saw under their kilts, you would get what the big deal---" Annabelle tried to break in.

SPELLBOUND by Michelle M. Pillow is the second installment in the author's delightful Warlocks MacGregor series. The first book, LOVE POTIONS (<http://www.readingbetweenthewinesbook...>), was one of my favorite reads in 2014, so it was absolutely imperative that I read SPELLBOUND! I was not disappointed! The whole series is a laugh a minute. It's overflowing with magic, mayhem and sexy guys in kilts (and some without) - need I say more?

Even though this is the second book in the series, it can be enjoyed as a standalone if that is your preference. There are interconnected characters and there were events in the first book that affected this tale, but the author fills in what you need to know as the story progresses. That said, the first book was even better, in my opinion, than this one - and that's saying something as they're both very good. I highly recommend the whole series.

The series takes place in the small town of Green Vallis in Wisconsin and features the MacGregor family of Scottish warlocks and witches. The clan includes parents, siblings, aunts, uncles, and cousins. In the first book, the family purchased a mansion that had been vacant for years so they could all be together in a relatively safe place and be close to nature. They need the trees and plants on the property to replenish their magic (and to run through the woods naked.)

This is the story of Iain MacGregor, a hunky Scottish druid like his brother, Eric, from the first book, and Jane, a magically-gifted woman with a sad history. Jane runs the local nursery in Green Vallis. She loves plants and they love her. She moved here to escape from her nightmarish family and live out her final days as she believes her time is nigh. She sees ghosts and hallucinates. She needs funds and hopes the MacGregors will hire her to care for their gardens so she can pay her bills. She doesn't want to get involved with anyone as she doesn't have long to live. Her attraction to Iain scares her witless.

Iain can't seem to keep his magic under control now. It keeps escaping and creating situations. He's known as a Romeo and normally has women running after him. But when his eyes alight on Jane, she ran from him! That has never happened and his family sure won't let him forget it! The only way he can find to enjoy her company is to hire her to work the landscape on their estate. But, when his mother sees Jane, she screams at her and chases Jane away. Iain just can't win...

I loved both the hero and the heroine, but have to say that Jane's family was creepy from her mother to her brother to her dead step-mother. Yuck! I can see why Jane wanted to get away from them all!

Fans of the first book will be thrilled with the beginning of this one as readers get to witness Erik, our hero from LOVE POTIONS, proposing to Lydia, the heroine from the same book. I loved those two and I almost cried in happiness at the outset. Thank you, Michelle, for allowing your fans the enjoyment of that happy, heartwarming moment. Of course, it's not a run of the mill marriage request. You'll have to pick up this book to find out how Erik proposes. :-)

SPELLBOUND was a charming return to Green Vallis with the MacGregor clan! Don't worry about a cliffhanger as there isn't one. The happy-ever-after ending was a hoot; It was perfect and I couldn't stop laughing. The whole series is extremely fun and witty. I love the whole crazy cool family. I especially enjoy the pranks that they play on each other. I would highly recommend this series to anyone who enjoys farcical Scottish paranormal romances! Now I can't wait for the next installment to see which MacGregor will bite the dust next!

### **Cheryl says**

Such a well written and excellent book! I loved it! You have the MacGregor clan and having lived for a really long time have many debts and challenges to face. They give new meaning to streaking and bets. Yes, there is a mystery but I enjoyed the romance and the humor. This book is a continuation for the first book. Enjoy!

---

### **Linda says**

#### **LOVED IT!**

LOVED, LOVED, LOVED Iian and Jane's story. The twists and turns in this story are absolutely mind boggling. Banshees have been added to the mix and nasty stepbrothers. I never in my wildest dreams saw that twist in the story coming! Can't wait to read the next book in the series.

### **Barbara Van Zandt says**

#### **Unknown**

I'd cried for Jane and Iain. Thinking she was dying when it was her banshee mother draining her ,Iain recovering from his ordeal. Falling for each other and Jane thinking his mother hated her. Then they found out and Margarete telling how wrong she was about her.Jane being a conduit to boost everyone's magic and

killing her mother by putting her soul in a tree.
