Sweet Tilly Carolyn Brown

Matilda Jane Anderson drives a brand new 1917 Model T with Sweet Tilly painted on the heavy metal plate covering the radiator. Tilly doesn't care what people say. Well, until she finds herself put behind bars by a new sheriff determined to confiscate her automobile and her property.

Sheriff Rayford Sloan cleans up boom towns. He drifts in and works at getting rid of moonshiners, putting brothels out of business, generally making a place where men folks can bring their families. He drifts out when his job is done. Tilly Anderson gets under his skin from the beginning. He can't prove she's a moonshiner, but his gut feeling keeps telling him she most certainly is. He promises he'll shadow her every move and he'll own that moonshiner's car before he leaves town. That's if he ever leaves.

Pure fun

Tilley, the moonshiners cousin from Morning Glory, meets her match in the new moonshine-hunting sheriff. What more could anyone want.

Love at last

Such a sweet story. Ford and Tilly were wonderful characters. The town, family and friends were warm and welcoming. I am so happy that Tilly was able to profess her love and Ford was able to accept.

A little too strong on Tully's tough character for the times she lives in but the book was a good read.

Tully's character was a bit too strong for the times she lives but other than that it was a good read

Sheriff Rayford Sloan is new to Hearldton, Oklahoma. It's 1917 and Hearldton is an oil boom town. Ford specializes in cleaning up boom towns removing any and all things that make it unsafe for families to live in town. He's specifically after one Matilda Jane Anderson, a suspected bootlegger. If he can take her down, the small timers will crumble. He's determined to catch her in the act of smuggling moonshine, auction off her car and farm and then drift on out of town. He doesn't count on Tilly getting under his skin or being so beautiful. He's alternately arguing with her or blushing like a school boy whenever he's around her. Tilly is not about to get caught. She knows everything her Grandma Katy taught her about making and selling moonshine. She doesn't need the money but she takes pride in her craft and enjoys the challenge. She's not about to let some two bit sheriff get to her. She intends to lead him a merry chase around the county. Tilly

does not expect to be so tempted by this ornery man. Her beloved cousin Clara and her old friends are urging her to quit before she gets caught. Should she give up everything she's worked for all these years and give in to temptation and settle down or should she keep on being an independent spinster doing her own thing? I really wanted to like this novel. I liked the idea of Tilly being an outspoken spinster. She is aware that she's unconventional and full of piss and vinegar and she doesn't care. She's very modern for her day and that's the problem I have with the story. She's a little too out there. If she actually said half the things she says in the novel, she would probably not be one of the most respected citizens. She actually declares she'd like to have children but not a husband! I couldn't tell the story was set in 1917. It sounded a bit too modern and the characters weren't firmly rooted in any time or place. The romance took way too long to get to the point. They fall in love quickly but take forever to realize they are in love. The misunderstanding/crucial moment part comes too late and the rest is rushed. The book needed a better editor. There were a lot of typos and some repetition that bothered me. I believe this is considered a Christian novel. It's not preachy at all. The characters are God-loving church-going folks and one of the characters is a preacher. There's no praying except for sermons in church. There is some bad language "Hell's Belles" and other unsuitable language for a lady. There is some sexual attraction between the hero and heroine. Readers who like sizzling but clean romances will like this one. There are a couple of strong kisses and a love scene at the end. The love scene isn't graphic and fades to black after kissing and wrapping up the plot. I felt the book was OK but not great. It took me awhile to feel motivated to finish it.

Author is good

Carolyn Brown can weave a good story. She also is able to extend people from one book to the next without using a lot of space. What's next?

Lori says

I loved this fun sweet book. Tilly is a sassy moonshiner and Ford is the new sheriff in town. Things start heating up when Ford starts trying to bring Tilly down. But first he must have proof that she is making and selling moonshine. This book is filled with laugh's, and so much fun banter!

Gloria Bernal says

3.75 stars from this reader. An enjoyable historical romance set in 1917 Oklahoma. In this episode of the family saga we meet Tilly who runs a covert moon-shining business handed down through the ages. The new sheriff in town's main purpose is to thwart moonshining, clean up the town, then move on to the next. He can't seem to gather any evidence to support his feeling but he'd bet that Tilly is in the business, he just can't catch her at it and she gets very creative to avoid getting caught. He gets to know her and her family in this small town full of colorful characters, taking meals with them and even attending church to keep his eye on Tilly. A predictable yet likable tale. I like author Carolyn Brown's sense of humor.

A fantastic novel

Another master piece by Carolyn brown. Keeping with the same location as others in the series, a new story about the members of the family. Don't want to let the cat out of the bag, to coin a phrase, but if you have been following her work then I say this is great.
