## **The Cajun Cowboy** Sandra Hill

Charmaine LeDeux, who owns not one but two beauty salons on the Louisiana bayou, has a loan shark on her tail. As if that's not bad enough, Raoul Lanier, who she thought she divorced years ago, tells her that they're still married! Plus, they've inherited his father's rundown cattle ranch together. Raoul promises to give her an honest-to-god real divorce this time if she'll sell him her half of the ranch. But she decides that the ranch is the perfect place for her after all; i.e., the perfect hideout for a woman who needs to lie low for a while.

The last thing Raoul wants is for Charmaine to live with him, but Charmaine has always been stubborn. Soon she's taken over the house, adding feminine touches everywhere and having his three ranch hands eating out of her hand. When her belly-dancing great-aunt and the rest of the LeDeux clan come over for Thanksgiving dinner, Raoul knows he's lost the fight. He might as well give in to the temptation she still rouses in him. Now if he can only keep her safe from the Dixie mafia looking for her and convince her that he's worth a second chance at love.

I orginally gave this book a four. I bumped it to five because I loved the down home country heroine. I'm a country girl so I enjoy reading a book about a chick I can identify with. So sick of perfect yuppie business ladies. P.S. I aspire to be like Tante LuLu!

This is my first time reading Sandra Hill books. It was a fun read after I figured out the Louisiana dialect that is used in the book. The characters are interesting and the story line is good.

*Lo que no me hizo amarlo como debería esta historia y eso que tiene todo; como ser original y divertidísima, fue que ellos desperdiciaron muchísimo tiempo, tiempo donde ya estuvieran rodeado de muchos hijos. Pero supongo que no fue el momento, él por no valorarla más y ella por no confiar más en él, eso como que no me hizo disfrutar mucho la historia, también hubo partes donde a ella la califican de cierta manera y pues sentí que él no la defendió como se esperaba y eso que se llena la boca de alabanzas de ella en algunas partes...*

The Cajun Cowboy starts with Charmaine and Tante Lulu commiserating over some oyster shooters. (which sounds disgusting btw) It seems Charmaine has to come up with a lot of money or else the local Dixie mafia

is going to shoot her in the kneecaps. As if that wasn't enough, her first ex husband (she has had four of them all together) comes waltzing back into her life and tells her that technically she has never had any ex husbands because they are still legally married! Whoops. Raoul has spent the last two years in prison after being set up and all he wants to do is get his life back. While going over his father's paperwork, he realizes that this ex wife isn't really his ex wife and that his father left her half of his ranch. Raoul offers to give Charmaine a divorce if she'll sell her half back to him. Unfortunately for him, a cattle ranch deep in the Louisiana countryside is the perfect hiding spot for Charmaine and so not only does she refuse his "generous" offer, she moves in! Since this is a Sandra Hill book, there are a bunch of irrepressible characters tucked away on the ranch. There's the ex con/music instructor who has a fine butt, the hang dog old foreman who needs a teeth whitening appointment, as well as the snot nosed punk, whose not really a snot nosed punk but a misunderstood kid. Add in Charmaine's aunt, Tante Lulu and the rest of her crazy clan and you've got a heck of a family holiday party. Charmaine and Raoul have always loved each other and Raoul would love to make the moves on her again but there's the tiny matter of Charmaine being a born again virgin and her determination that the next relationship she jumps into will be for keeps. When the barn starts exploding and the bullets start flying, Raoul might just be willing to play for keeps but will he be able to do that and keep Charmaine safe?

Ahh, another charming tale from Sandra Hill. Charmaine was delightful especially when she was decked out in her in-your-face bimbo attire. How many sexually suggestive logo's can Sandra Hill make up? Raoul (I can't stop saying his name without a ridiculously overblown accent) is also charming and his sometimes gruff manner was a perfect foil for Charmaine's breezy personality. Tante Lulu once again steps in with the aid of St. Jude and the ranch hands also lend their unwanted expertise.

There is an interesting plot that includes Raoul's father and his mysterious death, dastardly oil companies and Charmaine's loan shark. It helps to move the story along and keep the ball rolling, especially since there isn't a whole lot of sex going on. Charmaine and her born again hymen keep cutting Raoul off on the knees plus she's demanding forever this time. Raoul feels he's got too much going on right now to concentrate on his wife but when the divorce papers come in, neither one will sign them, nor will either one make a move. It takes a family filled Thanksgiving to get these two made-for-each-other lovers to finally take the leap.....again.

Although I really liked The Cajun Cowboy and I liked Charmaine, I wished she would have eased up on the gigantic chip on her shoulder. The girl walks, talks and acts like a bimbo but if anyone even dares say that she tends to react badly. Raoul manages to get past her prickly defenses though and sweeps this former Miss Louisiana off her feet. This was a good fun read and I can't wait to read more of Sandra Hill's Cajun series. Enjoy!!

First book I ever read by this author, so obviously first book I ever read with the LeDeux family. It was interesting. A few plot points that seemed to come out of nowhere and weren't woven into the story very well. But the characters were very well-developed.

Aunque se resistieron un tanto, Raoul y Charmaine volvieron a estar juntos. ¿Quién podría resistirse a una ex-reina de belleza y un vaquero cajun? \*-\*

Another hilarious, laugh out loud book by Sandra Hill. The Cajun Cowboy is 3rd in the series, and so far the best.

The sexual tension between Rusty and Charmaine is great. I really enjoyed both of their characters. Tante Lulu is funnier than ever, with her outrageous cloting and constant meddling. This by far is my favorite in the series.

I enjoyed this funny, down home Loo-zee-anna style book. The main characters were so neat and their interactions had me laughing out loud many times! Charmaine and Raoul (Rusty) had a history together and both were having to live with decisions they made in the past. Charmaine's character was flamboyant, but she had such a good, kind heart. Raoul was always trying to say the right things, but somehow messing up in that department. Two very likable characters that needed help and got it in St. Jude (patron saint of hopeless causes), Tante Lulu and the rest of the family.

The internal dialogue and the antics of Tante Lulu were what made this book so funny and pleasant to read. There is a dab of suspense, but this is mainly a nice, modern, romance--Cajun Style. Loved the Cajun influences on the book!

P.s. Never heard of peeling okra...hmmm.

After reading Colleen's review of Cajun Cowboy, I ran out and bought the last copy from my local bookstore. I needed something fresh and new and funnier than heck after a tough week at the office.

Cajun Cowboy is a great story - laugh out loud funny, sexy, witty, and full of the most bizarre, eccentric characters. Charmaine, a born-again virgin, and her ex, Rusty a/k/a Raoul, were well-written and believable, but Tante Lulu, Charmaine's quasi-great aunt, was by far my favorite. When Rusty described Tante Lulu as looking like a 5-foot rodeo clown (cowboy boots, spurs and all), I had a fit of giggles. The only thing better was when Tante Lulu walked in on Rusty while he was - \*ahem\* - in the buff. The dialogue was classic.

Did I mention that I wanted to get my hand on some of the recipes for the Cajun dishes in this book? I don't recommend reading this book at 2am unless you can avoid a snack attack.

The only thing that really bugged me about this book was when the author kept using the word "homed" (which she used many, many times). The proper word should have been "honed" given the context in which she was using it, but it is a mistake that can be easily forgiven and over-looked.

I've decided I no longer have control over my buying power at the bookstore. I trust Colleen's judgment (again) and am thankful to have someone to blame when my hubby gripes and complains. Thanks, Colleen!

*"It never occurred to me that you would cry over me."*  
*"And why is that?" she asked contrarily. Clueless... the man is clueless. I cried a river over you, baby.*  
*"Do you think you're the only one who was hurt over our breakup? Do you think you can holler at me, and my feelings won't get hurt? Do you think I don't feel bad that you feel bad? Do you ever even goddam think?"*

This quote is perfect, because especially the hero, our main couple's relationship suffered from a lot of miscommunication and misunderstandings. If they had taken the time to think or talk, they could have fixed things pretty early, was mildly annoying. But really, where is the fun in reading about well adjusted people? ;)

If Cajun cowboys are your thing (and if they're not, the description of this hero will make you want them to be) then this is pretty close to a must read. The humor crosses over to slapstick a couple times, which is not my favorite, but not overly hokey. I was also not a fan of the characters saying something and then a few sentences of their inner thoughts (most of the hokey humor can be found here) immediately following. This broke up the flow of the story for me. This is a little older but I think it has aged well, no problems there. The leads had hot chemistry and I'll never tire of reading and thinking about our hero in his scuffed boots, tight wranglers, snap button cowboy shirt, and beat up cowboy hat.

### **Colleen (NerdyWoman) Kayter says**

I'm very thankful to the publisher for choosing a sedate cover for **The Cajun Cowboy**. This book is sooo funny, it would really be embarrassing to read in public if it had a racy cover. We're not talking grins or brief giggles, we're talking laughs that make your sides hurt and bring tears to your eyes.

This book is part of a series by Sandra Hill and I can't wait to read the others. The funniest character is Tante Lulu and I'm looking forward to reading more of her outrageous dialog in the other books.
