## Three More Wishes Sean Michael

James, Guard, and Damien are back, still running their resort, where every fantasy, no matter how perverse, may come true. The three men continue working out the bumps in their threesome, but when it comes to their clients, they're a well-oiled machine. Which works perfectly for the three new couples arriving in paradise.

Cameron is losing his sight, and he knows that he'll be useless once it goes completely. He's cashed in everything to leave his life behind for one last fling. Xander is on the island for a fantasy, too. He's looking for someone to love on, someone to care for and Cameron seems to be the perfect match, but can they make it work?

As a writer, Ben always writes the script, which is why his fantasy is to give up control. He thinks his fantasy can't be fulfilled, so he settles in for a relaxing vacation on an island paradise instead. Is he really as safe as he thinks he is?

Finally, Leo is a consummate Top, always wanting better his technique. He wants to know what it's like to be a sub, but it won't be easy for a Dominant to bottom for five days. Leo will do his dead level best to measure up; his only worry is who the boys chose to be his fantasy Top...

## From Reader Review Three More Wishes for online ebook

### Ann says

3.5 Stars

The setup for Three More Wishes is a porntastic Fantasy Island with insta love, boners weeping with constant need and HEA's for all around. The formula is fun and if you start the book knowing what you're getting into, you can enjoy it for the happy fuckfest that it is. Don't try and analyze it and make it into something it's not, just wallow in the need like a happy little slut, clock out from reality for a bit, and relax on the sultry shores of Island Pound Town.

Full disclosure, I have not read the first book with the first three wishes and the backstory of the triad that are the island's hosts, but there was enough info to get the gist without leaving me in the dark. The book starts with Guard and Damian working on getting back into James's heart and his pants. These three are the triad that run the island and they each have a role in making sure their client's fantasies get fulfilled. The three don't show up again until the end so you can consider them the prologue and epilogue. What little I got from these horny bastards I liked so I would definitely like to read more of them on their own.

Like I said, there's a formula here and each wish follows it pretty faithfully with enough variance to keep things interesting. A man has a fantasy, he throws all his dollars at the island and the island finds him his perfect prescription for magical peen. They have five days to bone their way to happiness, and none of them waste any time. I've got to give them all props, for that and since I'm sure these trips are not cheap my frugal inner self appreciated them not wasting time on ridiculous niceties when the clock was ticking.

I'm positive there is something in the water there because the magical peen never fails to lead to not only perpetual boners, but true love and HEA's.

The first story with Cameron as the main MC was the longest and probably my favorite. It's completely implausible but whatever, he was just so sad and needy and when he was fit with his magical peen (much like Cinderella and her slipper – with the slipper being the peen. Obviously) and then all his dreams came true and I was happy for him. It's sweet enough to give a reader cavities, but when two guys are matched up that well, you can't help but let your heart grow three sizes and love the love by way of the dick.

The second two stories had a focus on BDSM as a fantasy element, but it's more BDSM-lite and I did like how the author used their fantasies to get to the root of what the characters really needed which wasn't necessarily what they wanted. So, they spent their time on the island fucking their way to inner peace and self-realization.

Three More Wishes is a fun read that makes you feel a little decadent for enjoying it so. It's a perfect beach/vacation story for when you should be decadent and a little ridiculous. Embrace it, screw it into submission, fist it because that's how we show love, but mostly, just relish it like these tops relish their needy bottoms.

### **Lucia says**

I loved the first book in this series and this book again proved why. Three very hot and interesting fantasies were fulfilled and three new romances were born. I loved the creativity in the stories and how you were thinking during the story of a couple: what surprise do James, Guard and Damien have for them? Like a lot of books written by Sean Michael, there was a lot of sex, but it didn't bother me because there was a great story behind it and like I said before, it was so hot.

Also the story between James, Guard and Damien, although shortly addressed in this book, is getting more and more interesting. I really want to find out what happened between them that James is so resisting now. Damien sometimes just broke my heart.

Looking forward to the next book in this series!

### **Stella ?????? says**

I'm a huge fan of Sean Michael, once a month I need to read something by him, a re-read or a short, anything is good.

Three More Wishes is the book two in the Rainbow Island series, incredibly I missed the first one but apart for some more details about the relationship between the three hosts of the island, James, Guard and Damien (which I would love to know), this re-release worked well as a standalone to me. If you already have read this author, you'll know what to expect. Sean Michael is great at writing very hot scenes, sexy and dirty just how I like them. And the sex is never pointless, it's just the garnish to lovely and sweet plots.

In Three More Wishes I get to know three new couples and their relative meetings and starting of new relationships.

Cameron and Xander were probably the sweetest couple, they are a match made in heaven. One blind, desperate man, ready to end a life with no sight and with no possibilities for him to survive, meet Xander, protective, already trained up on the world of the blind people. It was very emotional seeing Cameron first so resigned and then start to believe in Xander and the reality of a future together.

Ben and Tip relationship was more adventurous, Ben is a writer interested in knowing what it means to be kidnapped. Things don't go exactly how Ben expected, on the contrary he will find the unexpected Tip. And I can assure you, since I didn't read the blurb before starting the book, for a moment I truly thought he was kidnapped.

The last couple was probably my favorite. Leo and David story was hot and cute. Leo is a dom looking for another dom who will help Leo better understand sub's minds. That dom is David but David is also in love with Leo since forever.

I enjoyed Three More Wishes a lot. Of course there are four stories in just a little more than two hundred pages, there is no space for a lot of development but what I got greatly satisfied me. I can't wait for the next installment, especially cause I want more James, Guard and Damien scenes.

Just a note, read the warning at the ending of the blurb, if you're not comfortable with those triggers, better stay away from the book.

The cover art by Posh Gosh is just okay, I like it but in my opinion it's not fitting. I can't understand who is the couple depicted. For this book a cover with no people at all would have been a winner. In fact I like more the cover of the old edition.

---

### **Mimi says**

The three fantasies in part two were all so well written. The first fantasy was the most touching of them all. Fantasies two and three were hot and sexy, but you would expect nothing less from Mr. Michael in the hot, erotic, kinky sex department. The one thing that upset me was the Ménage with the three main characters. Why did he drop the ball, was there another story about them? I want to know?

---

### **Carey says**

I didn't like this one as much as the first. The three scenarios were too similar to each other I thought. Also, is this a series or just 2 books? Again, I was left disappointed with the story I got for J, Guard and Damien. I actually felt like this one I was reading just to get to the end and read about those 3 and then there was only a small part with them in it again. The first book I enjoyed the scenarios better. I want the story of J, Guard and Damien!

---

### **Serena Yates says**

This second book in the "Three Wishes" series was even better than the first. I think it was the relationships between the three 'guest couples' that made the difference for me. They were more intimate, challenging and plain hot; but they were also more focused on the emotional side of D/s relationships. That doesn't mean there was no kink, but it seemed as though there was more of a point to it.

Cameron and Xander are an amazing couple. Cameron, because his desperation is so palpable, and the idea of him committing suicide because he was going blind had me in tears and angry at the same time. Xander takes a long time to figure out what is going on with Cameron (in times of the "after the fantasy" part). He can't even fathom someone wanting to kill themselves because they are losing his sight. This incredulity makes him all the more convincing for Cameron, but the struggle they go through is breathtaking.

Ben is a writer but he hasn't experienced some of the things he writes about, so he decides to give it a try. Kidnapping is a dangerous fantasy to have, though. Not much to my surprise, he discovers it is a lot less fun than he thought. This shocks him but he ends up going with it, because, in the end, Tip is the man to teach him some things he never knew.

Leo and David were very cool together. Leo is normally a top, and, as is likely when a top decides to see what it's like on the other side, he is in for a surprise. David, a man who has loved Leo for a long time, is just the right guy to do the teaching. This was a great story, because both men ended up learning, it was extremely hot and very tender at the same time.

The framework relationship between James, Guard, and Damien is heartbreaking. I loved the progress they made – but the suffering they went through to get there had me on the verge of tears most if the time. Loved it!

If you like reading about the emotional side of D/s, are interested in some different ways of looking at new couples and want to fantasize right along with the characters, you will probably like this book. It made me feel as if I were right there on the island with them.

### **Mary says**

I received a free copy of this book to read and review for Wicked Reads.

To me, this book is all about chances. Random chances, second chances and even third. Its about giving people what they are afraid to want, giving them the safety and security to be able to voice their fears, their concerns and what they are most afraid to hope for.

Each of the fantasies takes you on a roller coaster of emotion, each one different yet the same. Cam and Zander are each looking for some to love, even if its a short time. Ben is looking for a way to give up control but thinks the only way to do that is to have someone "take" control. Leo is looking for a way to connect on a deeper level to the subs he trains, and learns that sometimes giving up power is freeing in more ways than one.

The power play between Damien, Guard and James is explosive as always and I would love to have more of their story, including the backstory where we find out how the division came about between the three.

### **Sarah says**

I enjoyed reading Cameron's story - it was interesting, sexy and a good length. Unfortunately the other two stories seemed a little short - I would have liked to have had a little more on each one.

The relationship between James, Guard and Damien was nicely done. Worth reading.

---

### **Allie says**

I found this book to be similar to the first in that there was very little to the story and far too much sex (and I do enjoy the sex in books but there has to be a solid storyline). There was a little more about James, Guard and Damien, the wanderer, but just not enough. The 3 mini stories were as sex filled as in the first book, unfortunately. Not enough story and too much sex again. And I hate saying that. I want to read about the whole James/Guard/Dame story (without 85% of it being sex).

## **Caroline Brand says**

### REVIEWED FOR PRISM BOOK ALLIANCE

This starts out with a rather hot interlude between friends, lovers and business partners James, Guard and Damien but as always happens it fizzles out with grief and guilt. I am desperate to see how these three get on and whether they can save what they once had.

The first of our fantasies involves Cameron, a man who has cashed in everything he owns to have one final hurrah but he ends what can only be described as his despair. Cameron is slowly losing his sight and has no intention of sticking around to live a life in the shadows. His partner for the week is Xander, a man who is looking for 'the one'. He needs someone to love and look after and he may have found his dream in Cameron if he can just persuade the man to live again.

The second fantasy is far more risqué. Ben is an author who wants to give up all control – in fact he wants more than that as he wants to be kidnapped and have his control taken away. This is definitely something that worked better in Ben's head than it did in reality. Tip has been chosen to be the aggressor – a gentle man who makes a couple of trips to the Island a year to help the guys out. Although one of these men will need to safeword it remains to be seen what the rest of the week will bring once their emotions are on a more even keel.

The third fantasy was definitely my favourite this time round. There is something about 2 very dominant men coming together that intrigues me and Leo and David were great together. This is Leo's fantasy, he wants to become a better Dom so he plans a week of submission to know what the other side of the dynamic truly feels like. His Dom for the week is David a man he already knows and this causes complications – it's further complicated when David admits he loves Leo and has wanted him for years. I loved the battle of wills this pair went through and how Leo finally submitted without really being submissive.

The epilogue...for the love of god please give Damien, Guard and James their story and their HEA.

---

## **Ruthie Taylor says**

~~I received a free copy of this book to read and review for Wicked Reads ~~

Three More Wishes gives us another collection of fantasies that get fulfilled. They are all excellent, although Cam's story maybe got to me the most. Xander was amazing with him, and so hot together. All three stories make you think, definitely heat you up, and give insight into elements of BDSM which are sexy and engaging.

The story of the three men who run the island is possibly even more intriguing, as we get a little more via the prologue and epilogue. There is definite progress with James, and even though Damien is struggling to believe it will happen, Guard refuses to give up.

I'm looking forward to the next instalment already!

## ? BookAddict ↗ La Crimson Femme says

"Boss, Da plane da plane!" is what I thought of when I read this book. I didn't read the first book so I was a bit confused about the history between the three lovers, Guard, James and Damien. I did find out from my friends that the first book doesn't reveal much either. I guess I'm going to have to hope Ms. Michael writes another book in this series and we finally learn about these three. It's pretty depressing at this point.

The three of them run a BDSM fantasy island for men only. (Wah! I wanna play. \*pout\*) The fantasies were hot and all D/s. The BDSM was just right, nothing too heavy so it was fun. The aftercare was especially tasty. The relationship building between each of the couples on the island gave me a warm fuzzy feeling in my heart. And it gave me a warm feeling...down there. HAH.

The first couple - it's rather sad as one is suffering a deterioration in his health and has given up hope. He's come to the island to have his fantasy of being taken care of, fulfilled. The Dom wants someone to take care of - not a pushy sub. It's a match made in heaven.

The second couple is a hot non-con kidnapping fantasy. Yeah, reality isn't so pretty as fantasy, is it, Ben? (I can't believe I just wrote that to a fictional character.) Anyway, it was interesting to see a safeword yelled. It was pretty hot between the two and I enjoyed their coming together.

The third couple was HOT - a dom submitting to another dom - A YOUNGER dom who knows him. While I never saw the threatened spanking so I think Leo didn't really get his sub experience. Still, it was hot and boy could that man take multiple ass-fuckings. Yowza.

I gave this a four because I liked the concept and each relationship while moved unrealistically fast, I enjoyed them. They were so sweet and just lovely. I also enjoyed Ms. Michael's writing style. It's my first book I've read of hers. I will have to read more.

---

## Tam says

This is a follow up to Three Wishes which I didn't read, but it's essentially three men who run a "fantasy island" for BDSM fantasies. Each book is three stories of men who come to the island seeking a particular BDSM fantasy. Three men run the island, Guard, Damian and James, however I found myself wondering about the back story of the men as James is pushing away his lovers because he's in a wheel chair, but it's unclear what happened but Damian believes he's responsible.

The three stories are a man going blind whose intention is to commit suicide after this fantasy, however the man chosen to be with him is seeking someone to care for, and he fits the bill. The other is an author of thrillers who wants to try a kidnap/slave fantasy. However it doesn't go as well as he expects. The third is a Dom who wants to be a sub for 5 days to better understand what it's like and is shocked when he sees he knows the guy chosen to be his Dom for the week.

I really liked the first story, it was the longest of the three and I felt for Cameron whose ex actually helped him by the pills. Sheesh. Nice guy. The second story had me a bit on edge as the author was not coping well

with the sex slave thing and FINALLY used his safeword. I wasn't sure exactly where that was going, but conveniently worked out. And the third was kind of cute as the Dom confessed he was in love with the wanna-be sub. I was curious though they both "trained" subs but he said he didn't want to date a sub. So the sex with subs is what, like your day job? I don't quite get that. This is a typical SM with LOTS of sex and at times I found myself skimming to get to the relationship resolution. There was some movement on the original trio, but I still would have liked to see more than a little intro and epilogue to know more about them and if they could work it out.

---

### **Trio says**

I especially loved the story about the two Doms, really well done. I hope there is another book in the series, otherwise SM wrapped up the whole thing between Jack, Guard and Damien *way* too fast.

---

### **Serena Yates says**

This second book in the 'Rainbow Island' series was even better than the first. I think it was the relationships between the three "guest couples" that made the difference for me. They were deeply intimate, challenged each other, and were plain hot; but they were also more focused on the emotional side of their different D/s relationships. That doesn't mean there was no kink, but it seemed as though there was a definite point to the kinkiness as part of their relationships.

Cameron and Xander are an amazing couple. Cameron, because his desperation is so palpable, and the idea of him committing suicide because he was going blind had me in tears and angry at the same time. Xander takes a long time to figure out what is going on with Cameron. He can't even fathom someone wanting to kill themselves because he is losing his sight. This incredulity makes him all the more convincing for Cameron, but the struggle they go through is breathtaking.

Ben is a writer but he hasn't experienced some of the things he writes about, so he decides to give it a try. Kidnapping is a dangerous fantasy to have though. Not much to my surprise, he discovers that the reality is a lot less fun than he thought – even when the "reality" is just a fantasy. This shocks him but he ends up going with it, because, in the end, Tip is the man to teach him some things he never knew.

Leo and David were very cool together. Leo is normally a top, and, as is likely when a top decides to see what it's like on the other side, he is in for a surprise. David, a man who has loved Leo for a long time, is just the right guy to do the teaching. This was a great story because both men ended up learning, it was extremely hot and very tender at the same time.

The framework relationship between James, Guard, and Damien is heartbreaking. I loved the progress they made – but the suffering they went through to get there had me on the verge of tears most of the time. Loved it!

If you like reading about the emotional side of D/s, are interested in some different ways of looking at new couples, and want to fantasize right along with the characters, you will probably like this book. It made me feel as if I were right there on the island with the characters.
