I learned only elves were perfect helpers.

Santa has problems with all sorts of helpers. What could go wrong with DRAGONS? FAIRIES? BIGFOOT? MUMMIES? You get the picture?

## **Julie Hedlund says**

I don't love the illustrations in this book (or the other one), but I'm sure that's just personal preference. My kids LOVE his books. They are very silly, preposterous even. But then, who can resist Santa on a surf board?

I needed a more fun choice for preschool Christmas storytime than what I had. And I only had whatever was our library the night before. So I was happy to see this book, illustrated by the same guy who did "Me & My Dragon." So, of course I loved the pictures. Best part. Funny idea of Santa using various mythical creatures, which I think the kids will enjoy. I don't like the ending, so I'm going to skip it.

12/18/13 A fun opener. I'm pretty sure the kids liked the pictures. And I think they got the humor. There wasn't much for them to get involved with. And I have been getting such a quiet crowd that doesn't do much responding when I ask them questions. \*sigh\* So, it's hard to know if they liked the book, or if I'm doing a terrible job or what. At least the adults are re-assuring me that I'm doing just fine.

This is darling! Cute illustrations and a large range of characters you may recognize from other holidays! =)

Not nearly as good, creative, or fun as the Thanksgiving book.

Such a cute book !!! I had both my kids guess at the beginning who they thought would help Santa . My three year old guessed cats cats, my 5 year old guessed the dragons . They were very excited at the end . I absolutely loved this book .

Very cute book. Simple sentences that are easy to read, but they contain some "jokes" that even older kids (or perhaps only older kids) will understand. The illustrations are very enjoyable, as well.

The girls and I enjoyed this story very much! Even though, they know that elves help Santa make the toys, they were bubbling with excitement, as to whom he would choose!

Simple text make this a nice read for beginning readers. It also makes a nice read-aloud, thanks to the beautiful illustrations, by David Biedrzycki. There are hidden items in the pictures and lots of other neat surprises in the picture story behind the story.

It's hard to put my finger on why I wasn't a huge fan of this book. It's short and simple and makes for a decent holiday read-aloud. While I'm not a huge fan of the artwork, the pictures are quite large so that is good for a group setting. I love that Santa goes through a variety of magical helpers before deciding on elves, but I feel like there is a better story there. I guess I was expecting more humor since there are dragon helpers on the cover, but the story fell a little flat for me.

The "Who Will...Santa" books are my children's favorite holiday books. Through the years, these books are the first they grab. They love the story and the hidden images! I found them fun enough to read over and over when they were little. Now that they are older and read it on their own, I have the resort to reading it to my class just to ensure I get to read it to someone! Great keepsake.

I didn't actually love this book, but I know that when I read it to my kids they will.
