Wow! Where do I start, my mind is still trying to come back from all the Hotness packed into this box set. I was really excited to finally read the actual stories from the excerpt in Alpha Heat. Let me just say these amazing Authors did a great job they totally gave you what you wanted, but not expected it was way more steaming hot than one could imagine. I mean it was so intense it would leave your panties soaking wet. What could wrong with sexy hot alpha males and voluptuous alpha females that wake up the lustful beasts within them. I wish I could tell you more but I don't want to spoil.

ALPHA FEVER by Various Authors

This collection of books are made up of 22 really interesting and enjoyable stories, consisting of paranormal and contemporary stories written by a variety of authors. The storylines vary, some light hearted and others darker and dominant. The pages are colourfully lit up with action, suspense, romance, and characters of every variety. I did however prefer some books better than others but none the less they were all still enjoyable. I definitely recommend this box set!

This is a review of Jaquiline Sweet's "Fake it till you mate it"

This is such a fun read, I think I laughed more with this book than I have with any others for a while. Danny is in a predicament, he needs a fake mate to bring home to his pack of bear shifters. Enter Sarah, his best friend who just happens to be mortal and a beautiful curvy woman, who knows his secret of being a bear shifter. She has ahead a string of jerk boyfriends that never work out, mostly because she keeps comparing them to Danny. The perfect solution for Danny is clear to see, at least to Sarah, have her pretend to be his mate. The only problem, is that the closer they a forced to be, the easier it is to "pretend" that they are made for each other. Will this farce turn into a real mating, or ruin their friendship forever? I was given a copy of this book in exchange for an honest review.

Loved the book. Each story is either a continuation or prequel to each story in Alpha Heat. It really wraps everything up that anyone was waiting on. From the steamy to the sensual, the book doesn't disappoint.

## **Laura Furuta says**

This book set has it all!! Wolf shifters, vampires, bear shifters and more hot and steamy stories than you may be able to handle. I love box sets because there are authors I get introduced to and then I find more books to read. Some may call this a problem, I think it's heaven. Each author in this set has their own writing style and boy can they write. Characters come alive and do they have stories to tell!! If you love steamy romance and hot Alphas this is the box set for you. I received a copy of this book in exchange for an honest review.

Can you handle the Fever? The ALPHA FEVER? 5 FLAMING HOT STARS

WHEW! What an ALPHATACULAR selection of authors and stories! As the intro says, it is “filled with a scintillating, spicy blend of BRAND NEW contemporary and paranormal romance stories”!! While that is one ALPHACEPTIONALLY apt description, it is also SO MUCH, MUCH MORE than that too! And I haven't even read through every story as of yet! I think I am about two thirds done now, and I am eager to get back to reading – I am missing my Alpha Love! – so I will give you my short & sweet initial thoughts, hopefully to further entice you (or push you OVER the fence you may be wavering on LOL) to purchase this FLAMING HOT & SPICY box set!! I am a paranormal girl at heart, but I couldn't help but read them all, even though I had originally planned to first read the stories where I knew the authors, or where the stories were paranormal, or continue the stories of the ones I fell in love with in the Alpha Heat short stories collection, before reading the others. HA! YA, RIGHT! Once I started reading, I completely forgot about that! I just kept going, reading them in the order they are in! I am just so ADDICTED and couldn't NOT read each book! You can NEVER go wrong with box sets/collections, but trust me - YOU NEED THIS ONE!! It is the perfect blend of.. well... EVERYTHING!! And where else can you get the chance to discover some great new authors, read stories you might otherwise not read, and surprise yourself by LOVING them! Yup! That is EXACTLY what is happening to me right now! I have a list going as to which new-to-me authors I want to read more of, and for the authors I already love, I have notes of just what characters I want more of! They ALL are TRULY MELTACULAR stories that you cannot help but fall in love with! And those authors? Well, I have to admit that this paranormal girl might just be making some more room in her heart and bookshelf so that I can add some new authors & books into my reading list. This is one FEVERRIFIC collection of great authors that cross over multiple genres, with varying storylines, writing styles & so many different kinds of characters, but they all have one thing in common - THEY ARE ALL ALPHATASTICALLY HOT!! So let your fingers do the walking & clicking and get this collection today!!!!

This is a vast collection of little scenes from some of your favourite paranormal/erotics authors. With vignettes from well-known writers incl Elianne Adams, Erzabet Bishop, Elvira Bathory, Crystal Dawn & Jacqueline Sweet. There are many different genres incl in the set and I dare you not to find something to whet your appetite. Each scene is only a few pages long and I managed to read the whole set in just over an hour, but I am a speed reader!

Great writing, interesting and intriguing characters and something for everyone. You can't go wrong!!!

## **Pablo Michaels says**

There is a vast diversity of stories in this collection. The Butterfly collector caught my attention the most. The Butterfly Collector Not Your Usual Love Story. In fact, it's quite unusual. Oliver is a man with a physical deformity very noticeable even to casual strangers. He has a clubfoot and limps terribly in pain when he walks. But his deformity is actually in himself in how he perceives himself as a man. He is ridiculed

and bullied by children. He leads a normal, routine, boring life but he accepts that as his fate. Until his new next door neighbor knocks on his door one Friday night at ten p.m. Pushing her way in his door, Victoria asserts her extremely beautiful presence, requesting help contacting the power company. Oliver is overwhelmed and clumsy in attempts to help her. He is very attracted to her, and it displays itself through his pants. Victoria seduces Oliver, asserting her dominance over him as his Mistress, relating he must obey everything she demands if they are to be friends. Oliver as at first is in disbelief but she convinces him to trust her. Oliver has a date for the following night. He is excited and looking forward to seeing Victoria again. The next day, Oliver begins his day feeling confident and treats other like so. The kids do not know how to respond when he sticks up for himself and ridicules them in turn. I was on the edge of my seat wondering what Victoria would demand of him when they made love, but I was pleasantly surprised by the tact and beauty of the sexual play they embarked on. The Muffy Wilson's descriptions of the settings are precise and parallel the mood of the characters explicitly. The dialogue is highly believable. You will love Norman and Victoria as the butterfly begins to fly. I give a solid five stars for The Butterfly Collector.

### **Tonya Jacobs says**

The Alpha Fever boxed set, as you've read in the summary, is a compilation of enticing short stories. So of course the chemistry is strong and the relationships between the characters develop quite quickly. With that lead-in, I quite enjoyed the couple that I've read so far. Here is a sampling:

#### **Hedging Her Bets: A Shifting Hearts Dating Agency Novella by Erzabet Bishop**

In this cute, steamy, fast little paranormal, we meet mates, Jonathan and Lucas. They are the co-owners of a BDSM club and Lucas also owns a tattoo shop. They are looking for the female to complete their triad, and have been waiting for her to complete their bond since they mated several years ago.

Natalie is a hedgehog shifter at odds with her "politically correct" family. Her mom's constant put downs made me want to reach through the book and bitch slap her myself. Anyway, Natalie finds her way to Lucas and Jonathan and the sparks instantly fly. This short story had humor, family drama, sexcapades, and a steamy HEA. What's not to love!

#### **Between the Marshall & the Vampire by Tricia Owens**

First off, let me start by saying I loved the creativity of the world building in this story. We only get a glimpse of it as these are short stories, but what a combination of western, sci-fi, paranormal, erotic and ménage. We have a Deputy Marshal, super sexy cowboy named Clay who is taking his charge, Mariel, via train to testify against a bank robber. But Mariel, a young widow and inn keeper, dreams of being a star ship pilot and leaving her dull life and small town behind. A chance encounter with a "night stalker" named Vellum, and their journey takes a whole new and quite steamy turn. They must learn to trust, to overcome prejudices and accept love in all its forms. This story was well written, the characters rather deep for a short story, and the plot and detail were phenomenal. I will definitely be looking for more from this author!
