From the popular creators of I'm Bad!, I Stink!, and I'm Dirty! comes the perfect new addition to this hilarious read-aloud series: the fire truck.

He's a big red ENGINE

With a siren,

A horn,

A tank full of water,

And a whole lotta HOSE!

He's a good-lookin' fire truck,

And he's BRAVE, too.

When the alarm sounds

EEEEEEEEEEEEEEOOOOOOOOOO

He's gotta drive through

SMOKE and HEAT

Straight to a blazing FIRE!

HONK! HONK!

Katie says

Read at Home Town Heroes Story Time - 7/11/15

Fun, high energy book with lots of great sounds effects. Very simple story inside a distribution of the tools that make up a fire truck.

Annie says

A great read-aloud with lots of energy. Not too much for the right two-year old, but still shows how all the important pieces of a fire truck's equipment are used.

Pamela says

A bit too specific, especially with all the equipment and tools that the truck carries. For fire truck enthusiasts.

Margaret Chind says

What a fun title to read for Fire Prevention Safety Week! This is a firetruck with personality, that's for certain. Lots of descriptions too. Interactive text and pages will keep readers entertained and sure to come back for more. Lots of things I wouldn't even know! but it will be sure fun to learn. This is an energetic story that explains a lot. With colorful words and excited fonts that share about a very brave truck.

I'm Brave! is the first collaboration I've experienced from Kate and Jim McMullan, but it was delightful and I'd love to get my hands on their others.

These are Little Man's favorite books. And they are written like song with rhythm and sounds. Love them.

Briana Grenert says

This book was...well...

Read with Anita Brown at the Ardmore public library after a lovely dinner at IHOP.

Erin says

I've read this one to my son nearly every day since we checked it out from the library. He likes the art, the sounds, and pointing at things and making me identify them. Kate McMullan should write him a book called I'm Bossy lol. I enjoy reading it to him and I usually learn something with every book by this author. In this one, I learned a lot about the tools fire fighters use. In I'm fast, I learned a LOT about train cars. I never knew what they were called before I checked it out.

Edward Sullivan says

It's been a fun series, but this formula has run its course.

Matt says

Faster than a speeding locomotive and louder than Neo on days he does not want to go to bed... it's a fire engine. Happy to go into the smokiest situations, hot with fire, these fire engines are brave and well equipped. Tools of the trade and transporting those who are more than capable to fight fires, the engines know what needs doing. Neo loves fire engines and was sure to cross-check the illustrations with the real engines he has seen throughout his young life.

Kristina says

at first I thought this book was a little old for the younger kids but after we read it through it was really cool. my boys loved this book and I would recommend this book to others.

Jesse says

A fun story about a firetruck! I liked that after all of the tools were named they were also used. Having read

A LOT of picture books about firefighters and firetrucks, this is my favorite.

babyhippoface says

What a great new addition to Kate McMullan's picture books. This one is just perfect for pre-k units on community helpers, and I can't wait to hand it to the kindergarten boy who has read every single fire engine book I have in the library!

Bmack says

Preschoolers love this series of books and a firetruck is the perfect choice. The illustrations are captivating and the sounds you make for the firetruck are fun. Kids also learn so many new vocabulary words! Kids will love it!

Rachel Prince says

My son absolutely loves fire trucks so this book is right up his alley, but this one didn't have the flow of the previous books.

Alicia says

Arrogant, self important fire truck thinks he singlehandedly saves the day. My son loves the pictures but mama can not stand the story. One star because it was somewhat educational in that it names the tools on the firetruck.
