## I'm In It Tammy Falkner

What do you get when you put together one matchmaking doorman, some Reed brothers with good intentions, and five sisters, one of whom is a little lost? Get get Tammy Falkner's newest book, I'M IN IT.

Mick fell in love with Wren at the worst possible time. She was in the midst of something wonderful, and then she wasn't. Her life changed in the blink of an eye. And in this situation, it wasn't a change for the better. He can still remember when she felt the first cramp. When she pressed her knees together tightly in the front seat of his car as though she could hold that life inside herself by sheer will alone. And if will were all it took, she'd have succeeded.

But she didn't succeed, and they were over before they began. She was too hurt. She was too raw. She was wishing for what could have been, while he was wishing for what was. And what was... well, it was nothing. At least not to her.

### Fanny says

Puedo ser lo suficiente objetiva como para reconocer que los libros de Tammy Falkner no son nada del otro mundo pero por alguna razon siempre termino devorandolos, son agiles, tiernos y sencillos.

En esta ocasion conocemos la historia de Wren y Mick, personajes secundarios en la novela anterior y aunque la trama me parecio un poco simple, tengo que reconocer que se lee practicamente sola, cuando me quise dar cuenta ya iba por mas de la mitad.

Se que no a todo el mundo le gusta esta saga pero a mi me gusta bastante, no es la mas inolvidable o profunda pero es dulce y ligera, asi que si quieres leer algo ameno, es muy buena eleccion.

3 Estrellas!

---

### Big Joe Rossi says

3.5 stars

Mick, Ryan's brother, fell in love with Wren, a Zero, at the worst possible time. Having lost her baby she has pulled away from everyone and Mick thought she needed that so he gave her that. Now the two are thrown back together and when there is a family emergency and Mick steps in, Wren decides to help and in doing so some of those walls crumble but she is still leery of love and trust.

When they finally connect and all seems to be leading to a HEA old insecurities of one of our couple will crash the HEA and risk everything. Will the two lovers be able to fight through or will they do what they been doing, giving up, giving in and risks losing something beautiful.

This book was longer but I didnt like it much as the other Fallen from Zero girls books.

---

### Jennifer says

So very good!

I was so upset at having to wait for this to finally come out, but it was so very worth the wait! Thank you Tammy For not cookie cutter stamping this out. It really did melt my heart like all your other books!

---

### **Melanie says**

I have been so excited for this book to come out. The Reed Brother series is one of my all-time favourites and I have been wanting to read Wren and Mick's story since getting a sneak peak in Yes You.

Wren and Mick were starting to get close, but then Wren had a miscarriage. While dealing with the hurt she started to ignore Mick. A few months later the whole gang go out to karaoke and Lark and Ryan invite Mick.

The two decide that they want to be BFFs even though they're already a bit in love with each other. Their feelings for each other only grow stronger as they get to know each other better. They build trust and are there to support each other.

Some of my favourite moments included Henry who has been a favourite of mine since the start of the series. I loved finding more about his relationship with his Nan and his meddling was awesome.

Getting to see the Reed brothers again is always great but I thought they could have appeared more. From what I have read from Tammy, this is the last of the series although I have heard of a spin-off series that will feature Seth.

I definitely want to read this series again now that it is complete. When I first started reading the series, I was completely enthralled. I can't wait to see what Tammy writes next (especially if it has anything to do with the Reeds and Co).

### **Laura M. says**

La historia de la perdida de Wren es el tema casi principal, es lo que define muchas cosas de durante el desarollo de esta pareja. Eso si me interesa saber que sobre el trabajo de Mick porque andaba feliz por la vida y ni pendiente jajajajaja. Cabe destacar que si hay dosis de Reed Brothers y su prole, que madre mia parece Gremlins, que les arrojan agua y se multiplican, ellos solo piensan en parir O\_O

## Amber says

Another Reed Brothers book.....

Count me in!

I love this series! I love this book!!! My gosh.... I ate this book up like it was banana muffins and I haven't ate for 3 weeks.

Going to reread the series now!

---

## Dali says

I usually want the kind of story that satisfies me with smiles and feel good emotions. In this case, I NEEDED it. I had missed the Reed Brothers series books so darn much! Tammy is great at balancing fun, sweet and sexy with all the feels and **I'm In It** delivered.

While the story focuses on Mick and Wren's budding relationship, in being the last of the Fallen from Zero girls to find her true love, the novel allows us to take a small peek into everyone's happy ever after.

I don't think I could ever decide who's my favorite couple, I loved them all because they each had a beautiful story and all felt very real. Tammy Falkner has created characters that are the embodiment of all good things that make me wish I could be their friend and be part of their tight knit, loving family and Mick and Wren are another wonderful addition to the series.

*Me: I kind of have the hots for this one chick...*

*GirlWhoBrokeMicksDick: What's she like?*

*Me: She's smart and funny and kind. Sexy as hell. And she's been a little sad.*

...

*Me: I think she needs a friend, and I'm applying for the job.*

\*\*Note: The text is between Wren and Mick. Mick's name for her was changed by Mick's brother\*\*

After suffering a terrible loss, Wren wasn't ready to start a new relationship. She wasn't even sure if she was over the previous one and was sort of considering flying solo for a while. Being part of a loving yet meddling family though, means that when they see potential in something or someone, they're not afraid to meddle a little... or a lot.

Lucky for her, Mick was the kind of guy who not only understood her, he's patient and kind and already halfway in love with her when they're thrown together on a cross country trip... with four kids! Ok, enough teaser/spoilers! I'll let you enjoy the rest of the story without any more plot info. It's definitely more fun that way.

**“So, you’re irritated by the fact that I kissed you.”**

**“No, I’m irritated that you’re messing up our bestie-dom.”**

**“Bestie-dom?”**

**“You know, that kingdom where we’re BFF’s and get to do lots of fun stuff together with no sexual tension... and now there’s sexual tension.”**

So on with the characters. I do have to mention that even though ALL of the heroes in the series are incredible book boyfriends including Mick of course, and that Emilio, the Fallen from Zero stepdad incredibly awesome, I think I fell in love with Henry, the doorman. His was a secondary love story that's epically sweet and served to guide Wren and Mick through their relationship, and yes jerked out a tear or two or many out of me.

Mick was absolutely swoony. A fun, flirty sweetheart with a big heart. Just like Wren, he was a little lost but a lot determined. I couldn't not fall for him. And Wren was perfect for him with a fun, caring nature which she proved other the course of the story.

**“Her. I want her and all that crazy BFF-penis-ice-cream-shovel funniness that’s her. I just want her.”**

Watching Mick and Wren get to know each other was really cute and charming. I highlighted so many of their conversations because they constantly made me smile and I love the interactions with the rest of the characters. Have I mentioned I'd missed them? I could keep on telling you about all the thing I loved about this book but I'll wrap up.

If you loved the Reed Brothers series along with Tammy's honest and fresh writing style which is all her own, you will enjoy every page of this incredibly fun, sweet, sexy and feel-good novel. If you're a Reed Brothers fan, GET IT! If you haven't read this series, what are you waiting for? Tall, Tatted and Tempting (book #1 in the series) is free! (<http://amzn.to/2vo1pat>)

**I'm In It** is book #10 in the *Reed Brothers* series by *Tammy Falkner*. It is a standalone, contemporary romance full of deliciously swoony, sexy, and touching and cute moments. Told from both points of view, with an insanely sweet happy ending.

**Shelley Youngblood says**

I'm In It by Tammy Falkner is book 18, of her Reed Brother's Series. Though it is a complete stand alone, it is part of an incredible series I have read several times as I await for the next book to arrive. Tammy Falkner has a way of creating a world around the Reed Brothers that makes you never want to leave. She has a way

of intricately weaving multiple story lines across the entire series, while giving each book its own stand alone read. I'm In It, does not disappoint. It is filled with humor, love and combustible chemistry. I would highly recommend this entire series to everyone I meet.

I'm In It features Wren and Mick two characters who have been introduced in other books of this series, but their story has so much more than I could have ever expected. Wren had everything in life going for her, until one day she didn't. Dealing with a loss forced her to push those who cared about her away. Mick was one of those people. After all, he was there the tragic night it happened.

Mick lost the woman he was falling in love with before it even had a chance to begin. Knowing that she is the Sister of his brother's wife, he knows he will eventually have to see her again, when she's ready. For now, she has pushed him away, but that doesn't mean he is going to be gone forever.

I absolutely loved this book. I devoured it in nearly one sitting. Wren and Mick's trials and tribulations kept me burning through the pages to find out what would happen next. I truly hope there will be more of the Reed Brother's series, even though there are no more siblings to pair off. The world the talented Tammy Falkner has created is one I hope never ends. I would love to hear about Seth, Enzo and the others who have touched my heart as I read the other books in this series.

### **Marianna says**

#### **Aww**

Finally Wren got her story and I am so glad she did! Loved it so much! I hope to get more!

---

### **Letícia Kartalian says**

4.5/5

Ah, esses personagens criados pela Tammy Falkner... <3

Amorinhos demais.

Sei nem como viver sem.

McGuire, aprenda com ela a não ser repetitiva e não estragar os personagens e ainda manter uma série grande. 2 bjs.

### **??♥????Kathy,Ahmazing Book Faerie????♥? says**

Another great read in this fantastic series!

Love the Reed family and all their friends getting their Happy Ever After's.

---

### **Jeraca says**

Wren's life is pretty shitty right now. She just had a miscarriage and the father of the baby was actually with

another woman. All of Wren's sisters are married, about to be married, have babies, or are pregnant. Which Wren LOVES but it's a bit hard to see everyone she loves so happy when she's still not over losing her baby.

And she is avoiding Mick. Mick was with her when she miscarried and they had just been on their 5th date. It seemed like things were going well, but now she is putting distance between them because she doesn't want to get hurt again.

So when they decide to become BFF's, Wren thinks she can do that. She needs a friend right now. However, Mick doesn't JUST want to be BFF's. Oh no, but Mick realizes that he doesn't know too much about Wren, so he's willing to do whatever it takes to get to know her and make her realize that they are meant to be with each other forever. He just needs to be patient.

When Mick's cousin is in trouble and needs to go to rehab, he decides he is going to take care of her 4 kids - ages 8 to baby. Wren steps in and says that they are going to stay at her place because she has 4 bedrooms, verses his 1 bedroom apartment. And then when Mick needs to take the kids to California - across the entire continent - by driving, Wren comes with too.

Mick is not sure if Wren will be okay with the kids after what she has been through, but he is willing to risk it to be with her more and to show her exactly what he is wanting between the two of them. Even if it means putting his heart on the line when Wren doesn't feel the same.

I love Tammy Falkner's Reed Brothers Series!!! Seriously!! I am so glad that Logan and Emily's story was free so so long ago and I took a chance on trying it to see if I would like it. Because 18 books later, I am still in love and I still want more, even though I have a high suspicion that this may be the last one? Unless she write a book about a family reunion or something haha.

Wren has been through something very traumatic, and I am glad that Mick was there to give her the space she needed, but also to push her when it came time to get past her grief. He is definitely the best match for her and she is the best match for him.

One of these days, I'm going to re-read these books and fly through all of them back to back to relive these lives, because they are amazing stories, amazing characters, and amazing things that all of them do.

If you have been living under a rock and haven't read these, I definitely recommend that you do right now! You won't be sorry :)

---

### **Eteline Rangel says**

una historia bonita, de darse uno mismo una segunda oportunidad luego de pasar por una dura experiencia, el personaje de Mick me encantó, un chico super dulce que desde el inicio quiso a Wren.

No sé si con este historia se cierra esta serie pero si es así me parece bien, creo que ya no queda ningún personaje colgando, o al menos eso creo yo.

Mi calificación 4 ESTRELLAS

**Jennifer Kress says**

**Waiting for 19**

If you read nothing else this year, THIS SERIES should make your list. I don't usually like series books. You have to continually read to find out what's going on. This series, each book can be read in their own. And every single book is a good read!
