Another great read from Sandi Lynn

Overall this is a brilliant read and you know Sandi has done her job well because love or hate the characters which I did lol

I have left individual reviews on the individual books on Amazon and Goodreads for you look at. This is a brilliant collection of HEA books which I love because I hate cliffhangers even in series I'd recommended this box set to everyone who love romance with a bit of attitude.

Well Done Sandi Lynn

Very Good!

This box set contains four very good books. I had read one other book by this author and I'm so glad I decided to give this set a try. It was hard to stop reading once I started!

Beautiful book.

I love reading books by author Sandi Lynn. She writes books that makes me fall in love with the characters every time. I love this box set of books, they are well written, interesting, many laugh out loud parts, some moments where my heart aches for the characters to the point of tears, moments I daydream and some beautiful sexy moments.

Five beautiful stars.

All in one book. I loved how each man had his own ah hips but the women they were with were strong enough to fight through those hang ups and fall in love
