As I read the reviews before reading the book it's indeed good...Arko is much more mature than Animesh and I did like the flow of the story..how a teenager can be a savior for all the people living a low-life style!Arko is a strong character and inside him, he has the strong, indestructible will to fight the world. That is so motivating.

But i am so disappointed with the ending...It didn't match the expectation..! sad :(
