Sara's Secret

Ted Jakes

Sara's Secret Ted Jakes

Recipe for a disaster:

Start with two brothers, one good, one bad, and both of them too badass for their own good. Bobby: trying to get away from his controlling girlfriend Molly, all the while eyeing his best friend Sara. His big brother Nic: wanting an out from drug-dealing after a big bust and a plea bargain, can he find new life and long-term stability working in a coffee shop as his past comes back to haunt him? Or will he try for a short-term fix and screw everything up.

Add one girl with a dangerous secret.

Sara: tired of hiding her feelings for best friend Bobby. Or that she hooked up with his big brother over the summer. But those don't even compare to the secret she isn't allowed to share. Will her black-belt skills in Aikido be enough to keep her centered when the world goes tilt?

Lindsey says

Amazon Freebie 5/16/13

Kristy says

Maybe I shouldn't have had such high expectations but I figured with the title of the book being "Sara's Secret" that the book would be about her and maybe even from her point of view but it wasn't. I also wasn't expecting it to be about drugs so much. I don't know overall it was an OK read but I just didn't really get invested in any of the characters & therefore just got frustrated that it took so long to find out what the secret was & yet I still feel as though she had so many other things that needed to be said that weren't ...and maybe not just from Sara either but all of the characters. Wouldn't be my top recommendation for sure but if you're willing to read anything this might be for you.

Sharlet Mullen says

This is a wonderful story deals with the life of a drug life gone bad and the road to a good life. Lies are not the answer.

Crystal Yawn says

lost me from the start. can't finish.

Stephy says

It could have been good if there was more to it. The plot was severely lacking in so many ways.

Melissa Marlow says

Sara's Secret stays secret through most of the book. And actually she has a couple of secrets. But the truth of the story ly's on two brothers.

Bobby is trying to get away from his controlling girlfriend who wants to mold him into something more. But does he want to give up his past for a new improved life. Not the way his girlfriend Molly is going about it.

Nic, after a bad bust with a plea bargain, was trying to find a way out of his old life of drug dealing by

working at a coffee shop. Maybe not after his past comes back to haunt him.

Lisa Teeter says

I couldn't get into it... I think I got about 20% and gave up.

Rachel Freeze says

Bad. It had no plot. The author did not describe anything. I mean it had a cool story line, but the author just didn't know what to do with it. He made the plot dull and boring.

Kelly Todd says

couldn't finish reading it u don't like having to look up half the book on Google translate.
