Kathy Rouchelle says

With the memories of his lost family put behind him but never forgotten, Barlow is given the task of being the contact person between the MC and the DEA, specifically Agent Tracey Neeson. He's quite attracted to the beautiful and smart agent, but he refuses to do anything about it because...the Legend! No, that thing about finding your one and only crap isn't going to fly with him. Nope..not until it hits him square in the chest and puts a strangle hold on his heart. Yea..he's taken. But being cold to her when he is released from jail for killing the drug kingpin who was going to kill the feisty agent isn't right and his Prez lets him know that real quick and orders him to go and apologize to her before anything else. And their story begins, and what a ride it is. Exciting, intriguing, romantic, funny with the quips between some of the characters and a mystery that comes to an end, all rolled up into a fantastic read that you will not put down until you reach the end.

Esther E. Schmidt always delivers a wonderfully written story that captures you and has you hanging on for dear life as you turn each page, and this book is no exception. It has a great story line that brings to light Barlow's past, brings closure to him and also brings the light of love from the woman who is meant to be his one and only. HA..the legend smacks him good too! Ms. Schmidt brings her extremely well developed, complex and likable characters to life with attributes that you will find enjoyable, quirky, strange and most importantly; believable. She never fails to deliver the big one-two in her stories; action and heat! And believe me there is plenty of heat in this story to keep you warm all winter.

This entire series will entertain you and have you hungering for more and I cannot recommend it highly enough! Score another 5 stars for Author Esther E. Schmidt!

No one quite tells a story like Esther Schmidt. Her characters always reach out from the pages, grab the reader and worm their way into your heart. So much so that you'll feel like you're right there living and feeling the story with them. Nothing could be truer than with Barlow. He's is such a lovable "Orc".

Barlow was given the task of being the contact person between his MC and the DEA. This is not a good thing for several reasons. First off his past which no one, not even his MC brothers, know the full story or even his real name, and secondly would be his attraction to Tracey. From the first time her heard Agent Tracey Neeson voice the attraction began, let alone when she whispers in his ear about "any time". Barlow feels the legends pull with Tracey but fights it (that would be the MC's legend about instantly knowing when you find your one and only) or should I say he tries to fight it. But when danger threatens Tracey and her brother, katie bar the door. Barlow has lost enough in his life and he's not about to lose any more. These two are a powerful force when the work together, in more ways than one "wink wink".

Ms. Schmidt delivers another suspenseful and heartfelt storyline that is both intriguing and sexy. If you haven't started the Wicked Throttle MC Series I highly recommend it. 2 Thumbs Up and OMG This reader is so anxious for Book 3 in the series.... It's going to be a dandy...

Michele McMullen says

Oh Barlow ...I love a big strong alpha male with talented hands!! Yes he may be a biker but when he lays eyes on the sassy DEA agent Tracy he knows that she is "the one". It may look like they come from different worlds but they are so much more alike than anyone could imagine. She surprises him at every turn .Barlow may have met his match when it comes to Tracy. They are compatible in every way but the past has a way of rearing its ugly head and they need to clear it to have a future together. So many outside forces that are causing havoc they will need to sort it all out to hopefully have their HEA !!!!

Loved them, they are so strong, sassy, and their witty banter and sexual chemistry is off the charts!

A great read! The continuing story line of the Wicked Throttle MC, is really strong and continues to grip and hold your attention and interest.

The characters are strong, idiotic and funny, in their views and actions.

He is worried about the curse, but not enough to not go after the girl. He goes all alpha male and she's not interested, at first. He slowly wears her down.

Together they work it out and fall for each other.loved the whole story and series, Please keep up the work.. I cant wait for the next open to come out.

What can I say? I don't like to say things that can be considered spoilers, because you know spoilers, so will choose my words wisely. Esther has delivered another hit story that leaves you wanting more. Her dedication, oh my heart, and the blurb are amazing. I fell like these characters are apart of my family and there are others, who I am hoping get their own story. Its a story of how people fall in love and no matter their history, they will come through in the end stronger, if they are supposed to.

Another cannot put it down read and you will not be disappointed.

When you finish esther's newest book Barlow and absolutely love it,it had the perfect balance of hot sexy scenes banter plus enough action and some suspense to keep you hooked. Barlow was loyal sexy witty and a bit damaged but that's what made him hot as hell.

Tracy has a job that demands for her to be strong no matter what the situation was and sometimes that can take its toll so i loved the fact that we get to see a different side to her through out the book.

I loved the chemistry loyalty and determination both Barlow and Tracy had when it came to each other.

Ooh and wait till you all read the ending of this book damn esther certainly knows how to leave her readers begging for the next instalment of the series.

This series on insta-love because of a MC love legend is awesome. The big tough biker guys are hit hard and fall fast. It's like there is a little cupid following them and when the right girl crosses their path he shoots an arrow straight through the heart!

This one had the addition of a crime mystery and I really enjoyed that!! It kept me turning the pages. I loved that she was the smart one, she was the one putting the pieces together. In her words "He is my personal bodyguard" She was the brains and he was the muscle! And hot as sin muscles they were!! Don't get me wrong he was no dummy, he just let her do her thing and watched her shine.

Cannot wait for the next one! This one left me shaking my head asking What is going on?

When a DEA agent falls for a man in a biker club with a horrible family history.

Their attraction is instant, it's combustible. Barlow's family his mother, and father were not parents, they were murdered with his younger sister. Barlow was only injured. He despises the FBI. Tracy is an FBI agent she is working with the biker club.

When she speaks to Barlow over the phone he literally takes her breath away.

She wants him, but her job may get in the way. I love that Tracy takes no prisoners and she and her brother share a home. To make this story even better their is a psycho on the loose. Killing people by ripping their throats out with his teeth.

I loved that bit of mystery and I immediately knew whom the killer was
This book had me on the edge I wanted to know what's going to happen next
This is one of my favorite Esther E Schmidt's books.

This author, Esther E. Schmidt doesn't fail to deliver another incredible, exciting and hot story to us, her readers and fans :)

This story I've been anticipating since reading the last one from the series when Barlow killed that disgusting disgrace of a human being, Nero and was arrested. The moment Tracy, who's an FBI agent bent down and whispered in his ears, he instantly calmed down, I knew that he was hit with the legend, that Tracy was his one and I wasn't mistaken!!

Now, the romance between these two could be seen as forbidden because well, Barlow is a biker and in a MC and Tracy is a FBI agent but don't worry, these two try to make themselves come to the conclusion that any relationship with each other will ruin some aspect of their lives', but that doesn't last long, especially in Tracy's case which is awesome because she's a badass heroine, determined to get her man at all costs and nothing is going to stand in her way, not even Barlow... He has demons from the past that make him feel that he will taint Tracy and that he's not good enough but our head-strong girl is stubborn and forces his eyes to

the truth of them truly belonging together no matter the past, present or future... they're forever <3

Now, this story does have some interesting and unexpected surprises thrown at us, right, left and center and I was on the edge of my bed a few times but this was definitely worth more than 5 stars anywhere.

The chemistry and the sexy intensity of Barlow and Tracy was super freaking hot to read about because... well, I can't spoil it for you guys so you'll find out when this comes out but you'll definitely feel tingly ;)

You're such a tease to us, Esther E. Schmidt, the last two chapters were great but what really got me intrigued is the next story of this series with our beloved Quill and his mystery girl. I've got to admit I cried when something happened, something tragically and I don't know how this story will start when it does come out but I know our girl, Esther E. Schmidt, will not fail in giving one of our hot MC guys a happy ending with his one, his girl, his destiny, his forever <3 <3

Omg. i am speachless. What a book, what a writer. I have been waiting for this book for a while. And it did not let me down. I absolutley love MC books. soulmates and angels, but that is another story for Another day.

What I like about this series is about soulmates. That there is someone special out there just for you. Barlow is a stubborn man who I did want to kick a few times. But the more i read about him I kind of understod where he came from. i would like one of thoose please,

Tracy. kickass woman who takes no names. She is fearless. ANd a rolemodel for all womankind. We need more of thoose woman. Girlpower and all that.

I am so tired of Reading about week female. Who just goes along with the man, no spine. You ge the gist.

So my take on this book is that everybody should read this, breath this and live this. It is a solid 5 star read. The good news is that this book is a part of a series so you get more books. It is a standalone but for your enjoyment read the other ones first for more backstory.

About the author..She is one of my favourite writers of all time. Her writing invites you in, you feel like your are there in the mist of it all. She never disapoints. And the most important thing is that she writes so many book so there is almost no waitingtime for more of her books.

Now you miss lady Esther need to go to your specialroom, batcave or whatever and write me Quill story. I need that book like yesterday. And if you are feeling generous you can also write me Blakes story. But i can wait a few weeks for him.

I must apologize for my spelling here. I Think there are some errors in this text, but i hope that you understand anyway.

Oh, I was so excited for this book. Well, okay I'm always excited with every Esther's book. I adore Barlow. Again I probably say this about every guy of Esther's. Lol. But Barlow just for making me chuckle so many times, he has a special spot in my heart. He was growly. He was funny. He was sexy. He was just rocking his story. I'm keeping him.

Mel Allen says

Wow this is a MC with a difference, I love the way this story includes all the guys. Barlow is hot and sexy and Tracy is a fierce DEA agent who when they talk on the phone it's love something clicks between them. There love story unfolds as they are on the search for a serial killer. I read this book without putting it down I was so into the story I wanted more and more when the got to the end. It left me not wanting so much more and I can't wait for Quill's story.

Tpagirl says

Barlow was the second book in the Wicked Throttle MC series by Esther Schmidt. The storyline picked up exactly where Xerox left off.

Barlow was an MC member with a painful and mysterious past. Tracy was a DEA agent. Their story started in the previous book, Xerox. We knew immediately they were destined and the Wicked Throttle legend struck again.

Schmidt built the storyline around the relationship development while adding a suspenseful plot into the mix. It was light hearted, a quick read, enjoyable and entertaining. It's a perfect read for those loving the alpha MC male, a strong woman, a little suspense, and don't mind over the top writing. It was a great filler for in between dark themed books.

Schmidt also set the stage for Quinn's story next while providing a teaser for Beecher in the near future. And please let there be a story for Blake, Tracy's brother, maybe even a spin off series!
