Veronica

What do you do if you're a socially awkward college nerd who wants to have sex? If you're desperate like me, you turn to Flirt. It's like a dating app, except just for hooking up. The only problem? My first meet-up is with my best friend's crazy hot older brother. He's the hot quarterback no one can resist. And me? I'm the shy girl who can't even look him in the eye. Nope, it's never going to happen.

Cam

My crazy sister's best friend wants to hook up with random guys. Like hell I'm going to let her experiment with anyone but me. She wants good sex? Well, I want her everything. I've been waiting for you for years, Veronica Sanders. And I'm going to make you mine, no matter what it takes.

A novella for all the shy girls out there who just don't know how to **Flirt**.

I really liked this story. Veronica, or V for short, has taken a year to get over a rough breakup with her former boyfriend. He couldn't "handle" V's need for variety in the bedroom so V's roommate Lia convinces her to try a new app for college kids called Flirt. Flirt is a combo of eharmony and tinder rolled into one. You have fill out a looonngg application explaining you wants, needs, desires, and fantasies and the app will match you with a compatible person only you don't get to see them before you meet up. Of course, after weeks of stalling V finally signs up and who would her first meetup be, but none other than Lia's ultimate hot older brother Cameron. Cameron is the total package and then some AND he just happens think V is smoking hot as well. So all that's left is for these two to hook up no string attached right?? What could possibly go wrong? Well a shy girl, a sexually demanding guy, and a misplaced condom leads this into an awesome short read that I really enjoyed. very quick read but not so quick that it feels rushed or undeveloped. We can only dream of being the shy girl that gets the quarterback?

Cortita y para pasar el rato.

Me gusta cuando el hermano de la amiga y la amiga se juntan... aunque es un cliché total ya sabéis, yo voy a lo tradicional jajajaja

Ahora quiero saber que será de Allie y Theo ??? jajajaja

Pues dos tres... se lee en un suspiro. La historia no es nada del otro mundo y todo pasa sin sobresaltos. Es muy corto así que ese puede ser el motivo.

No es un mal libro pero me faltó que me contaran más la historia.

2.5

Very small enjoyable book.

This book is about V and Cam. V decides to join an app that works like Tinder but for campus, and she is paired up with Cam (her best friend's brother). Secretly they are both attracted to each other but they never persuit anything because of his sister and V's attachment to somebody else at the time. Long story short, they decide to have sex and they end up dating. The end.

P.S. V's change of moods gave me wiplash. I was ready to 3 star this book until Cam had the same feeling as I had round about in the middle of the book and told V about it. Then she stoped and everything was well.

Bastante cortito y se lee súper rápido, la sinopsis es tentadora y creo que la trama tenía potencial para ser uno de esos libros que se pueden disfrutar bastante, pero al ser tan chiquito no da para desarrollar una gran trama, pero me sirvió para despejarme tantito de los Dark Hunters digo tantito porque le voy a seguir ?????

Flirt (A Carlton University Novella) is by Natalie Rios. Natalie is a new to me author and I've had this little novella on my radar for awhile now. Good gosh almighty, I loved it and I'm hooked.

Veronica Sanders is a college student and had been in a long term relationship with a fellow student but it ended badly. During the relationship, though, Veronica had many ideas of how they could spice up their sex life but her boyfriend was most definitely not game. They've been broken up for a year now and Veronica has not dated. She is a nerdy, smart, buttoned up type of girl and perhaps has lost her confidence where the opposite sex is concerned.

Her roommate and best friend convinces her to use an app that instead of making matches for love, they match for sexual compatibility. It's an app for hooking up, called Flirt. Veronica can't stop thinking about giving it a try, so she finally does it. It's time for her first hook up and who shows up but her roommate's older, very sexy brother and college quarterback, Cam.

Cam Schmidt has had a thing for his sister's roommate ever since he first met her. But she was in a relationship at the time. So he waited. Then she was in bad shape over the break up. So he waited again. Now here she was standing in front of him expecting to hook up with a stranger. No way was that going to happen.

"I should know better than to judge a book by it's cover."

Cam thought Veronica was irresistible, even in her usual attire of buttoned up cardigan sweaters. But when he gets her to look him in the eye and tell him what she really wants, holy cow, he likes this version of her even better.

These two together were amazingly, boiling hot! Cam is a take control kind of guy and it's adorable the way Veronica will just blurt something out. This was such a fun, steamy story and I loved it like crazy. I see that the next book in the series is Veronica's roommate Allie's story. I'm not sure if it's out yet but I want, want, want to read it.

I received this book as a free read offer and I must say although College romance is not my love this was really cute and refreshing.

I love the awkward nerdy girl who doesn't know her own beauty and that she attracted the hunk of the school. Yeah I'm a big fan of the underdog getting her own bit of sunshine and mix that in with some really fun and refreshing writing and you got a hit.

This is a sexy mix of awkward and hot with a side of funny as heck. I love the main h character who, although is supposed to be in a funk and basically a social misfit, is strong and stand up and boy do they get into some funny situations. I couldn't stop laughing at the misplaced condom or the sneaking around when clearly it was obvious something was going on. Our H is just too romantic and protective and wrapped in a young hot guy just seals the deal.

So guys it's a short read but it checks all my boxes for a good time, it's funny and has you cracking up with a hot and spicy side. The characters are really likable and truth be told although I read it within a day it was a day well spent.

Natalie Rios is new to me and I will keep her on my shelf. Thanks Ms Rios for giving what I needed... a good laugh with some spicy bits!!!

A really fun and sexy novella!!

The facts are these: Flirt says we're a match. I've wanted her for a while now. But she's my little sister's best friend and possibly still vulnerable from her break up with the douche.

I love the best friend's brother/sister trope and I'm glad that this one was so great. It's not often that you get to read a novella that's really interesting and with sufficient plot development, and I'm glad to say that I really enjoyed this. I loved Veronica and Cam and the chemistry between them, and the sexy times were hot and the romance sweet. I also really liked the secondary characters and I really can't wait to read the next book about Allie and Theo.

"I should know better than to judge a book by its cover." With that, I drop my shorts. "Why don't you come over here and show me exactly what type of girl you are?"

This was my first book by this author and I was pleasantly surprised by how much I liked it. A must read for all readers who are in need of a short sexy novella.

Lo leí porque me leí "Player" y quería saber que onda está pareja que apareció poco, pero que tuvo contacto con los personajes del libro. Y ver a Allie y Theo en Flirt antes de que se conocieran me gustó mucho.

Ahora, la historia Cam y Verónica no sé. Me gustó el romance, eso me encantó porque se nota que la autora sabe como hacerte enamorar. Pero las escenas de sexo entre la pareja que parecieron aburridas y no sentís chispa entre estos. Además de que no me gustaba la personalidad de la protagonista. Esas dos cosas sumadas hicieron que no me encantará.

Igualmente si se da la oportunidad seguiré leyendo más libros de la autora.

Hot, sexy, funny, and sweeeeeeeet!!

This was my first read from this author and I'm very happy to report that it was a winner for me! It was such

a pleasant surprise to come across this lovely book with an engaging story that held my interest throughout, two adorable main characters that very enjoyable to read about, and a romance that was scorching hot, so much so that I could literally feel the heat coming off the pages.

One of my most favorite romance tropes is unrequited love. I love, love, love, love it when the hero has got it bad for the heroine for years, but for whatever reason, he has to keep it to himself. Aww...it's superbly romantic—absolutely my kryptonite! And Cameron, this book's hero, is no exception. He had a secret crush on Veronica ever since he first met her, but unfortunately, she was already in a relationship with someone else. Things got even more interesting after she broke up with her boyfriend. When Cam found out that she joined the app Flirt in hopes of getting a better opportunity to meet guys and hook up with them, there was no way in hell he would let that happen.

If she was looking for someone to fulfill her sexual fantasies, then why couldn't it be him? And now, he was on a mission to make her naughty dreams come true, and of course, make her his... forever.

I couldn't help but fall in love with Cam! He's so precious, truly amazing! He cared about what she wanted and never judged her. All he wanted was to take care of her and give her pleasure—lots of pleasure. Ooh, I want this man all to myself. Well, Cameron is officially my book boyfriend! *loves*

I have to say that I'm not a fan of nerdy/shy/awkward heroines. I often find them more annoying than endearing. But for some unexplained reason, I never once got irritated with Veronica's shyness no matter how much she actively avoided eye contact with Cam. Well, this came as a big surprise to me, I can tell.

Another good thing about this book is that there was no stupid drama. I usually find that drama-free stories either end up too boring or too cheesy for me, but in this case, I found the story very entertaining and well composed. Sometimes it just feels good to read a book with no nonsense.

This book captured me with a fantastic blend of sweet treats, sexy romance, and delicious humor. I didn't expect much from it but was just given so much in return. Oh, I can't praise it enough! Now I'm thrilled to read the next book in this series!
