## From Reader Review Mass Effect: Conviction for online ebook

### Oscar Climent says

As with Mass Effect: Incursion, Conviction isn't so much as story as a peek into the life of someone other than Shepard. Good art to go with the ME universe. Pass as a standalone, but recommended if you can get it combined with another ME book/comic.

---

### Miranda Visser says

This is Vega. That is all.

---

### Samuel Rodríguez says

Otro de esos mini-comics de *Mass Effect* de 8 páginas. En este caso se centra en James Vegas y cómo fue reclutado para el equipo de Shepard.

Tras la pelea random de rigor metida con calzador típica de todos los comics de la saga, en la última página le dicen que está en el equipo. Podría parecer un resumen, pero es todo lo que hay. Y como viene ocurriendo en todos los comics a cargo de Mac Walters, al hecho de que no ocurra nada relevante se suma que las conversaciones están al nivel de parbulito y el dibujo es malo.

Una pena lo irrelevantes que están siendo las novelas gráficas de *Mass Effect*, con todo el potencial que tienen sus videojuegos y el universo que han creado.

---

### Andrew Crouthamel says

Huge fan of the Mass Effect universe and games. This is a great addition!

---

### This Is Not The Michael You're Looking For says

A short story graphic novel which takes place shortly after the end of The Arrival DLC for Mass Effect 2, it introduces the character of James Vega and explains how he becomes connected to Shepard. There is essentially nothing at all to it.

---

### Anzu The Great Destroyer says

A bit useless if you ask me.

---

### **Michelle (In Libris Veritas) says**

This is actually in the last part of Mass Effect: Invasion. So for my overall opinion please look at that review.

### **Vitor says**

I really enjoyed reading this short-comic!

Sure, it doesn't fill any kind of blanks in James Vega's background story and it doesn't really develop his character a lot but it was entertaining enough for me and, most importantly, it showed how he came to know Shepard and how he first met him/her. That has to count for something xD

It's set after the events that happened in Mass Effect 2's DLC "The Arrival", in which Commander Shepard had to make a difficult decision regarding a particular solar system (not going to spoil it xP). It's also set pretty much after the events in the "Mass Effect Paragon Lost" movie, so I'd recommend anyone to watch that movie before reading this comic, otherwise you'll end up kinda confused as to why James Vega acts the way he acts at the beginning.

---

### **Ankhespaten says**

After "Deception", everything is refreshing to read. I would usually give 3 stars for a comic like this, but the 4th star goes to Vega's good looks, which are non-existent in the game IMO.

---

### **Ithlilian says**

Vega was never a character I really cared about, I pretty much ignored him in the games. This doesn't add too much to the backstory and is sort of pointless, but hey, it's a few pages, might as well read it.

---

### **Dustin says**

Disappointing ending.

---

---

**Tiara says**

Read this last night. Haven't finished the games or the novels, so I'm going to hold off rating this until I complete more stuff. I'm turningi into a fangirl.
