# Mimes Chimes and Rhymes

*Ian Graham , Emilie Vercruyse (Illustrator)*

**Mimes Chimes and Rhymes** Ian Graham , Emilie Vercruyse (Illustrator)

Caustic meets slapstick. Plus occasional romantic touches, just to throw you completely. Droll drawings. Groan-up puns. Light verse in a light volume.

## From Reader Review **Mimes Chimes and Rhymes** for online ebook

### **Amanda Woods says**

I was lucky enough to receive this through a goodreads giveaway. I laughed my way through most of it! One of those books that you need around the house.

---

### **Debie says**

First, I want to talk about the verses, in which I really enjoyed reading in one sitting. The poems are funny and smart. It's not the boring kind of fun. When reading poems, sometimes it makes me giggle whenever the last word of each line rhymes together. So I enjoyed the verses very much. Second, the drawings are absolutely fitting to each of the verses. Not the kind that I would draw from the verses. In other words, I'm not clever enough to draw such witty comics! Overall, it's an easy, short and funny read. :)

I got this from First Reads and sent by the author himself in which he wrote: "All our best to Debbie Grace. Winner of the Goodreads race. So where's this sun of which you speak? Well, here's some fun to make you shriek." I totally shrieked while reading it because I LOVE RHYMES AND HE JUST WROTE SOMETHING FOR ME THAT RHYMES AND THAT IS TOTALLY AWESOME AND CUTE AND AAAAAAHHHH I LOVE IT HAHAHA! I like the fact that he might have visited my little blog. (Heehee). Thank you, Mr. Graham! I really enjoyed your book. Please write more. :)

### **Bookmuseuk says**

**Mimes Chimes and Rhymes** is a quirky book featuring verses by Ian Graham and drawings by Emilie Vercruyse. A slight volume, it nevertheless has scope to be clever, funny and thought-provoking.

The verses tend to be short and to the point; the accompanying drawings are kitsch and sometimes sweet.

The poems offer a variety of line schemes to keep the reader interested and though seeming sometimes to be mere frivolities closer inspection reveals depth. They tackle verbal absurdities and play with the meanings of words and phrases; being more than puns however, they also delve into the meaning of life.

Well worth a look if you enjoy verse that takes a sideways look at things.

### **Max Scratchmann says**

I'd never entered a Good Reads give-away before, so imagine my surprise when **Mimes Chimes and Rhymes** popped through my letterbox.

It's a great collection of whimsy and surrealism, laugh-out-loud funny in places, and excellently illustrated

by the wonderful Emilie Vercruyse.

A great gift, of course, but even better as a book to dip into for yourself, and looking forward to the next collection from a very gifted comic poet!
