## Missing Linc Kori Roberts

Rocked by the bitter betrayal of their former lover, Tomi and Mitch spent years picking up the pieces in order to mend their damaged relationship. They never imagined they'd find a third again. However, they never expected to meet someone like Linc. He's all the things they were missing in their relationship. Now that they've met him, they can't imagine their lives without him in it.

After suffering devastating personal and professional losses, Linc has relocated and rebuilt his world, with the painful memories of his past safely stashed away, and his heart closely guarded in order to avoid being hurt again. Then Linc meets Tomi and Mitch. In them, he discovers what true happiness really means, and finds real love for the first time in his life.

But after their past experiences, Mitch and Tomi, and lover Linc, are afraid to admit their feelings have grown deeper than a hot, sexy fling. None of them want to ruin what they have--Mitch and Tomi's relationship, a new life--but they didn't know how much they needed each other until their relationship abruptly ends and they are forced to walk away. Now they'll have to find a way to reconcile before they spend their lives missing Linc.

*Publisher's Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable: Anal play/intercourse, exhibitionism, homoerotic sexual situations (m/m, f/f), menage (m/m/f), voyeurism.*

## From Reader Review Missing Linc for online ebook

### NJS says

Boring, cheesy, one dimension, overall no bueno. This type of 'taboo' relationship is very intriguing with many possibilities to explore, but the author just focused on sex. It was meant to be a relationship not a porn. But the story never evolved pass mechanical stereotypical sex scenes.

---

### Pandora says

Okay, where do I even begin complaining

- Ridiculous insta-love.

- All porn (and not even very good at that), it's hard to think of a scene that did not involve sex. Absolutely no plot anywhere to be found.

- The kind of implausible situations you would expect from porn, obviously.

- An absurd amount of remarks about how GORGEOUS everyone is. No but they're all SO BEAUTIFUL.

Let's have ten conversations that consist of nothing but exchanging compliments.

- Boring and repetitive. Then again I don't imagine someone could write 3851932667169 sex scenes without repeating themselves a bit.

- Please, please, PLEASE, if you want to include some lines in spanish in your book: 1) think twice about it because it's probably gonna be unrealistic and annoying; 2) **ASK FOR HELP FROM A SPANISH SPEAKER i> b> u>. We live in the age of internet, for christ sake, it's not hard. There are 480 million native speakers in this world and Miss Robers (or her editor) couldn't find 1. I'm not even gonna punish myself with examples because reading them once was painful enough.**

- **So. Damn. Long. No content and yet so many pages. Whyyyy? I could not reach the end fast enough.**

---

### Camille Adams says

Rubbish.

99% bad porn. 1% toilet paper thin plot. 0% reality.

ETA: I was doing what women should never do, judging the potential, lol. Stars revised for the actual output.

---

### Nicole says

A nice romance involving a couple, and the man they meet on vacation. It had a little more description, and some stupidity on the newcomer's part, but still a cute read.

---

## **Rhoda Dede says**

I seriously didn't understand this book. I felt that sex was the only thing Mitch, Tomi, and Linc had. They barely spoke about deep things. I understand they shared their past life's with one another but that was it. I don't know how threesomes work out but what would happen when they want a baby would Mitch go first then Linc? What would they tell their children?

There we're a few punctuation errors throughout the book that I had to bypass along the way. This is the first book I have read from this author so I didn't know what to expect, yet after reading this I feel most of her characters have a large sexual appetite. There is nothing wrong with that factor it just takes away from the plot and leaves page after page of love making.

I have no clue what the sequel is for if they made up towards the last 10-20 pages of the book. But I intend on reading it always. Overall I was a decent read and knowing that I was able to push through it and finish it meant something. I guess.

---

## **Holly says**

Four stars because this book was HOT.

---

## **Suburbancowgirl says**

OMG how I loved this book. Let me count the ways. First, some awesome MMF action with every possible combination and devious, kinky little nuance. So completely hot. Characters were great. Nice love story. Totally predictable, but who cares. Not too cheesy. The book lit my fire and made my heart go pitter patter. Can't wait to read more by this author.

---

## **?? Michaelle ♡?? says**

3.8 Stars

---

## **Red says**

Very good interracial erotic romance. I am liking more and more interracial m/f/m menage romance, especially the bisexual ones where every party is involved with one another, and good read are not easy to find. So this one deserves its 4 stars.

The writing is consistent, the characters interesting and the sex scenes are hot, hot, hot. Even the one I wasn't too sure about (the boat thing), was dealt well and I ended going along an enjoying. The growth of their feelings for each other was a bit too fast for my taste, some stuff abouttheir romantic back-stories a bit too "convenient"/similar and the ending a tiny bit too neat and well wrapped, but all in all, it is a very satisfying

read.

---

**Jacquita Williams says**

One of my favorite books. Loved how the author put these three together. I wish it never had to end!!

---

**Whitney says**

This is a PWP. Everyone is gorgeous and beautiful and boring. Like watching porn, bad acting included.
