Pug and Pig are back in another adventure, and this one explores a situation kids will be familiar with: what do you do when you want to do one thing and your friend wants to do something else? Gallion has written her text so that it's clean and clear (and perfect for repetitive reads), and Wan's art captures the adorable animal characters' personalities so that no matter what they do, readers will still love them. I'd recommend this book for parents or teachers who want to prompt discussions about interpersonal conflict.

The adorable sequel to Pug Meets Pig, this was a must-purchase for our family when we saw it. Our toddler loves Joyce Wan's books, and her illustrations and Sue Lowell Gallion's sweet story come together to form the complete package in this picture book.

In this book, our unlikely friends Pug and Pig find that friends don't always like the same things. However, they are able to problem solve and compromise to still have a great Halloween together, because their friendship and each other's happiness are important. We love this sweet story year-round!

Pug and Pig Trick or Treat is a cute little story about two friends who feel differently about Halloween costumes. This story, while light and adorable also teaches children that it's okay to disagree with your friends and still be okay. It also demonstrates freedom of thinking, new ideas and creating compromise with friends. My daughter loved the simplicity while learning big ideas.

Cindy Hudson says

Pug and pig are great friends, but that doesn't mean they like the same things. Pig loves to put on a costume for Halloween, go trick-or-treating, and have fun at a party. Pug hates tight costumes and doesn't care about Halloween. Pig is feeling sad that she'll have to celebrate all on her own until Pug gets a great idea that will make them both happy.

Pug & Pig Trick-or-Treat by Sue Lowell Gallion looks at how friends can be different and still find ways to have fun together. Joyce Wan's illustrations are adorable. Her simple lines depicting smiling and frowning faces convey lots of emotion so little ones can grasp the significance of each character's actions throughout the story.

Parents looking to add a Halloween picture book to their bookshelf can't go wrong with this ode to friendship and individuality.

The publisher provided me with a copy of this book in exchange for my honest review.

Pig loves halloween. Pug hates wearing a tight fitting costume. Can these two compromise? spoiler alert-they can! because they're friends and friends care about each other's feelings. Simple story cute illustrations, this one is a halloween winner.

How is no one commenting on how unsettling it is that Pig and Pug live in a house by themselves in a world of humans? I was three-quarters of the way through the book when the first humans showed up and was all, "waitaminnit-there are *humans* in this world?" Furthermore, these two answer the door and show up at parties with nary a human owner in sight, and no one bats an eyelash? Curious, verrrry curious...

This book is adorable, with a story and illustrations perfect for an audience grades 1 and under. The story of friendship and Halloween will delight both readers familiar with Pug and Pig, as well as those new to the pair.

Highly recommended for Halloween storytimes for the younger crowd!

Pug and Pig are the best of friends. Pig is super excited to wear his costume for Halloween until he finds out that Pug does not like his costume and doesn't want to participate in all the fun Halloween activities. Pig is sad and doesn't know who will go with him to trick-or-treat or play all the fun games. Can Pug come up with a plan to celebrate Halloween with his friend, Pig?

This simple story will delight children and get them excited for Halloween. Pug and Pig are wonderful friends who do everything together. When Pug realizes that Pig is sad, he comes up with a solution to make Pig happy again. Pug also offers a dilemma that many children face, having to wear masks and uncomfortable costumes. I really disliked wearing masks as a child and pretty much wore the same witch costume every year so I didn't have to wear masks on my face. Little kids will find Pug's new costume idea silly and giggle at the illustrations. Since the book is centered around Halloween, the colors are dark and muted, but the expressions on Pug and Pig are easily identifiable and these two round little animals are just adorable. Pug and Pig also share a lesson on a compromise that will come in handy for friendship and sibling relationships.

The author published her first Pug and Pig book a year ago and I could see the series becoming popular among younger children. If you like having books focused on certain holidays and events, this would make an excellent addition to your home library.

This really isn't that great, lol, but it's so cute. So three stars for cuteness. Don't judge.

Hello, friends! Happy October! We're starting off the Halloween season with a review of the delightfully fun *Pug & Pig: Trick-Or-Treat*, written by Sue Lowell Gallion and illustrated by Joyce Wan.

In this spooky sequel, Pug and Pig are back and getting ready for the holiday: their house is decorated, their yard has a scarecrow, and they have their own personalized pumpkins. They even have matching costumes: skeleton suits with masks. Pig loves his costume! It hugs her and her round tummy, and she likes that the mask disguises her. Pug, however, is less thrilled. He does like the way the leotard squishes him, and hates that the mask hides who he is. Fed up, Pug shreds his costume into pieces all over the yard and decides he's done with Halloween. This makes Pig sad: she was looking forward to her first Halloween and doing all the fun activities with her very best friend. Can the two find a compromise so that they can both enjoy the holiday?

This was a great follow-up to the relentlessly charming *Pug Meets Pig*. The adorably unlikely pals are back in all their Kawaii-inspired glory, looking so cute and cuddly on each page that you want to reach out and snuggle them. The story is great, too: the two find a good compromise wherein Pig has her friend to trick-or-treat with, but Pug feels comfortable in what he's wearing. The length is perfect, and JJ loves the darling duo. This one is a great way to celebrate the holiday while teaching a lesson in friendship and compromise, and it's Baby Bookworm approved!

Now that Pug and Pig are best friends, it's time to think about going trick-or-treating together. Pug and Pig's costumes make them look like skeletons. They fit nice and tightly, which makes Pig. Pig even likes the mask so no one will know who he is. But Pug is not at all happy with the tight fit of his costume, or his mask - no one will know who he is. Can these siblings find a way for both Pug and Pig to be happy? Umm...looks like

Pug has an idea.

This is a great story about how simple problem solving can avoid disappointments and possible meltdowns, showing young readers how effective a compromise can be. Wan's simple illustrations really capture the emotions each pig feels, and she even manages to depict movement as Pug runs out the doggy door after coming up with his idea. A lovely second book for new and old fans of Pug & Pig, and anyone who like a gentle Halloween tale.

A book everyone should read before they die.

Great toddler Halloween book! Pig and Pug have opposite reactions to being dressed up, but they both find a way to enjoy Halloween together.

Sharde Liggins says

Our favorite friends Pug and Pig are back with another book "Pug & Pig Trick-or-Treat" by Sue Lowell Gallion. This time the friends are dressed in identical costumes for Halloween while Pig is happy and optimistic about Halloween pug is miserable and doesn't like his costumes. Realizing how much Halloween means to pig, pug creates his own costume to trick or treat with and they have a awesome time. This book is very warming while showing how best friends sacrifice for each other. This story line and illustrations are amazing while teaching a valuable lesson to the targeted audience preschool- third grade.

Heidi says

Pig is thrilled with her costume and how it fits. Pug hates his costume and how cramped he feels inside it. Finally, Pug can't take it any more and sheds the costume. But now Pig is sad because she doesn't have anyone to answer the door with, or trick or treat with, or go to the party with. Can Pug find a solution that makes them both happy? This is a pretty simple story, but that very simpleness is what carries the day as Pug and Pig need to compromise to make themselves both happy. The story is cute, but the message at the heart of it, friendship and adapting to make that friendship work shines through beautifully.
