The last of his kind...

Rekkus is the last of the great Black Tiger weres and he is happy to stay that way. Working as security for the Wiccan Haus, a magical spa for inner healing, he has enough danger – and women – to keep him busy. Unfortunately, the Fates are not content with him being comfortable.

Alone and discouraged...

Dana has walked away from all she has known, her fiancé, family, apartment, and job. Now, having a ticket to the Wiccan Haus may be the only way she can move on. But what she finds isn't what she expects, nor is it what she thought she was looking for.

Meet the unusual residents of the Wiccan Haus. The staff can get a little hairy and not all of the guests eat what's served in the dining hall. But the proprietors always do what they can to make the resort into a place of healing and peace, using all of their years of practice. At the Haus, where humans and Paras reside side-by-side, everyone in need of the Rowan siblings' services are welcome.

WELCOME TO THE WICCAN HAUS.

thank you, first, goes out to the author for giving me a copy of this to review. This isn't a very long book, but it's also not a short story either, so think in between. It's about a girl, who called off her wedding and is just lost at what to do with her life, and a guy, who happens to be a hot black tiger shifter :) yep, it's hot! hahahaha

Rekkus is our yummy tiger, who does security at this cool island resort/spa and he has no interest in bonding with a mate... Dana is lost, and hurt, and doesn't wanna get close to a guy right now, she just needs some healing for herself...

I like that this was a quick, easy read, with fun parts, and some odd, but lovable characters... It's also an easy introduction into this new series with the characters and backgrounds given easily.

If you like some hot romance, some yummy supernaturals, and a fun, interesting plot-line, this one is for you! :)

I have read quite a few books that combine resorts, paranormals and finding love. So far so good and I have enjoyed them all and love the idea. I really like the idea of the Wiccan Haus series. Welcome to a new form of healing and peace. Shifting Hearts is the first in the series and has set the bar high for rest of the series.

Dana has probably just made the hardest decision of her life. While it was a mutual decision to not get married, she feels lost because she left her friend of many years and her family has disowned her because of the broken marriage. She also gave up her job and apartment to start a new life with him. Now she has nowhere to go and no one to be with. Jessie, her best friend, takes her away to the healing resort of Wiccan Haus. Dana needs time to lick her wounds and Jessie believes she just needs a good tumble in bed. She may just find both on the island.

Rekkus is the last of his kind. Though he has lost his family he has gained a new one with the Rowan siblings. His main focus is as bodyguard to Cyrus, but he is also head of security for the island. From the moment he meets Dana he knows what she is to him. Problem is that his past has left many scars he may not be able to get past. Fate has given him a gift, now all he needs is to be able to accept it.

Be warned. This is a no nonsense read. Ms. Eastwick gets right to the matter and gets things done. This is a short story, so the love and passion is instant and sizzling right from the beginning. The details are vivid, but not drawn out and the characters have depth, but she doesn't mince words. Rekkus and Dana are meant to be together...period. I personally find nothing wrong with fast paced instant romance. They are a wonderful change of pace and a treasure to me. Sometimes I need a quick fix and this one delivers exactly what I needed. This series is going to be fun and engaging with an eclectic mix of characters and countless romantic possibilities.

I plan on enjoying this series from the beginning all the way to the end. I hope you join me. Come take a

relaxing short vacation with me to the Wiccan Haus; where you will find inner peace, breathtaking magic and explosive romance.

A Para always knows their mate at first site...

Dana is heartbroken and needs some time away from her family and the man she left at the altar. Her best friend comes along with her to the Wiccan Haus - a place of healing, peace, and relaxation. She's just an ordinary human, but she starts to see and experience things around the Wiccan Haus which give her pause...especially Rekkus.

I enjoyed the premise of the Wiccan Haus - a resort for humans and Paras that focuses on rest, relaxation, and harmony. The heat between the characters is intense and yet tender and sweet. Very well developed world and characters for a short story. This series is set up to be collaborative - with short stories from different authors coming together to create the world and characters of the Wiccan Haus. I am especially excited to see where this world will take us!

I really enjoyed this book. I don't usually like novellas too much because I don't feel that the author has enough time to really get into the character development. I think she did a great job of having the right amount of background information and action going on that I didn't even notice. This one has me awaiting the second story. I will be reading more from this author.

Denise Van plew says

Wowzer this was a pleasant surprise so let me tell you why. I am always on the hunt for paranormal that is different due to having read tons by now over the years. I still love alot of it thanks to characters that make a story, but also like it when different basis of it all is introduced. As soon as I opened this one (the first in a series) a welcome is given that in itself was refreshing. Since this is also the first time for me in reading anything by this author it is like panning for gold. This promises to be one bang up of a series with this one being the key that opens the gate. She gives you Dana who is gone with a friend to a island instead of going on her honeymoon, a trip that turns into something else. So a wanted vacation for her friend and something else for her it will be the beginning of a different path not expecting. Right away the people they meet will be key players in her journey to the one who will open her eyes and capture her heart. Rekkus would of never thought the guests this time around would bring so much importance to his life but there will also be a little magic and matchmaking in play. These are exactly some of the ingredients that make for thrilling reading in this genre and at times will find yourself curling your toes from the delicious reading as the author traps you in her web she weaves. Oh the possibilities this series will have to offer if this one is the first example. I could of eaten them to pieces as I was given Dana and Rekkus's story and the love that grows between them.

Originality big part of this and that makes it extra special.

I really, really liked this book. It is a short story so things are fast paced. It leaves out some of the romance like courting because you are going into new scenes constantly, which is normal in a novella. It makes up for it with all its hot sex scenes. I felt that there could have been more elaborating or playing hard to get in this story but that is just my opinion. I love that they see each other and The Fates say "oh they should be together" and that is that. It is a very good story. Not much in the way of action or mingling with others but they mingle with each other just fine, lol. Rekkus is very protective and it is a very good part of the story.

Rekkus is a hot were-tiger and Dana is a human. He wants to be alone and so does Dana after saying "I don't" at her wedding just the night before. Dana is there for some healing spiritually and Rekkus is just there to protect his friend. I like how they come together but I wish there would have been a little more to it, because I wanted more from this awesome story and couple. The theme is great and I couldn't put down this book it had me going till the end. I guess when you really like a character you always want more.

I can't wait to read the next book in this series and I would like to check out more of Ms Eastwick's other works that are already out. I will definitely be recommending this book to my friends!!!

I LOVED THIS BOOK!

It had everything from shape shifters to vampires to sirens to just plain old humans...lol

Being only 60 pages you would think it was rushed and there wouldn't be much of a story to be honest that's what

I thought to. When I started it I was only 7 pages in and I was completely hoôked. Dominique has written in a way that you feel every feeling that passes though Dana from sadness to complete happiness.

Be warned if your not into HOT romance then this isn't for you.

I also felt it was a fantastic start to the series it introduces the characters and there talents/gifts really well.

I cannot wait to read the next installment of Wiccan Haus! Shifting Hearts

Welcome to Wiccan Haus Resort, were fate meets, destiny occurs and the romance is enchanting.

The overall story is captivating and enjoyable story to read. The author's vivid details in the story are great.

The interesting flawed characters and plot/storyline is great...

It may have been a short book to read but it won't disappoint...

The varied wide-range of characters in the series makes this seem like it'll be a great one to read. Looking forward to the next books in the series...

I found this book quite a fun read. The story takes place on an island off the coast of Maine (we think ;) )where a magical Inn/resort (The Wiccan Haus) is located. This particular story is the love story between a shifter who works on the island and a guest of the island whose life had pretty much hit rock bottom before she arrived. The love story was interesting to watch unfold and did have some pretty hot adult scenes for those who love them. What I loved most about the book, however, was the watching the characters of the book interact. I am not sure how to phrase this without sounding super cheesy, but I see amazing potential for this to become a "paranormal" Fantasy Island (ok, that really does sound cheesy, but the idea of people going to the island and finding what they need to make themselves whole again was what I was after ;)). I was so excited to see that there are going to be more books about the Wiccan Haus and from multiple authors. I think the potential is amazing!

A black tiger with a hot date with fate

Dana almost fell into the wreck of a marriage her parents steered her into. She'd known Frank most of her life, but marriage? Now that was a whole other can of worms, one she found she wasn't willing to open when she found herself saying "I don't" at the altar. Frank was in total agreement. Her parents on the other

hand told her they disowned her. So she traded in her Caribbean honeymoon for a week at the Wiccan Haus with her best friend Jessie.

Rekkus is a tiger shifter. He is the reigning prince of the black tiger streak. In fact he is the last of the black tiger streak. He's also head of security at the Wiccan Haus. A tragic past has left Rekkus with the conviction that he will never mate, but fate has other plans for him with a little help from Dana's deceased grandmother. Although he recognizes Dana as his mate from the moment they meet, he's determined he will avoid her for there is no way he would ever force a mating and Dana is human. She has no clue of the existence of paranorms.

All good intentions aside, life and fate has a way of throwing them together and these two can't seem to keep their hands off each other. That might have something to do with Rekkus being naked almost every time Dana runs into him. I mean who wouldn't be slaving over a tall sexy tiger shifter? When Dana is confronted with his true nature she'll have to determine if she can accept loving a man that's part animal. But one thing she is bound to find out is loving this shifter is better than anything her uncaring family has ever given her. Now she only has to convince him. This was a great novella with interesting characters in a unique world. I'm looking forward to reading more in the series. I was gifted this book in exchange of an honest review.

Dominique Eastwick, provided a copy of *Shifting Hearts* in exchange for a honest review. I would like to thank her for the request.

*Shifting Hearts* is a great, quick, spicy, paranormal read. With a very likable BBW Dana and of course the gorgeous WereTiger Rekkus, who is so Alpha with his 6'5" growling self, I was hooked from the beginning. The only thing I noticed was a few minor spelling errors, but it wasn't enough to throw off the pace of the story. I enjoyed *Shifting Hearts* immensely.

This is the start of The Wiccan Haus series and we are introduced to many of the characters that I am sure we will see more of. This is a very interesting series because it is written by several Authors. I would not only be interested in reading more of this series but more from Dominique Eastwick.....Sara

Great premise: "Fantasy Island" or "Love Boat" for paranormals and humans. Love her alpha shifter, last of his kind, reluctant lover. So hot. Strong heroine- no shrinking violet here- stands up for what she wants: Rekkus.

## **Jessi Szigethy says**

the only reason this isn't 5 stars is that it is short. I want more Rekkus and Dana and friends. guess I need to seek out the rest of the series.

My Thoughts - 5 out of 5 Unicorns - I loved it!!!

\*\*\*Received a copy of the ebook for an honest review

The cover is okay, but I really wanted to see Rekkus's cat because he sounds gorgeous :)

This is the first book in a multi-author series called Wiccan Haus. This book is novella length and for adults only due to the steamy content. This is also my first time reading a book by Dominique Eastwick.

Okay, I started reading this book this morning, and before I realized it, I was sucked in and didn't stop until the end. Dana is interesting because her family is rich, but she isn't a snobby socialite like they would like. I really like her, and I wish I had a watch like hers ;) You have to read the book to understand what I mean because I'm not going to ruin your adventure. Rekkus is a protector at heart, and I think I fell for him right off the bat. This world is interesting and packed with uniqueness that made me wish I could really visit :)

Dominique did a fantastic job pulling me right into the story and her descriptions, plot, and dialogue made me fall in love with the story. I can't wait to read more by Dominique, and I especially can't wait to read more of this series and find more authors to love!!

I highly recommend this book to my paranormal lovin' friends whether it is shifters, witches, or magic you will find something to enjoy :)

## **Laurie Garrison says**

Fantastic story and a great romance.

You get a great storyline with this novella. Dominique takes you into some islands off of Maine and gives you witches, vamps, shifters and a lot of other bump in the night creatures. I enjoyed getting to know them and can't wait for the next book.

Rekkus is a very dominating shifter that really doesn't want a mate but when a woman comes to the inn for vacation he just cannot stop nor can she.

I recommend this to anyone who likes a good short read with some great characters.
