## **Witch Glitch** Robyn Peterman

Witches and glitches and testicle obsessed cats... Oh my.

One dilemma down and approximately 74,876,283 to go. I think being the Shifter Whisperer is hard—or Shifter Wanker as I enjoy referring to my new job—but healing wounded Shifters is easy compared to finding and eliminating the lurking freaking evil.

Throw in a ghost, a potentially explosive ex-cellmate, a long lost dad and a smokin' hot werewolf who's convinced he's my mate, and suddenly it's party time—from hell.

And this is my mission?

Life is getting messy and I don't do messy. With feelings I didn't know I was capable of having, and the word love being thrown around like a football on Super Bowl Sunday, poofing away with a magical twitch of my nose is becoming more appealing by the moment.

But to show I'm not a weenie, I'm gonna pull up my big girl panties and hurl some fireballs at Baba Yaga's older than dirt warlock posse if they don't pony up the info I need. If I don't burn the town of Assjacket down while trying to save it, I'm donning my red cape and playing who's the big bad wolf with a for real wolf who's hotter than any fireball.

I just pray to the Goddess my heart doesn't get burned in the process...

## From Reader Review Witch Glitch for online ebook

### C.J. says

This was good. Would have liked the story to have gotten further along than it did.

---

### Mel says

Zelda, the Shifter Whisper, and the rest of the gang of Assjacket, West Virginia are lovable and funny. Zelda and the town are still trying to solve the problem the Badgers started in the first book. Zelda and the town find enough hilarious trouble on their own but, Zelda's cell mate returns in this story to add to the problems. Not to mention, Zelda is still trying to adjust to having a father. I especially adore Mac, the sexy alpha werewolf that is still capable of being patient with his mate. Instead of finding his mate's antics irritating or trying to control her, he finds Zelda humorous and works with her quirks. I highly recommend this series to anyone who enjoys a good laugh. Robyn always makes me laugh out loud. Her characters are also enduring.

---

### Vicki says

#### A definite must read

In Witch Glitch, the second book in the Magic and Meyhem book by Robyn Peterman, Zelda, the Shifter Whisperer is trying to come to terms with her role in the Shifter community, her relationships with her dad and with Mac, the alpha of the pack in the town she's living in.

The cast of characters in Witch Glitch are crazy funny, and I had many laugh out loud moments while reading this book. But in addition to all of the humor always present in Robyn's books was the emotional part of the storyline. Zelda carries a deep hurt from being raised by a mom who cared more for what she could get out of her daughter, than for any person, including Zelda. Because of this, Zelda struggles to believe that she is worthy of the love given to her, and is always planning her "out", even knowing she needs them as much as she needs her. The emotion is raw and powerful... I can't wait for the next stage in Zeldas wild ride of a life.

---

### Candace says

What do you get when you have a Slightly off kilted, extremely powerful witch and a Sexy Werewolf with an adopted Kangaroo Shifter son? Hilarity, that's what!!!

Robyn Peterman's wacky wonderful mind has pooped out another hit. I swear they get better and better with each word. And yes I meant WORD...My husband actually asked if I was hyperventilating I was laughing so hard.

Zelda has Mother issues, Daaaad issues, Yaba Yomomma's serious fashion crisis issues, hell the girls has a

crap-ton of issues. Problem is the only therapist is a porn addicted rabbit and she thinks she is unlovable. You will not be disappointed in this read.

Teaser from Zelda: "Then fate can bite my butt. There's always another way. I just have to figure out." Shitshitshit. I just hoped I wasn't blowing smoke up my own ass.

When can I get the next one? I would like it now please and thank you...AMAZEBALLS people AMAZEBALLS....

---

### **Susan says**

I think I'd love to live in Assjacket, or at least in Robyn Peterman's warped mind! Zelda, Mac, and Naked Dude are back with all the crazies. She had me laughing the whole way through. And if I wasn't laughing, I was drooling over Mac! I can't even imagine what she has in store for us next, but I'm ready!

#### **Funny.**

I love this series and literally laughed out loud at some point. It's more the minds and way the characters think than dialogue.

I've seen some reviews on some books in this series that really irritate me. Seriously the rhetorical questions alone told me they didn't pay attention to the book.

I can respect someone not liking the style of a book or not connecting with it. But to tell others to not even give it a chance because you personally didn't like it is rather rude and condescending to the reader and author. To make actually valid points about plot holes or character inconsistencies is ok. To trash someone's hard work because you only half listened to an audio book is not cool. If you didn't click with the narrator then don't listen, read it. But don't trash the book itself because you didn't care for the audio portion.

The main character has had a terrible childhood without love so what she knows about herself is she is shallow. That she understands but the thing is, love, family and honest to God friends are a foreign concept for her. She's afraid of letting them down or her letting them down. Or worse her heart getting broken again. So she claims shallow. But actions speak louder than words. She is trying to be a better person. She is a good person, but no one has believed in her before so why should she? No one has stuck around before or watched over her or loved her. Trusting isn't easy. So she handles it with a little bit of crazy, but it's the good kind of crazy. The hero is sexy hot and has his own brand of good crazy they mesh well.

### **Sally906 says**

Didn't enjoy this as much as the first book in the series - won't be continuing on with it - I DO enjoy many of her other series so will concentrate on them instead.

#### **THE REVIEW**

##### **Why this book?**

I loved the first book in the series

##### **What I thought**

This book is even more awesome then the first! I read it straight through I couldn't stop. I love the characters in this series, they are seriously too much. I was laughing so hard my sides hurts! I can't even start to tell you how funny and entertaining this book was. definitely a must read!

---

### **Michelle Hoak says**

#### **Wonderful**

I laughed so hard coffee came out nose! I freaking loved this book! The characters are so wonderfully crafted and full of little quirks that are fun to read and make a simple scene into a work of art.

---

### **Anne Monteith says**

While not much happens in this book (except sex) it still kept me reading. This series is outrageously funny, I laughed so hard and had to keep telling the kids when they asked why I was laughing that it wasn't appropriate for them. Although the book is filled with humor from all the characters, Fabio the cat is sill the

45/5 STARS: \*\*This is an honest, unbiased review. I would like to thank the author and/or/publisher for providing an ARC through Instafreebies, all opinions are mine.\*\*

### **Marie Brown (Marie's Tempting Reads) says**

Outrageously fun and full of spark, Witch Glitch had me laughing so hard I swear I nearly peed myself. Its a witchy good time full of magic, spectacular sex, and full of hilarious and memorable characters that will

make you wish you had them as friends...or maybe not. I loved how I never knew from one page to the next, whether I was going to laugh or sigh. Its amazing how a book by Robyn Peterman can be so much fun and ridiculously sexy! A MUST MUST MUST READ AND A FIVE SHOOTING STARS!

---

### **Beebs says**

3.5!

Occasionally silly and completely OTT but fun and sometimes that's just what you need :)

---

### **Nadia says**

Oh this was even better than the prequel. I love this series!!

---

### **Samantha says**

I felt like the first book had a lot of the same jokes that were used in The Hot Damned series. So I started to think that maybe all of Robyn Peterman books will be the same, but this one had some new material which I loved! So much of this book had me laughing so hard, and it was just so ridiculous and hilarious, and I felt that there was more character development in this one. Some things did bother me though. How many times does she have to say she's going to leave in one book? Also it's annoying that she still won't believe she's Mac's mate and the whole I'm not good enough for him, because of who raised me bullshit, like what? Sometimes I wanted to slap her she got so annoying! I did like her overall though, and she seems like someone I'll like in real life. Something else that bothered me is the whole Chuck thing. I understand his reasoning, but why now? (view spoiler) I'm also really questioning Robyn Peterman's relationship with her Mother. I still have a couple of her series to read, but this is the second one that had a lead character that craved her Mother's love, and never got it. Anyway this was even more fun then the last book and I love the new characters! Another quick read in the series and I can't wait until the next!
