I have always loved Morgan Rice's books. They are always very difficult for me to put down because I just have to know what will happen next. Morgan does a wonderful job at being descriptive and letting you feel like you are in the book with the characters. But, oh poor Scarlet. Honestly, if being a teenager wasn't tough enough on a kid, try going through it and changing into a vampire too! Between wanting to feed on your boyfriend, mean girls, and best friends feeling betrayed Scarlet is exhausted and feels she has no one left to turn to. Her parents are to much to handle, Vivian is constantly trying to either verbally or physically abuse Scarlet, and when Maria finds out that Sage has chosen Scarlet over her, Scarlet loses her best friend.

Poor Caitlin and Caleb, as if raising a teenager doesn't come with its own set of challenges, lets add one parent who believes she was a vampire once, and another that thinks that his wife has lost her mind. Caitlin is off to Paris to attempt to find the other half of the ritual that could possibly save Scarlet, if she doesn't feed first. Caleb feels like Caitlin has walked out on him and Scarlet at the most critical time. When Scarlet sneaks out Caleb has had enough, and when Vivian tells him that Blake offered Scarlet drugs, Caleb is convinced he is right, it is drugs with Scarlet.

Scarlet decides that she has nothing more to lose and decides to runaway with Sage, but this only ends in disaster.....

Scarlet really freaks out over her changing into a vampire. Her friends turn against her. Her dad is furious at her behavior. Her mom is gone on her search for the cure, then when she does it's too late (of course). Then there's trouble with Sage.

I like this one better than the first. Maybe because I've gotten to know the characters now, but there also seems to be less teenage angst, more supernatural stuff.

Favorite part: Sage explaining to Scarlet about the Immortalists.

her work has to be a joke, poor spelling poor grammar and very much a bad book. morgan rice is not a writer "she" has not idea how to form a book.

i don't get the good reviews on her work at all i wonder if they have been paid or are not reading the same book.

Well here I am again. I thought I would give this series the old college try, but I think this is as far as I go. It's terrible. I give two stars because it's an easy read and a few parts are actually good, very descriptive and paints a good picture.

Good series. Bad editing.

Julie says

The book was good, I do like Morgan Rice. The only thing was for me was the typos and some words left out. I have the kindle fire and that version was pretty bad for the text part. I am looking forward to the next book though!

Sarah Stacey says

Really enjoyed the series so far. I wish the next one would be released soon!

Brent Soderstrum says

This is like all of the other Vampire Journal books. Lots of teenage drama and lots of editing errors. I use the term editing but that assumes anyone even attempted to do it. That assumption is likely misguided.

Despite my comments above, I do enjoy the story. Scarlet is evolving into a vampire which her mother is aware of. Caitlin has gone to Paris to find the book from which a torn page has been discovered. The page might help her save Scarlet and reverse this vampire thing.

Meanwhile Scarlet is fighting with the popular girl crowd and Vivian in particular regarding Blake who likes her and not Vivian. She also ends up fighting with her best friend regarding another boy Sage who likes her. Sage is an immortalist. He has lived 2,000 years already and will die, along with his family, unless he obtains a necklace from Scarlet willingly. Then Scarlet must die.

The adventure culminates with Scarlet being taken by a recently released con who wants to have his way with her. She wants to have her way with him.

Not the most thought provoking novel but a good story which should have been edited and combined into one book.

Sixteen.

That's how many misused words I found in this book. How can somebody sell books without an editor?!

Ariadne Elle says

This is the second book in the series. I'm totally enthralled with Scarlett. While yes, this series has been compared with Twilight, Scarlett is not an emo character you would expect. She has a mind of her own. Yes, she is a typical teenager, but you find yourself cheering for her as she makes decisions for herself. I am anxiously awaiting the next book. My only wish is that they were longer.

Jayme Short says

Ok, so I enjoy vampire romance novels but come on. These two books were really tough to get through. Happy I didn't purchase them or I would have been really ticked that I wasted my money. Instead, I wasted my time which is much more valuable.

Princess Tiffany says

As always Morgan's books are never a let down, they always make you feel like you are right there in there with the characters.

I am currently on the 11th book I started reading a book every 2 weeks but I got told to slow down so I have been making them take months.

Anyway I highly recommend these books to anyone. (interested in vampires)
