goooooooooooooood book was not expecting it Headly & Troy wow hot. Can i have Troy this book does not disappoint it was a page turner for me. This book is similar to another interracial romance by Nia K. Foxx(The Rancher's Ultimatum)story is similar but still a good book also.

Judging by the cover, I assumed the story wouldn't be great, but it was a very enjoyable read.

A pretty good read. They both worked a few good nerves, but in all a good blood.

3.25 stars. Paperback. True love is patient and never dies. The plot was interesting: but, the editing was awful some of the mark-ups appeared in the book-tacky. Ten years have passed since these two neighbors first meet and became enamored and obsessed with each other; back then, Headly Rose was a minor of sixteen and Troy Christian was 22. Headly returns to town to find that not only is her father ailing, he also owes Troy \$100.00. Troy demands her hand in marriage to expunge the debt if she does not repay it by the due date. I liked Troy's persistence; however, I often found Headly irritating, her logic flawed, redundant and seemed to act as a filler an a source of drama to create conflict in the storyline. Ultimately, Troy and Headly marry and proclaim their love to each other.

An interracial black woan white man romance. I liked the premise of the story. And the hot sex. But it was boring.

I like an Alpha dominant hero. I even like those super Uber Alphas, but locking your woman in a room the way it was done in this book just didn't work for me. It might have worked for me in another book but, something about it here, read wrong wrong wrong. The other major problem I had was the copious amount of misspelled words. Its a huge pet peeve of mine. Even the heroine's name was misspelled at least twice. On the positive side, I had no problem finishing the book and staying interested, and interested enough to pick up the bait for the second book. So there you have it. :-)

I read this book because it's a recommendation from people on Diana Palmer's group. They say this author's style is similar with Diana Palmer.

In my opinion, well, the *theme* of the book is the one that pretty similar. The rest, not really. The heroine's attitude's confusing, and the Hero, even more so. They act like they hate each other while the truth is they're in love. They just need to tell the truth.

But no, they choose to keep arguing, hurting each other feeling. Not to mention there's no conclusion nor closure from the heroine's father about the debt that's been the problem since the very beginning.

So yeah overall I enjoyed this book, but it's a bit confusing.

When Headley Rose returned home in order to help her father, the last thing she expected was to not only be in debt to Troy Christian, but also to have him throw an ultimatum out in regard to the repayment of the loan - "if you lose and can't pay the amount in full back, you've got to marry me."

Troy, feeling that all the cards are in his favour, goes about trying to get the one woman he has always been in love with - by fair or foul means. When he realizes that Headley is just as ingenuous at trying to sort out her father's finances, the two meet head on with some explosive results.

Dangerous Bet: Troy's Revenge is the first book in the Tycoon Club series, and in true Marie Rochelle style we get the overbearing, possessive alpha male that is Troy Christian. He tries to get back at Headley's father but also make up for lost time by daring her into a situation that can only see him as the victor.

Headley on the other hand, is strong determined and very inventive. Although she has always had a thing for Troy, she's always felt as if she was not in his league. When she is literally caught between a rock and Troy she has to make a decision, but is it the one she wants or the one she is forced to make.

Dangerous Bet: Troy's Revenge is an absolutely brilliant read, with some fantastic love scenes that will have you reaching for the fan a time or two. A great first book to start the series off, and from the subtle hints of things to come, future books sound just as exciting.

### **Danielle The Book Huntress (Back to the Books) says**

This was a fun, exciting book. Troy was crazy about Headley, but didn't know how to just open his mouth and say the words. He was seriously going through all these changes and manipulating when he could have just told her. He was a big silly. (hot, though!) It was cute and I really enjoyed it. Hot love scenes, but the fact that Troy loved Headley so much was the winner for this book. Troy was pretty cavemanish, but Headley knew how to handle him. I like the possessive heroes so it didn't bother me, because Headley wasn't a doormat. I liked the interactions with Troy's friends, and Headley's friend Fancy. Some of the words that came out their mouths, wow! This book was a great read. Hours of entertainment after a long day of work. Can't wait to read Fancy and Maxwell's story. Intrigued about who Cole ends up with. Marie Rochelle is an autobuy for me.

### **Mel says**

Obviously with interracial romances, once you've read one rancher story you've read them all. This story reminded me too much of 'The Rancher's Ultimatum,' which is just a NO for me. And, by the way, what the hell was up with him locking her up in a room to get his way? Um, not okay...not in the least!

loved it

### **Pat Cromwell says**

Hands down one of the best by Marie. IMO a turning point in her writing because the heroine definitely shares the stage with the hero -- one does not outshine the other, they are equally enjoyable. This book ties with the first book I read by her "Taken By Storm" as my all-time favorite Marie Rochelle books and I put her books in the same category as Stuart (Anne), Palmer (Diana), Howard (Linda), Browne (Sandra), Feehan (Christine), Leigh (Lora) and Hubbard (Sylvia) to name a few. They are the QUEENS for dastardly bad boys I love but would kill if they came near my daughter.

I didn't care for this book at all. From the reviews I was expecting so much more. I didn't care for hero or heroine. Nothing about them made me want to root for them.
