**Getting to Third Date** Kelly McClymer

*Could a forgotten cutie be Katelyn's newest catch?*

Katelyn Spears is a firm believer in the two-date rule. First dates are so awkward; every guy deserves a second chance. But a third? Not unless he's got serious Romeo potential.

Enter Tyler. Tyler thinks Katelyn's rule is too harsh. He dares her to go back through her Little Pink Book and grant a third date to all the two-date duds. Oh, and she should report back to the whole school via her newspaper column. Standing by her policy (and determined to prove Tyler wrong), Katelyn makes a few phone calls. But will any of her old flames rekindle a romance?

## Getting to Third Date Details

# From Reader Review Getting to Third Date for online ebook

## Maddy says

This book had its moments! Pretty predictable, but still enjoyable. These books, the “romantic comedies” from Simon pulse remind me of being in high school and fed my hopeless romantic ways, so it’s fun to revisit them from time to time. Also, a great quick read for my reading goal!

---

## Valerie says

Katelyn writes the relationship advise column for her college paper. Her advise is somewhat harsh and overly practical. She has a history of having crushes on guys who see her as a best friend. She hides her feeling from them pretty well and so she is very pessimistic about relationships working. She has a dating philosophy which allows for two dates to test things and no third dates for those deemed unworthy. She has a little pink book where she has a code to rate her dates. All of this doesn't set well with the students she writes to anonymously. Her editor and current crush convinces her to give some of her previous dates another chance. The resulting ciaos makes for a cute story.

It wasn't my favorite quick romantic read but it held my attention. It's not a complex book but a fun one. Just don't look too closely at the plot. It's just for fun.

---

## Adrienne says

College freshman Katelyn Spears may have bitten off more than she can chew. Tyler, the school newspaper editor, convinced her to accept a position writing the dating advice column under the pseudonym Mother Hubbard. Katelyn's old-fashioned dating advice causes uproar across the campus, and Tyler challenges Katelyn to break her own dating rules--which are that (almost) every guy deserves a second date, but only someone with serious potential gets a third date. So Katelyn has to give guys she's written off a third chance and report on it as Mother Hubbard. However, this is all complicated by the fact that Katelyn has a crush on Tyler, who in turn likes Katelyn's roommate, Sophia. With the whole campus chiming on what Mother Hubbard needs to do with her love life, it remains to be seen if Katelyn can finally find the relationship she wants.

This quick-read, chick-lit-ish type book is fun and lighthearted, but at the same time, I have doubts about the appeal of the romantic male lead, so the book was somewhat unsatisfactory for me. I didn't hate it, but I didn't love it, either.

## Englishrose says

I thought this book was hilarious and a great read. The first-person perspective is well written with a great grasp of an eighteen-year-old's mind. Katelyn is a very logical character with good morals and a healthy fear of a broken heart - which she sometimes confuses. Her frankness and sarcasm had me laughing the whole

time. Good side characters who really made you feel like you were back in the dorms at college again. Sweet story too. Tyler is a fun character and I enjoyed watching him through Katelyn's eyes. I'd highly suggest this book, and not just to young adult

### **shrug city says**

Not sure why anyone would care so much about some random person's love life. Both hero and heroine were equally annoying (Katelyn's judgmental ways and how easily she caved to Tyler, who was a complete unethical douchebag, did not endear her) and the love rivals were clumsily paired off. Ugh.

---

### **Jacqui says**

A cute little novel looking at college romance and one girl's decision to not get too deep. I appreciate the concept, but it felt like the book actually advocated putting of your goals and settling... I mean the end was nicely wrapped up with the girl getting the boy... but what is so wrong with not dating seriously and focusing on your studies/career instead? I really had trouble with the mixed message that I ended up with.

---

### **Lindsay says**

The relationships between characters in this book were all over the place. Overall it was a cute fast read, but the story could have been written better. Some parts moved super slow and dragged on and others went so fast and had the characters making drastic changes that just didn't seem realistic.

---

### **TheSaint says**

A great escapist read, *Getting to Third Date*, by Kelly McClymer, will have you nodding your head in agreement, and/or shaking your head in confusion on every page. Katelyn is a freshman in college with a highly visible extracurricular activity: dispensing advise to the lovelorn -- as "Mother Hubbard" -- for the college newspaper. Most of the campus thinks she's an old biddy, but the editor (Katelyn's crush) loves the controversy. Mother Hubbard is challenged by the student body -- and her crush --to disregard her own advise and give three former dates another chance.

---

### **Liz Roosa says**

I really do love this book. I definitely feel like I can relate to Katelyn. I often find myself wishing that things in the world of dating were clearer than they are. I also love the role that journalism plays, being interested in journalism myself. This is a great romantic comedy to curl up with and I highly recommend it, regardless of whether or not you're having trouble getting to the third date.

---

### **Katie W says**

A teen chick-lit story about a freshman in college who gets roped into writing for her college's newspaper--as the romance advice guru. She comes across as harsh because she, personally, hasn't ever made it to three dates with a guy. Her editor (and best friend) shakes things up by challenging her to go for the third date with three different guys, to give them another chance. Surprises are waiting around every corner...

Content: a handful of swearing, some talk of drinking and making out, but no details.

---

### **Tiffany says**

I had high hopes but was disappointed. For Katelyn all of her major crushes in her life have always considered her a friend. I think the book could have been better if Tyler had actually liked her earlier and not from Katelyn's view to be drooling over Sophia the entire book until the last few pages where wala they are now together. If Tyler would have been the anonymous writer and not someone else it could have been better. In the story when they finally became a couple it seemed to not really make sense since how it all came to pass. I don't know!

---

### **Natalie says**

Katelyn has a secret everyone on campus is dying to find out. She is the mysterious Mother Hubbard - the advice columnist for the school paper. Her advice is no-nonsense, but angers many students for being too unforgiving.

So now Katelyn, aka Mother Hubbard, must break her own two-date rule, and give the men in her life another chance. Is she wrong? Can she find Mr. Right in a sea of Mr. Wrongs?

A cute romance about not giving up on people too soon. Characters are touching and amusing.

### **°??.:.\*?Arianna°??.:.\*? says**

I read the whole book just to see if Tyler and Katelyn would get together. I was really not into the book from the very beginning. There was no real drama going on, only this dating trial. There was no epic plot that made me get interested in this book. I only got slightly interested when Stephen came into the picture, and it wasn't by a lot. All I can say about this book is that I feel I wasted my time reading this one and should have picked another book to read. For all the people that love drama happening in books do NOT read this book. If you like books that contain only dating and no actual big events going on then this is the right book for you.

---

## **Kate says**

Simon Pulse Romantic Comedies are always a fun read. These books are not necessarily the best written novels but the stories are always fun and you know you will get a happy ending. I think some adult romances could take a note from these books b/c they are characterized well which is much of the battle in writing any novel since you want your characters, for the most part, to be endearing and relatable.

---

## **adA says**

To me this book is kind of weird because the story is very unrealistic. So the main character is a girl name Katelyn and she always had a crush on this boy name Tyler but he is a very odd person because he always believe in giving boys another chance had the second date gone wrong. However, Katelyn doesn't believe so so they had like a bet and she figured out that a third date is necessary before really punching a boy down. Basically what happens is that both protagonist's girlfriend and boyfriend dumps them and they got together in the end.
