## **Hands Off! The 100 Day Agreement** Candy J. Starr

One hundred days without sex? Is that even possible?

When I got offered an exchange to the Italian art school of my dreams, I nearly cried. I could barely afford college expenses at home let alone in a foreign country but it'd break my heart to knock them back. Then my rich and uptight grandmother called with her offer.

If I stopped screwing around, she'd foot the bill. So I agreed. I figured she didn't really care about my sex life, she just wanted me to keep my partying off the radar.

I was so wrong.

The sexy but annoying Chad moved into my apartment to keep me under surveillance. Why wasn't Chad dying to get into my pants like every other guy I've met? He had secrets and he wanted me to fail.

One hundred days is a helluva long time to avoid temptation – even longer when Chad becomes the temptation.

Fue predecible. La principal me provocó cierto estrés debido a su constante cambio de opinión sobre una cosa; un momento estaba de acuerdo, luego simplemente desechaba esa opinión por alguna contraria. Pero a pesar de esto fue divertido leerlo. Lo recomiendo si desean un descanso de lecturas pesadas. :)

“We’d just got to the part where Harry and Draco Malfoy had intense sexual tension going on.”

Art student Lucy loves sex. She loves sex so much that she’ll gladly partake in it with any guy who is willing to have her – which, as far as she is concerned, is every guy. Lucy’s high-strung, controlling grandmother hates that Lucy loves sex, and forms a cunning plan to have her granddaughter behave in a way that she deems appropriate. If Lucy manages to abstain from sex for 100 days, then her grandmother will fund her dream art exchange trip to Italy. Lucy can’t back down – not if it means living her dream. Besides, it can’t be that hard, right?

Enter sexy bodyguard, Chad. Hired by Lucy’s grandmother to make sure she upholds her end of the bargain, Chad follows Lucy around like a shadow. A ridiculously attractive and incredibly tempting shadow. Will Lucy be able to resist living with a man who both irritates her, and gets her all hot and bothered, all at the same time? Maybe things aren’t as easy as they seem...

I really thought I’d like this book. The premise sounded fun and light-hearted, with some good romantic potential. Unfortunately, I was left feeling incredibly disappointed. About a fifth of the way through, I knew this one wasn’t going to be for me – but I persevered, living in hope that it would redeem itself sometime before it reached its conclusion. It didn’t.

Lucy was, quite possibly, one of the most irritating protagonists I’ve ever had the misfortune of reading – and this is coming from someone who has suffered through Anastasia Steele and Bella Swan. She was so immature and selfish the entire way through. Her inner dialogue was completely exhausting, too. I think she was supposed to come across as funny but, for the most part, she just irritated the living daylights out of me. Some of the things she thought – or said – came across as incredibly childish, especially for someone who was supposed to be of college age. I mean, “I bet it was a chick. Damn her. I hated her.” Come on! Also, if I had to hear about her damn “sex eyes” and how “no man could handle them” one more time... It was almost as bad as Ana and her “inner goddess.” Eurgh.

In regards to the relationship in this book... Well, was there even a relationship? There was absolutely zero chemistry between these characters. None. Like, at all. And then, all of a sudden, she was in love with him?? Because he was so sensitive and caring and different from all the other guys?? I'm sorry, Lucy, but I'm really not sure how you managed to work that out, considering the guy had about 15 lines of the most boring dialogue in the history of the world. At least the fact he was completely 2d stopped him from being anywhere near as irritating as Lucy though, I guess.

I really hate giving negative reviews, so I'm not going to say much more on this. Basically, I felt like it was a good premise that could have been executed in a better way. Unfortunately, I'm just not a fan of this author's writing style, and I doubt I'll read any more of her work.

I do think that a lot of people will enjoy this as something quick and fun to read. It had its humorous moments, and the interactions between Lucy and her friends are enjoyable to read. I think it will suit people looking for something light and easy to read. Unfortunately, it just wasn't for me.

“I know you aren't going to sleep around. You're in love with me.”

Creo que tres estrellas es bastante pero me siento generosa(?).

La idea a pesar de que es predecible es muy buena, sin embargo, el libro no fue lo mejor u.u.

Estoy leyendo otro libro que me está costando lo suyo, así que necesitaba algo ligero y entretenido. No tiene nada remarcable. Cumple con la función de divertir que buscaba.

This one definitely wasn't for me. Lucy annoyed me like no character ever has, she was annoying and selfish. Her inner dialogue was just exhausting!!!! And chad.... You're in love with him?! Really?! Because I think he had all of 10 lines before you decided that. Seriously... I was halfway through the book and he hadn't said hardly anything! How can you connect with the characters or be invested if there is no dialog???

The only reason I gave this 2 stars instead of one was because the plot was original even if I did feel it was poorly executed.

Bueno me encanta siempre juzgar ante de leer. Ojo eso no es bueno, eso no se tiene que hacer, pero es cuando leo las primeros párrafo y me atrapa es algo difícil dejar de hacer... Asi que tengo que decir que si va hacer así como las primos párrafo me va encantar, ya que es muy gracioso y hermoso.

Mejor verse como una idiota que tener alguna enfermedad asquerosa.

Oh Dios tendre que tatuarle eso a todas las personas que meten la patas joven.

Lucy, uno no visita a su abuela con manchas de semen en su falda

OMG... amo a esa vieja.

Espera que escuches todos los términos. Nunca tendrás éxito en la vida si saltas a las cosas demasiado rápido.

Bueno no entiendo o porque si somos muy lento la oportunidad se nos va del camino, pero si somos muy rápido no tendremos éxito... Entonces que hacemos??

Jayne me cae pésimo... la empiezo a odiar, osea si su amiga acepto ese tracto que mas le toca que aceptar, de lo contrario no hubiera aceptado nada, hay gente estúpida y ella.

Dije que la amaba, definitivamente estoy enamorada osea cualquier cosa que nombra a mis chicos lo voy a amar con mi vida, que risa. Oh dios esta chica soy yo, es como cuando compra un cd original, la mayoría de las personas creen que lo escucho no saben que me encanta coleccionarlo

No necesito mantener una estrecha vigilancia sobre ti- dijo- se que no vas a follar con alguien. Estas enamorada de mi.

Oh Dios por tal razón que los hombres son el sexo débil. No saben que las mujeres de hoy en dia son una perras, mas esa protagonista, es una perra total. Hay novela eroticas que uno conoce que la chica le gusta el sexo y tal; pero hay una diferencia a que sea una perra, y esta chica es una perra no se porque creo que la novelas eroticas uno la soporta mas, pero esta se quiere pegar a todo el mundo es algo increíble.

- ¿Qué es eso?- pregunto Tristan-. ¿Te ha dado Chad una joya de amor?

Niego y me aseguro que el no pueda verlo.El moriría de risa si lo supiera. Chad me había dado algo mas precioso que los diamantes y el oro. Y lo usaba en una cadena alrededor de mi cuello, asi nadie nunca lo robaría. Habia remplazado mi llavero edición limitada de One Direction.

Ohh Dios creo que cuando consiga mi gran amor, voy a poder dejar de coleccionar tanta cosa de one direction. Pero si mi chico se quiere ganar mi amor... Bueno creo que tiene que empezar dándome algo de One Direction

Fin!!!... Llego la hora que me encanta cuando termino un libro, como llego a comenzar... Bueno en cuanto al puntaje 3 estrella ya voy a explicar el porque.... La verdad que el trama fue muy interesante, pero en cuanto a lo demás de verdad que fue aburrido y la tipa es una maniática al sexo y pareció asqueroso... Ademas que final tan chimbo, osea como va terminar asi y a la vieja no le dieron su merecido ni nada, pensé que me iba a

encantar pero lo que termino fue en decepción. De verdad que uno no puede juzgar a un libro por su portada al principio pensé que iba ser un maravilloso libro pero quedo muchas cosas inconclusa... además que uno nunca supo que iba a pasar con la mama de mi chico.

Thank you Ms. Candy J. Starr for taking me on this entertaining ride of one girl really finding herself. I'll be honest the cover is not what caught my attention, but it was more so the title and blurb. Another truth I'm almost certain that I didn't read it correctly. Luckily my assumptions were correct that this was going to be the equivalent of 40 days and 40 nights, which it was but I was this was the female version.

After a few chains of events Lucy Baker, queen of the party girls has the opportunity to take a trip of a lifetime to study what she loves, art. Unfortunately for Lucy she doesn't have enough money to make that dream come true. As fate would have it her grandmother, whom I dislike very much offers her the money to go, but there's a catch she had to abstain from having sex or anything her grandmother would considered immoral for 100 days. To make sure Lucy keeps her words she assigned a bodyguard, Chad Ferris.

Just the existence of Chad annoyed Lucy for no end, but I found the banter between the two kind of cute in a chick flick kind of way. It was kind of hard to get a feel for him since we never had the chance to get inside of his head. In my opinion Hands Off, would have been that much better with his POV.

While the events that took place felt somewhat predictable, I still found myself very much entertained and I even had a few moments of the butterfly feeling. Truthfully I cannot figure out why this is the first time that I am experiencing Ms. Starr's talent, but I will make sure I add her the list of author's to watch out for.

Devoured in 1 day ...very enjoyable

“Let's skip out of here,” Jayne said, turning to watch Chad walk away. “Shit, he's watching us. He's not taking his eyes off you. You are so screwed. Wait, Rebecca is talking to him.”

I span around ready to tell that skank to get her hands off my bodyguard. Even if he was a pain in the butt, he was my pain in the butt. I didn't want Rebecca putting her slimy hands all over him.

But Jayne grabbed my hand and pulled me out of the cafeteria barely giving me time to get my bag. We ran down the hallway, almost running into a guy carrying a giant caterpillar sculpture. We kept running to the lifts.

“No, he'll go here first,” said Jayne and she dragged me to the fire escape. We ran down the three flights of stairs and out the fire escape into the campus car park, which nearly killed me. I wanted to stop for a rest when we hit the outside but Jayne grabbed my arm. She ran behind a car and pulled me down.

We both squatted against the car, trying to get our breath back. Then she popped her head up to peer over the bonnet of the car.

“Can't see him,” she panted.

“He might be hiding, ready to pounce.”

He could probably track me just from the sound of my heartbeat. I was so unfit.

“We have to take my car. He'll know yours.”

Jayne's car was at the other end of the car park. I started to rise so we could make a dash for it but she pulled me back down.

“Stay hidden.”

Jayne did a squat walk to the edge of the car, glanced around to make sure the coast was clear then waved for me to follow. I tried to copy her squat walk then we both did a huddled over run to the next car in the lot.

Jayne squatted back down and waddled some more.

My legs burnt and we'd only gone the distance of two cars. I estimated there were about 30 more car lengths to go. If I kept this up, I wouldn't need Chad to make me give up sex. I'd be physically incapable of ever spreading my legs again.

“Keep up,” Jayne hissed. “Do you want him to catch you?”

I took a deep breath and thought about all the good this would do me – I'd have the tightest butt you could imagine by the time we got to Jayne's car – then I waddled along some more.

We got halfway there without any sign of Chad.

“Maybe he's given up?” Jayne said.

“Maybe he's found a prime viewing position and is laughing his arse off at us waddling through the car park?”

I'd started to develop a technique though and picked up speed. I started to outpace Jayne, figuring the sooner we got to her car, the sooner this embarrassment would end. Hells, what if someone saw us doing this?

I tried to sprint waddle to the next car when Jayne grabbed me, making me jump.

“Chad?” I hissed. But it wasn't Chad, it was a huge great truck heading towards me in the car park. Shit. I could've been killed.

Finally, we made it to Jayne's old bomb.

“My thighs will never be the same again,” I said. “That was a major workout.”

“I thought you'd have strong thighs from all the...” She did a sex sign with her fingers.

“Not as much as you'd think.”

Jayne started the car up, spinning the wheels as she backed out of the parking space. She got to the boom gates.

“Quick, grab the swipe card. I can see him coming.”

“Where?”

“Over there. Quick. It's in my handbag.”

I grabbed her handbag. How much shit did Jayne carry in that bag? Hair brushes and sketches on envelopes and a bunch of pencils in various chewed states.

“Where...”

“Here, let me.” She snatched the bag from me and waved the whole thing in front of the sensor. I could see Chad running towards us. He ran fast and didn't even look like he'd broken a sweat. Maybe because he hadn't been waddling all over the car park.

“Hurry up,” I said when he was within metres of the car.

“I can't leave until the arm goes up, I'll knock the top off my car.”

“Why the hell don't you have a convertible? We'd be out of here by now.”

3 stars goes to:

HOT cover, cute premise and foundation of storyline and the small handfuls of humour scattered through the first half of the book.

I didn't feel the chemistry between the H/h but that could be because there wasn't enough dialogue or details with the romance development. Kinda like a friend trying to tell you the details of a hook up instead of really feeling privy to the characters moments for yourself. Again, this could be because of the lack of dialogue or missed opportunities being glossed over instead. The whole deal and set up between the grandma and MC's seemed to have heaps of holes and flaws but it wasn't so bad as to frustrate me, so I easily overlooked it.

The biggest sad, emoticon face for me was the lack of steam :( for an N/A book with a synopsis revolved around sex, I was surprised and disappointed that I didn't get any nookie \*double sad face\* :( :(

All in all, I didn't want to give this story lower than a 3 because I feel I need to give props to the author for putting herself out there and can certainly see a talent that will only get better. I'd normally give this book a 2, but that's just because I'm a smut whore who normally acts like a whiny turd if she doesn't get her smut fix.

Told in the heroine's 1st person POV. Standalone novel with quick HFN.

### 3 Superficial Stars!

*Source: eARC for Honest Review Courtesy from Author*

So after enjoying the Bad Boy Rock Star series when given the chance to read this book I jumped on it. After reading it I didn't love it as much. The writing was fine, but I couldn't and didn't relate to the sex crazed superficial party girl.

**"See, this is your problem. You just see men as a bit of meat attached to a cock. Have you ever got to know a guy, really know him, before screwing him?"**

For Lucy, she LOVES sex and really doesn't take anything to serious but think she is god's gift to men. However, the one thing that she does fear is her grandmother, so when her grandmother comes up with an asinine proposal for her to keep her legs closed she is forced to do it.

Lucy thought this would be easy as all she had to do was seduce her new bodyguard and then she can have sex and the prize at the end without her grandma being any the wiser. What she didn't anticipate was that Chad had more at stake then she did with this new agreement.

So Lucy starts by treating Chad like a piece of dirt but the more time they spend together the more she realizes that he's not so bad and starts up a friendship with him. But the stakes are higher with Chad than Lucy so the game is amped up so he can win.

For Lucy she's in a new position where she actually cares for someone other than herself and her two besties, which is a new sensation for her. Realizing what Chad has to lose, Lucy does the unthinkable and sacrifices herself even though it breaks her heart.

But that sacrifice was worth it and she would do it again especially if that mean she gets to screw her grandma over and Chad's gets what he needs most. Finally growing up Lucy starts to blossom to more. While learning that the reward is so much more because now she has heart which belongs fully to Chad.

I always find it harder to rate a book when it is the character that I don't relate to, not necessarily the book or the writing. If I was to ignore the hollowness of Lucy then I will give this a 3.

Sometimes you have to wonder if other people know what's best for you and they just go about doing it the wrong way, or maybe they just like to start drama but are happy it all works out in the end. That's how I felt about this book and I loved every minute of it.

We meet Lucy who is trying her hardest to earn money to go study abroad in Italy, but then in comes her grandmother with a proposition, you can only imagine things go downhill from there, or do they? The terms, Lucy must behave like a proper young lady all the while keeping her new bodyguard Chad who also has a stake in this. This all comes with grandmother's 100 day agreement of course. Either way someone will be granted a large amount of money. But is it worth it?

The two butt heads at first but eventually when she's down in the dumps Chad is there for her and the tables turn. I love how Lucy will refer to him as The Chad. There were a lot of great lines in this book but I think I

was a bit biased because I always love it when there is a bit of foreign slang to my Americanized one. Their friendship grew and it was cute seeing them develop feelings for one another. Although Chad isn't much of a talker in this book you still learn a great deal about him through Lucy's snooping. There were a lot of great moments between them and goes to show you that there are people out there that you can lean on even if they are getting paid for it. After all we are all only human right?

This was a quick read with great characters that left you smiling and completely believable in everyway because I could imagine this book playing out in real life. As crazy as it was it was a fun read and definitely something to occupy yourself with. I thoroughly enjoyed it. I'm completely team Chad but I do have to say the incident that happens towards the end WOW lol, I can't even fathom doing something like that but what must be done must be done. Great story!

I really love this cover and would definitely pick this up to see what it was about but that is not how I pictured Chad at all, but still not too bad.

I received a copy of this book in exchange for my honest opinion.

Hands Off! The 100 Day Agreement by Candy Starr is a reverse of many of the stories out lately. In this story, the heroine is the "bad girl", sleeping with just about any willing guy, and the hero is the good guy. The story is told from the heroine's point of view.

This is a fast read. It's very predictable, but still enjoyable. In the beginning, the voice of the heroine made me laugh, but I have to admit, I was ready for her to grow up long before she actually did. The biggest thing I felt missing from this story was the payoff. I would have liked more of the characters after they finally get together.

I would recommend this for anyone looking for an easy, light romance. Although I would classify this as NA, for a story entirely about sex, there's very little of it. It's talked about a lot, but not happening much. As someone who loves YA, I'm not one who requires sexual situations; however, I felt this book was lacking in not giving the reader a payoff scene due to the fact that sex was the entire driving factor of the story. In my opinion, the book is definitely not appropriate for YA, but I felt it was a little lacking for NA. Overall, it was enjoyable, though.

### **Julie says**

This was a wonderful story, I had to slow down reading it I was enjoying it so much, I didn't want to finish it too fast.

The main character Lucy had me in stitches at times, as she tries to change her life for 100 days with no partying and live a complete celibate life so her grandmother will pay for her Italian art school exchange program. And it didn't help any when a sexy, 6ft+ Chad was also hired by granny to follow her around to check that she kept in line. She was a terrible person, very controlling.

Lucy thought it would be easy, but not so, especially when he moved in her apartment. He was a bit of a mystery. One minute he was friendly and the next very aloof. She needed to know his secrets, but he wasn't telling. Chad had to be my favourite character, he was so tolerant and easy going. While Lucy was like a firecracker, you never knew what would be coming out of her mouth, she was great.

I found this book to be really entertaining, a fun read. It finishes a little fast at the end but apart from that I enjoyed it very much. 5/5
