### **Leo (Queen of the Rants and the Crazy) says**

Safe, minor ow drama. But the reason I'm rating this low is because I'm tired of men calling their ex a bitch! Sorry I don't swooned after a man who calls his ex a bitch. Another thing if the author thought I was going to swoon after the hero calls the heroine during sex scenes 'mi niña, dulce niña' then she's wrong. Yes there's a couple of definitions of the word niña for me it means little girl. My man calls me little girl during sex that will put me off. Who the heck wants to be called a sweet little girl during sex? I'll tell you who don't... NOT ME!!! He will definitely get punch in his balls.

#sorrynotsorry.

### **Astraycat says**

This book complete I Want (Enamorado, #2) and I loved to get a glimpse of Mateo and Ava.

I liked how H finally get his happiness and overcome his distrust of female after what he went through in I Don't (Enamorado #1).

Moreover, the epilogue complete the previous two books: babies always made wonderful epilogue.

### **Stories in Review says**

Slight ow drama, but it was over quickly. Great story. Loved this series. Loved Elvis. The way the author rights him is amazing. Definitely recommend, but you would need to read them in order as there are characters from the other books in this one. Great read.

### **Sangria says**

**Nice, easy romantic Spanish series.....**

Truly, this is just a very steady series w/ an interesting family from Spain, wealthy, staying in Malibu for the summer and the women they fall in love with, intermingled w/ a hilarious pet peacock. Yes, a peacock. Elvis is in the building and frankly doing all the match making. Ha.

We've met our leading lady before, Emery is a Hollywood starlet stuck with a god awful man.....in the last book. She's finally free of him. Kaya, her bestie, fell in love w/ one of the brothers last book, so it sets the meeting up w/ Rafael.

I've wanted his book for awhile. Was happy to hear some of his back story. He's just a very good man, who was done extremely wrong by a woman. He's out of that.

And we're off....it was a funny and sexy romance. If your reading the series, I recommend. If your not, I'd read from the beginning, for all the backstory, but you could read it as a stand alone.

### **~WRITING - PLOT - PACE~**

OMG...this book was ridiculously sweet. Like cavity inducing sweet. Which I am sure won't be an issue in any way for a lot of readers. But personally, the lack of any real issues or angst stopped this from being a total 5-Star read for me. That is just me though, and I have mentioned many times of late that I prefer books that have a bit more "BITE" to them. In any case, this was still a very good read. The writing was fantastic. The pace was perfect (it did start to drag a little towards the end). The plot was engaging, and the ending was over the top sweet.

### **~HERO~**

RAFE...I loved Rafe. He was smokin' hot and had a filthy mouth. Given his past I expected him to be a little less *ALL IN* from the start. Maybe a little distant and reluctant, but NOPE, he was pretty much 100% ret to go the SECOND he sees Emery. There is really nothing more to say about him as he was pretty much perfect and never did anything wrong (lol).

### **~HEROINE~**

EMERY...I loved her character as well. Again, I expected some reluctance on her part given her history, but NOPE, she was ret to go from the second she saw Rafe as well. She was pretty much as perfect as Rafe.

### **~SECONDARY CHARACTERS~**

This series is rich with secondary characters and again this book was no different. We see all of Rafe's brothers. His parents. The couples from the previous books. I love the whole close knit family feel these books have. And of course, my FAVORITE side character of the entire book was ELVIS the peacock. I seriously want one as a pet now! Elvis needs to find his own HEA (lol).

### **~HEAT LEVEL~**

Medium. I am pretty sure we are halfway into the book before any sex takes place but when we do start to

get the sexy times, they are SMOKIN' HOT. Like I mentioned, Rafe has a dirty mouth. I loved it. The couple also had good on page chemistry.

#### ~ANGST LEVEL~

ZERO. Honestly, considering both the main characters pasts this book could have had some good angst added. And I'll be honest I was a bit bummed out by this. Everything was just SO easy peasy. The couple never argued. They never had a single issue to deal with. Basically, unicorns were dancing through the tulips farting rainbows while leprechauns put pots of gold under their a\$\$es < -- WHAT??!! It IS St. Patrick's Day after all! (lol). There was like a *blip* of pointless OW drama and no OM drama.

#### ~IN THE END~

Overall I really liked it. It was an easy and super sweet romance book. Was it perfect for ME, well NO, but it will be perfect for a lot of people who like their romances sweet, insta, and without any drama. Nothing wrong with that at all. The writing was perfect. The pace was perfect. The plot and the characters were both perfect. Even a bit of angst would have pushed this one to 5-Stars for me. Therefore yours truly is going to give this one two solid thumbs up and I can't wait to see which brother is up next.

### Brandy Roberts says

I really loved this book it has to be my favorite in the Enamorado series and I can't wait to see what's to come . This can be read as a standalone but I highly recommend that you start from the beginning because you might run into some major spoilers . After reading I want I couldn't wait to see what was to come for Emery and Rafael plus to see if Elves's plan would work and what other shenanigans he could get himself into . The characters were really likable didn't know what I was going to think of Rafe but he quickly became a swoon worthy hero , Emery was awesome everything about her was good qualities of a heroine . Chemistry between them was off the charts hot and the sex oh my gosh the sex scenes were flipping steamy . The secondary characters were just as amazing it was wonderful to see how the couples are doing and progressing with their lives . I suggest I Need as a must one click right away read so get your one clicking fingers ready .

## **Megan ~The Never Ending Book Basket says**

Y'all I have to tell you something important, so come in nice and close. Sit down, make yourself comfortable, and listen up because there's something you need to know: this book is utterly incredible. It will make you swoon something fierce, it'll have you melting in your boots, and it'll have your heart all aflutter with what you get with Rafe and Emery. From the very first page of this book, this story will steal your heart. It will own you in every way possible, and it'll have you bursting with the amount of love that floods you for these characters.

Whether its the butterflies they give you, the heart meltingly moments that own you, or the moments that so magnificently envelop you within every ounce of what these two characters share, I Need will give you it all.

It will give you the feels, the heart, the feel of family and connection, and it'll give you one helluva love story that will have you believing in the true power of love. It is no secret that I have loved this series. I Want and I Don't were two of my favorite reads last year, so it's easy to say that the entire Enamorado Series is one of my favorites. There is just something about this family, something about these Spanish alphas who fight for their hearts and their loves with all that they have, and something about the strong, dynamic and wonderful women they fall for that has me needing these books like I need my next breath.

What Ella Fox has created within these books is fantastic. This author knows how to write one helluva love story that will get your heart racing a bit faster, all while consuming you within the mesmerizing heat and connection her characters share. The way she allows you to be right in the thick of it with them, experiencing what it's like to fall, what it's like to meet that one person who changes everything, and what it's like to be pulled into a love that is like a siren's call is truly what sets these books apart. That and the fact that the characters of this world are amazing in every way, distinctive in a way that makes them each such an integral part of the story, and just so damn wonderful that you will never want to leave them.

Seriously. Trust me when I say you will never want to leave these characters. I just finished I Need and I am already going through withdrawals. I already miss Rafael and Emery. I already miss Elvis. I already miss this wonderful family that is loyal and generous and so kind. I already miss all the memorable moments they all share. I already miss what they each brought to this story and everything that unfolded. And I am already thinking about the next time that I will get to be with them.

That is how much I love them, that is how much I love this world and this series, and that is how much I love and cannot get enough of Ella Fox's world.

I have read all of her books. I have devoured them, reread them, swooned and melted while reading them, and let me just tell you, they all just keep getting better and better. All of her characters are so easy to love, so easy to root for and fall for, and they all have this wonderful way about them that allows them to burrow themselves so deeply in your heart that you just can't get enough.

I can't get enough.

This series follows the sons of the Cruz family as they fall head over heels for the women that give them everything. I have loved every single book in this series, but I have to admit that after everything that was set up for Rafe's story, I was especially excited to see what his book would bring. You see Rafe has been

through so much, and after being betrayed by someone close to him he was shattered. It has taken years for him to put his pieces back together again, and the moment he comes face to face with Emery, is the moment he realizes everything has changed. This story follows the two of them as they fall fast and hard, as the gush over one amazing (and oh so handsome!) peacock, and as they realize that they might've just met the one missing piece that they needed.

To say this book made my heart happy is a complete understatement. It melted my heart into a puddle of glorious emotion, coupled with some serious swoon. Every page had me even more enamored with these characters and what they shared. Through Ella Fox's incredible writing I was with them through every breath of this story, living it, experiencing it, and falling right along with those two. Their connection is on fire and it starts the second they meet, and every word of this story follows Rafe and Emery as they try to make sense of their feelings, as they share what they do, and as they see where the future might take them.

Their story was emotional, beautiful in a way that truly touched my heart, and it made me blush like nobody's business because of the fire and spark those two share. It was like the fourth of July on crack y'all, and I was addicted. I was addicted to them, their story, and every moment of what they shared together. Every turn of that page in this book made me love them more, had me feeling and living more of their story, and showed me again and again how much they needed each other.

Rafe and Emery were just the best. They were real, they were honest, and they had their hearts on their sleeves. They had both been through so much in their lives, and I loved getting to be there with them as they connected and as they helped each other reach the places they both so deserved to be. I loved that Rafe was so thoughtful, so protective, and so darn endearing. I also could not resist that man and his Spanish sweet nothings that had me swooning left and right. Most of all, I loved that Rafe was such a good guy, with a heart of gold, fighting for what he and his heart wanted. I was just as smitten with Emery. I found her to be so relatable and sweet and genuine. I loved that she too had her heart on her sleeve and wasn't afraid to feel what was consuming her. That girl was strong, honest, and beautiful inside and out, and I couldn't have asked for someone better for Rafe.

(Did I mention the fact that his character really meant a lot to me, so the lady for him had to be special, and Emery completely fit that bill. Tenfold.)

And do not even get me started on my love for Elvis. That little peacock was a gem. The way he was his own character, with his own shining and distinctive personality, and the way he interacted with these characters was the best. He was the icing on top of the cake for an incredible story, and I loved him. So so much. I loved every moment he was in, and I have my fingers crossed that he will find his way into more of these books as this series continues.

To say I loved this book is not enough. It just doesn't do this story what it deserves. This book took ahold of my heart in every way, it gave me two real and so easy to love characters, and it let me believe and feel and live and breathe every ounce of their love story as they gave it all a chance. What Emery and Rafe shared together made me believe in the power of love all over again, and I am practically counting down the minutes until I can get more of this series and more with all of these characters. I love them all so much, I am so invested in all of them, and I can't wait to see where this series will take them all!!!

This story was exactly what I needed and more. I couldn't put it down once I started, and I never wanted it to end either. It melted me, touched every part of my heart, and had me swooning and loving every second of being with Emery and Rafe. If you read this book and this series, it'll do the same for you. I promise. This book, this world, and what Ella Fox so magnificently gives you with these characters will have you believing

in the all encompassing power of love. This book will make you need everything it so fantastically gives you, and in the end you will be deliriously happy that you jumped into with all that you have.

Trust me. There is no resisting Rafe and Emery, or Elvis for that matter. Their love will give you it all and then some, and I am telling you, you will love every second you get with them.

I know I did. So damn much.

### **Lost the magic**

This was a bit of a disappointment after how good book two was.

There was no relationship development between the characters. They were either having sex or talking to Elvis.

Let's talk about the sex, I don't remember it being so tacky in the first books. There was no emotion in any of it, it was a little too close to written hard core porn. I also agree with another reviewer who said it was absolutely wrong to have the term 'little girl' being said during sex.

I adore Elvis, he was fun in book two. He seemed to steal the entire book this time. A little more focus on building an emotional relationship between Rafe and Miel would have been better.

I will keep reading the series. Maybe Diego is up next.

### **5 ‘ We All NEED an Elvis in our Lives’ Stars**

**¡DIOS MÍO!**

**And the ‘Lo Mas Caliente’ award goes to... Rafael Cruz!!!**

Seriously, not even all the warnings in the world would be able to prepare us for the scorching hotness that is this man and his DIRTY, no, downright filthy, talk! And I soaked up every second of it!

Perfect complement for this über sugary sweet story that is Rafael and Emery's. And Elvis of course!

Rafael and Emery both have quite a baggage from their ‘romantic’ past, one would think they may be wary when meeting a member of the opposite sex, and they are that is, until they meet each other.

**Then she said my name, and it felt like something inside of me clicked into place. It was like I'd been waiting all my life for her to say it.**

The insane attraction is instantaneous, but so is the recognizing of each others' other half. A truly insta-love

story, where the relationship grows in a slow burn, but ultra caliente, forever kind of love!

**When I looked at Emery, something gut-deep inside of me said that we were meant for each other. I'd do whatever needed to be done to make sure she knew it—and that she felt the same way about me.**

And these Cruz men.... WOW! It's almost impossible to top this level of love and devotion. From father to each of the five brothers, they are all Best Book Boyfriend material, and we have proof of that in each of the three previous books. And the Mateo, really keeps stealing my breath and heart. Sorry to rest of the delicious Cruz men, but really, how could this man not be my fav?! Thanks to Ms. Fox for making him more and more swoon worthy each book!

**"I take it you're leaving early?"**

**He nodded. "I start to really miss Ava around noon and it goes downhill from there. I do my best to tough it out every other day of the week until but on Fridays I give in early and go home to my wife."**

**"It's Thursday," I pointed out dryly.**

**Mateo shrugged. "It feels like a Friday to me."**

Speaking of the hotness that are the Cruz men, and like I've said in the beginning, Rafael really was hiding the filthiest of mouths behind that broodiness before meeting Emery, and his sweetness devotion to her. I know Ella Fox warned us about his dirt talk, but damn... He was one 100% NSFW material, and I enjoyed every second of it! ;)

**Be careful, Miel. You have no idea how badly I want to cram your cunt full of my cock."**

OMG, Elvis, aka the master matchmaker, who knew a pet could take up such an important role in a romantic story?! I never imagined, but like most Enamorado fans feel completely in love with him, and keep hoping he shows on the remain Cruz's books. Everyone adores Elvis! We all went crazy for him, Rafael just more than most, lol!

**Like a custody arrangement."**

**I gaped at him in shock. "You wanted to share custody of Elvis?"**

**"I said I knew it was crazy,"**

I Need was just what I needed and hoped for! This series really has become one of my all time favorites, and another reason to stalk Ms. Fox relentlessly for more Cruz deliciousness! Super sweet, light hearted, 'insta love' with plenty of spice, it's the perfect book for low angst craving, with an absolutely fantastic deck of characters. After that teasing, can't wait for Joaquin's!!! <3 <3 <3 <3 <3

**"Mi Dulce Niña. I brought you home to Spain because I knew you were it. You are everything to me. Of course I love you."**

**I sniffled and gave him a wobbly smile. "I love you too."**

## April Symes says

This was such a beautifully sweet romance read. Rafe is such a hot and steamy hero in this romance read. Considering his past, you would like he would be against love but deep down , he must really crave love and miss the feelings it gives him. The reason I say that is when he sees/meets Emery, he was 100% in love and the chemistry was super explosive between them. Oh and the Cruz brothers.. they are super-hot and they are a hoot!! I wish I had them for brothers, seriously! Then there is Elvis..Oh my! His love for Emery is touching and had me in tears. Her love for him is pure. If there is a favorite of mine in this book, it is Elvis. I don't want to give any spoilers away but what I will say this that Rafe and Emery are two people who come together after they had some past pain and when they come together, it is truly beautiful but not without drama, angst and heartache. There is definite laughter, witty humor, passion, hope and love. This is a romance that isn't dark but full of light. I loved catching up with past characters in previous books. I can't wait to see which brother is going to be next and who his heroine will be. I loved Ms. Fox's writing and I enjoyed how all the characters come off as relatable yet with a snap to them. She is an auto buy for me and I look forward to her next release.

My Rating: 4.6 stars \*\*\*\*\*

"I received an advanced copy of this book from the author at no cost to me."

4.5 stars - Such a heartwarming story!

The Enamorado series had me hooked since the beginning and I enjoyed this book even more than the first two. Once again, I can say that Ella Fox did not disappoint me and I love the way she's able to bring life to her characters...and beyond! This book is a sensual, sexy and captivating blend of romance with steamy scenes interlaced with strong family values. Loved Rafael and Emery together and individually. They complimented each other perfectly in every way. And I enjoyed their mutual love for the match-making peacock Elvis so much! Each Cruz sibling left me craving the next...

### **Amanda says**

A very sweet, low angst, low drama read that will make you swoon and wish you had your very own super hot, romantic Spaniard like Rafe!

And let's not forget Elvis, because he truly steals the show in this book, if I wasn't absolutely terrified of birds I would now be begging my husband for my own peacock ?

### **Janie says**

I love Rafe so much. Emery was a fantastic h. I am so loving this series and the family aspect. It's great to catch up with previous MCs. Can't wait for the next.
