The Pack Rules 5: Loved by the Alpha

Part Five in the Five-Part Alpha Werewolf Romance Serial

Every 20 years, the Shadow Pack arrives in the small desert community of Bleed City, Nevada. To honor the pact made 150 years ago with the werewolves, the town offers up their eldest daughters for the Choosing--a ceremony where the shifters pick their virgin brides. Like most werewolf packs, the Shadows need human females for mating and breeding so they can replenish their werewolf bloodlines.

Arabelle "Belle" Winton is the new bride of Greyson "Grey" Burke, the Shadow Pack's very sexy alpha. Belle has been rescued from the Blood Pack's vengeful beta. Now she and Grey must deal with a devastating betrayal within the Shadow Pack—and hurry to save the werewolves and humans trapped in Bleed City. It will be the ultimate test of their faith in their friends...and in each other.

Please note: This is the fifth and final part of The Pack Rules, a five-part alpha werewolf romance serial. These stories are meant to be read in order, so please start with The Pack Rules 1: Chosen by the Alpha. Thank you.

### **Kat Piparo says**

Was not a fan that it was a serial and that I could not find them in Ebook format

I came across this author by chance and have actually really enjoyed her serials. This is a review for parts 1-5. I liked the story in this one. It was hot but actually had a good story. I did like that the heroine was a strong woman who fights for what she wants and believes in. The main thing I loved was that the heroine was a fighter. It made me happy to have a strong heroine instead of a whiny one. If you are looking for a fast quick fun shape-shifter read then look no further.

**A great little serial romance!**

**A great little serial romance!**

My only complaint was how short each story was and switching to the next book just as you would get to a good part...LOL...now, I know that is the whole point of a serial story...but I read so fast it was irritating...tells you though how much I got into the story! Great characters, excellent action and steamy sex scenes, what more could you ask for.

Main Characters:

Arabelle Winton - An eldest daughter promised to wolf shifters

Greyson Burke - Alpha of the Shadow pack

Synopsis:

Every 20 years, the Shadow Pack arrives in the small desert community of Bleed City, Nevada. To honor the pact made 150 years ago with the werewolves, the town offers up their eldest daughters for the Choosing—a ceremony where the shifters pick their virgin brides.

Like most werewolf packs, the Shadows need human females for mating and breeding so they can replenish their werewolf bloodlines. Arabelle Winton considers the entire process somewhat barbaric, but as the oldest female in her family, she must take her place among the other women.

What she doesn't expect is to catch the interest of Alpha Greyson Burke. When he chooses her for his mate, he shows her the true meaning of passion--and opens the door into a sensuous world she's more than willing to explore with him.

Yes, Grey can have her body any way he wants... but Belle will never give her heart to a werewolf.

**My Thoughts:**

This is a very quick and easy read. The plot is okay but not it is pretty simple and straight forward. The main characters are both pretty strong characters

### **Kimberlee says**

This was an adorable short little mini five book series. It's all about the werewolves. You got a love them they're sexy unless you're like Kelt and you want to take over the pack then you're just plain stupid.

### **Kathy Harrington says**

No hot sex in this one, but boy do you learn just who is true to the pack and who isn't. A good ending

### **Kimberly Walden says**

Part of Kindle Unlimited. Last book in series. HEA - loved the twists and not knowing who to trust. The series proved to be a great read and love the fact that it was free :) Will be reading more from this author.

### **Shirley Bennett says**

This could have been the 5th chapter in a book.... and with the rest of the cast, a few books. Was a fun fast read of all 5.. interesting concept for shifter/human interaction.

#### **Excellent**

Loved this serial. The story offered a great mix of twists and turns paired with characters you could fall in love with.

### **Phaedra Seabolt says**

There was a shift in feelings in this book in my opinion. Not that you don't think Belle will love the alpha, but rather her feelings change from being attracted to him and tolerating her situation to one of complete acceptance. It wasn't unexpected, but it felt sudden. Actually everything about the entire five book plot is sudden. I liked that because I wanted a story that I could actually put down while taking care of my kids but left, feeling satisfied with my knowledge of what was going on. This book delivered that. You get the final installment of the conspiracy in this book and get to experience what Belle is willing to go through for her husband. I thoroughly enjoyed it. I don't want to give too much away of the plot because this really is the summation of everything. This series is available as a single book. Seeing that I had to have the next one as soon as I finished reading the previous one, I think the complete series is a must have before you even start reading it.

### **Big says**

Waste of my time. Short and empty. The characters are flat. Why the alpha's pack betrays him makes no sense and the plot has so many holes in it, it could give swiss cheese a few lessons. I love a good shifter story. This isn't one of them. I followed the series hoping it would improve as it went along. Sorry to say, that hope was short lived - pretty much like the pages in this series' books.

Note 2

### **Torie says**

A perfect ending to a highly addictive series. I enjoyed this series. Arabella and Greysen had a bunch of stuff to get through. I loved that Arabella was strong and not afraid to fight for her alpha. I loved that Greysen gave her the option of running when things hit the fan but she refused to do that.

#### **Good ending to a good series**

The plot played out well with enough threads to keep you guessing. The female lead grew stronger and impressed.

The ending seemed a bit rushed but all the angles were tied up.
