Loving Doctor Vincent

Renea Mason

Loving Doctor Vincent Renea Mason

The final installment of the Good Doctor Trilogy.

After becoming entwined the Society's web of deceit, Elaine Watkins has to decide who she can trust. Xavier's tempting declarations of marriage are over shadowed by the ominous warnings of a dead man, leaving her to ponder if there can ever be a happily-ever-after for Xavier, Marco, or Sebastian? For her? Finding herself in Victoria's crosshairs, Elaine begins to see the bigger picture unfold and claims her role in the Society's diabolical play-acknowledging that since coincidences are rarely the work of fate, it's time to create a little chaos of her own.

Rissa Blakeley says

What a phenomenal end to a spectacular series! I'm sad it's over, but I thoroughly enjoyed the ride. Renea Mason brought it all- sex, deception, loyalty, secrecy, a love of a different kind- in this series. I highly recommend The Good Doctor series to anyone who wants more than just hot, steamy sex in the erotic genre. Thank you, Renea, for putting unconventional love out in the open. I will quietly hope we get an update on X, Elaine, Sebastian, and Marco in the future.

Hot damn that was one hell of a series. Great story line and hot hot hot! The whole foursome thing seems unrealistic but that's what makes it so great. Love is love. And everything works out, a satisfying ending to a great series!

Sissy's Romance Book Review says

4.5 Stars

'Loving Doctor Vincent' by Renea Mason is book three in "The Good Doctor Trilogy". This continues the story of Elaine, Xavier, Marco and Sebastian. I would say to enjoy this story and book you need to read the other books in this series.

This book picks up with Elaine learning more about the Society and what part she played in it. We get to watch the story unfold and find out the missing pieces for Xavier and Elaine.

We also see how the relationship is going for Elaine, Xavier, Marco and Sebastian...which I enjoyed. This story had great mystery and Pollyanna love story that I greatly enjoyed.

I received this book in exchange for an honest review.

Meggie says

Book 1: 4.5 stars

Book 2: 5 stars

Book 3: 4 stars

*****Series: 4.5 stars*****

I stared at the streams of water lining the window and made my vow. I would end them or die trying. In the meantime, after looking into the eyes of death, I decided to live.

This trilogy was a roller-coaster ride of suspense and sexy times, pretty much in equal measure. The first book was mostly the establishment of Elaine and Xavier's relationship, while the second one went further into the role and personalities of Marco and Sebastian. The second book also delved head-first into the action-packed side of the plot, and it built plenty of intrigue and mystery that was eventually resolved in the third book. I definitely loved the ending for our four MCs, but considering the craziness of the plot and all that unfolded and unraveled throughout all three books, it all wrapped up a little too easily for my liking. After the intense build-up of the second book, the ending was *almost* a little anticlimactic. However, I did love the character development of Elaine, so it didn't ruin the overall experience of this epic story.

All three books were filled with steamy hot sex that never got old or redundant, which I imagine had a lot to do with the different people involved and their own unique personalities and preferences. Sebastian was a dominating lover, Marco was sweet and sexy, and Xavier was intense and kinky as hell. I don't always buy into the long-term stability of a relationship like theirs, but in this case, it didn't matter. It was all part of their story, and I enjoyed every second of it.

I highly recommend this trilogy for anyone with an open mind that wants something different than the standard boy-meets-girl story! It will definitely be going on my favorites shelf.

“There are only three things I need from you. Your trust, your love, and your respect. Out of those I'll bring forth your desire.”

Lyn says

Just when you think Renea's books couldn't get any hotter, you are wrong. Renea you have certainly taken my breath away in the final book for The Good Doctor Trilogy.

Elaine is coming to terms with loving her 3 favorite men and understanding how the relationships are going to work. She is also leaning more about the society council members and what is required from them all. We also found out more about Elaine's past and how the 4 of them have come to join as one. The story also provides more insight to Marco.

Once again Renea has provided the perfect blend of erotica, mystery and romance in this amazing story. This book will melt whatever you are wearing, it is that hot. For me, I was hooked from the first to the very last page, I just couldn't get enough of them. The love and trust in this series is so beautiful and you just want to hear more.

Loving Doctor Vincent certainly had all my emotions going. At one stage, I found myself holding my breath waiting to see what was going to happen next, then fanning myself on the next page.

I for one, would certainly like to hear more from them and also about the other society council members how they ended up. Hint, Hint Renea.

If you are looking for a seriously hot/steamy love story including some mystery this is the book for you. Do yourself a favour and purchase this now.

Jenn_COBB - Collector of Book Boyfriends says

This was the **PERFECT** conclusion to this wonderful series that is without a doubt one of the best I ever had the chance to read.

I applaud **Renea Mason** on a masterfully written story with so much soul into it that no words can ever describe it but must be experienced on your own and you will be mind blown just like myself and thousands with me already are.

I enjoyed every second of this amazing trilogy that will stay with me forever and I will definitely re-listen these books again in the future because being without won't be good for my health *sigh*

Elaine and these gorgeous and amazing men such Xavier, Sebastian and Marco are deserve to reach to as many readers as possible because trust me they are worth your every second, penny and emotion that will for sure develop within you.

Narration:

Noah Michael Levine and Erin Deward are both natural talents and I don't think my personal experience would've been the same without their voices that provided the most magnificent and satisfying feel through this whole amazing journey.

PLEASE go and read these books because they will rock your whole existence.

Christen says

Surviving Doctor Vincent

by Renea Mason

Wickedly delectable!

The finale to The Good Doctor Trilogy was absolutely phenomenal! This series is not your typical romance

novel and I solely recommend this to those with an open mind and heart. This trilogy is more than just a titillating erotic read, it is very well written, has a thrilling storyline, amazing characters, and of course romance! All I have been able to do for the last few days is read these books!

Cast of characters...

So there's this diabolical secret society that reminds me of Zeus from the old '80's movie, *The Clash of the Titans* where Zeus manipulates his pawns to do his bidding.

The question is...how much of a pawn is Xavier really? Is he a victim like Elaine or is he one of them playing God?

The Society is also much like the television show Survivor. Who can outwit, outplay, and outlast each other for the rights to be among the leaders and live in infamy. These people are devious and scheming, aiming to control their subjects at their whim.

And everyone of them thinks...

Elaine, Xavier, Sebastian, and Marco are caught up in The Society's wicked games. It is the foursome's mission to bring their rule to an end.

"They all must be high on power. What kind of people think it's OK to use other people as pawns in their game? There's no consent, only deception."

Throughout the series Elaine and Xavier continue to grow and they learn to trust and rely on one another. Its beautiful to see how their strength and love transforms their characters. After all, becoming a better person is what love does best.

The steamy-ness factor was off the charts sizzling! The Good Doctor Trilogy is among the few books with erotic scenes that either A.) didn't annoy me, B.) include cheesy wording, and C.) read every single mouth watering word and did not need to skim, skip, or stop reading.

Halfway through the book Elaine becomes a little badass and I actually whooped and fist bumped the air. My husband asked me, "When did you start watching sports?" I replied, "Reading is my sport."

"As your queen...and as your keeper, I will protect you at all costs, and there ain't a goddamn thing you can do about it."

Go Elaine!

This series left me in a serious book comma. If it wasn't for a new book I have lined up by one of my favorite authors, I'd probably need help for depression. I loved the conclusion to this series! I will definitely look into reading Renea Mason's other books as I thoroughly enjoyed her storytelling.

The Garden of Earthly Delights, by Hieronymus Bosch was mentioned in the book and I thought I'd share this 'cause the art teacher in me just had to!

Michelle says

You ever start a series and find yourself asking, "how in the world did we end up here" when you finish it? That is what this series was for me. I expected hotness. I did not expect a thrilling and suspenseful story/plot or that the fun times that these four had in Paris to continue on as a real relationship.

I really enjoyed this series from start to finish. I loved that each of the heroes in this series gave you something unique and really there wasn't the possibility that just one could get the girl. Each one was special in their own way. I really loved the turn that Marco and Sebastian's relationship took and I could not get enough of the four of them together.

I'll stay silent on the conclusion of the society but let me just talk about how hot one particular situation was in this book. Excuse me while I get a bit graphic....

Christ. I don't even know how to explain this without it being just pure raunchiness. I was addicted and fascinated by the way each of these men got off on the idea that their come was mixed with her wetness as they fucked. It was a common theme in each of the stories and although excessive mention of bodily fluids sometimes causes me to cringe, there was something so animalistic about these four that it was perfect. Imagine the mess that three men could cause and how ho that would be when just the idea of it was enough to set all four characters off.

This series ended up being such a surprise. A must read, even if it's just to experience how fucking hot it is.

Kimberly / Love Notes Book Blog says

4 stars for this series! This is the final installment in the Good Doctor trilogy and it didn't disappoint. Elaine, Xavier, Marco and Sebastian have discovered all of the truths about The Society and have a plan to bring them down. Elaine won't stand for them hurting anyone else and is on the warpath. They all risk their lives and work really hard so they can finally be free to start their lives together. Elaine comes to terms with being the wife to three men. They all have realized they can't live a future without each other's love. I

enjoyed watching their relationship grow from the very beginning to where it ended up. They all grew stronger as people, especially Xavier and Elaine. Their journey was sweet, sexy and suspenseful. I enjoyed this trilogy very much. It was my first read by Renea Mason and will not be my last!

Lauren Luman says

This conclusion to The Good Doctor Trilogy was so much! Renea brings intense raw emotion from every point on the spectrum and just pours it into 214 pages.

Honestly, I'm sitting here, struggling with my review. There is so much I want to say that it's hard to clear my mind and put words down.

After reading the first 2 books in the trilogy, I thought there was no way that Renea could top the direction of the storyline. Boy was I wrong...

In LDV, Elaine forms a plan to take down the Bosch Society, while struggling to accept the growing love being shown to her by all three men in her life (Xavier, Sebastian and Marco). After finding out she was one of the former members' subjects in book 2, she is bound and determined to take them down so that they can all lead peaceful lives. She finds out secrets from her father, along with information regarding his involvement with the society. While attempting to glean more information from his attorney surrounding the killings of which he'd been accused, things get even uglier during the visit with the attorney. This sends the whole story into a tailspin!! Victoria, aka Snake B*tch, subtly refuses to accept that Elaine has been marked and is next in line to be a council member.

Although, much of the story revolves around our heroine wanting to eliminate this insane secret society, she can't deny that because of it, she's found the loves of her life. We see a much stronger connection forge between the foursome, solidifying the love of a lifetime.

The sex in this book...wow! It goes from angry and dominant to sweet to intense. That's why I say that so much raw emotion is poured into this book. Renea is not afraid to have her alpha men express sincere love so strong that it brings a grown man to tears just thinking that he may lose the woman he loves to a group of sociopaths.

If I had the ability, this book would have more than 5 stars. This trilogy is a must read, with an award-winning, original storyline that readers will never forget!

Chastity Poeschel says

Sad to see this come to a end. I adored this trilogy.

Sue says

Not at all what I expected, but wow. I read all three books over the weekend and thoroughly enjoyed them. Hot sex, drama, hot sex, intrigue, what more can you ask for: a well-written story (check); good editing

(check); and good character development (check). All and all well worth your time.

UPDATE: I listened to the audible version of this story. I love this book. If I could give it more stars, I would. Elaine takes her life into both hands, accepts and submits to love, and kicks ass with her enemies. I can't say enough about Erin DeWard and Noah Michael Levine. They are such wonderful voice actors. They voice all the characters differently, and they bring the story to life. Noah is an expert with accents and Erin brings swoonworthy emotion to the story. Is it worth a credit - ABSOLUTELY.

Annie says

HOLY MOTHER OF HOTNESS, RENEA MASON IS THE GODDESS OF EROTICA AND STORY TELLING!!!!

WOW what a journey Doctor Vincent has taken us on....I had no idea after listening to book 1 last year, that this story would have turned into such a thriller and a mystery! This was not only one of the dirtiest books I have ever listened to...but the story was amazing..and that takes a whole lotta talent...Renea has never disappointed me with her awesome writing...and I highly recommend this trilogy! I am so sad to see it end..and how not fair that Elaine gets 3 hot husbands....lol I am soooooo jealous!!!!

Vettech says

The final addition to this amazing trilogy was well worth the wait. We follow the beautiful Elaine and the sexy trio of Xavier Vincent, Marco and Sebastian on this totally wild ride. this book had me on the edge of my seat from beginning to end. Elaine was definitely not a woman to be messed with and the powers that be at secret society were mistaken thinking our girl was not a worthy adversary. There were so many exciting moments as well as some of the most wonderful moments between Elaine and her three men. The ending of this amazing tale was such a lovely surprise and brought me to tears. Renea Mason did an excellent job with this hot, sexy, exciting, tear-jerking, fun trilogy!

Cyndi Marie says

Listened to the Audiobook

SHE DID IT AGAIN!!! WOW!!! What a perfect ending to an amazing trilogy!!! This entire series has been so action packed, seriously dirty and all around perfect! I can't say it enough, READ THIS SERIES!!! The Good Doctor Trilogy is filled with brains which I seriously love, these characters are not only SEXY, they are brilliant!! Xavier, Sebastian & Marco are each every women's dream but together... I don't even think most women dream that good. I think my favorite thing about this book was that we got complete closure on all aspects of this story. I will miss this series but I will be stalking the Author waiting for whatever is next and still getting my Author/Narrator combo fix with her PNR series.

The narration was great of course, If you haven't listen to Duet style narration, these two own it!
