R says

Good story but I wish the author had continued the previous story more.

John Ronald says

Angelic Days is a fun spin-off manga that uses the fictional world of Neon Genesis Evangelion as its broad canvas. It is an alternate universe created to explore the lives of the principle characters more deeply. In this AU, Asuka's love for Shinji is more clear, direct and unambiguous. The art style is a unique departure from the "official" manga & anime adaptation and may be off-putting for some readers, but I enjoyed it.

John Keegan says

Neon Genesis Evangelion: Angelic Days - Vol. 5

I was surprised by how much I enjoyed this volume. With the main story done, this present a prequel arc that shows how Gendo and Yui started their relationship, and how Kaworu factored into it. I was struck by how damaged both of them were, and in such familiar yet distinct ways; it made them feel very real, and I actually wanted to read more about them afterward. Isn't that the mark of strong characterization?

Kurtis Burkhardt says

Ok series, not close to as great as the original neon genesis^.^????

Venkataram Apparao says

Probably one of the best stories in the Evangelion multiverse. It focuses on shinji's parents and the struggles they went through in middle school. Hayashi does a good job of intertwining the stories of the main characters as well as make them very relatable.
