Six agonizing months after a slug collapsed his lung, Sergeant Justin Harrison manages to return to the one place where he shines—the San Diego homicide division. Nothing will stand in the way of proving he is fit for active duty. Especially not the long-legged brunette who just stumbled into his crime scene.

Photographer Paige Conroy spent years hiding from her past. Then a late night telephone call brings it crashing back. An old friend is in town and needs her help. When she arrives at his hotel room four hours later, he's dead. Suddenly, she's the target of a madman, and Paige must turn to Sergeant Harrison for protection.

But who is the bigger threat to her... the faceless assailant she fears will steal her life or the dark-eyed detective she knows could steal her heart?

This book has what I look for in a quick read...excitement, suspense and romance! I agree with other reviewers, the beginning of the book was a bit slow, but when it picks up...boy does it ever! So stick with it, and you shall be rewarded!

I enjoyed this book and would read more of Grimm's romantic suspense work. At first I felt there was too much time spent in the heads of the lead characters. The author does such a good job of building sexual tension between the characters this way, though. Justin and Paige are smokin' hot. It also helps that both are intelligent characters. Love scenes are very sensual. Throw in a really evil and cunning bad guy, and you've got a total package.

Debbie Kolins says

Not Without Risk is a great romantic mystery read. The characters and plot captures you from the start. Sergeant Justin Harrison and Paige Conroy were very engaging and likable characters. I felt like Paige did, as she and Justin were trying to figure out who was stalking her. I loved the romance and suspense and how the story ended. Great book Sarah!!!! This is the second book of Sarah's that I have read. I also read After Midnight and now waiting for Midnight Heat to arrive.

I loved this story. The first I've read by Ms. Grimm, and I cannot tell you how much I enjoyed these characters. The emotional conflict and sizzling attraction between Justin and Paige leaps off the page. Not to mention the nail-biting suspense of a stalker that kept me up until the wee hours of the night while I tried to figure out "who done it". A fantastic read, heartfelt story and true captivating romance. Watch for this author. She's going to be doing great things in the very near future!

With author, Sarah Grimm, these two elements--steam and suspense--merge into a well-crafted read. Like most men, Justin, a police detective, has trouble dealing with his temporary weakness from a bullet wound. Paige is still trying to recover from her fiance's brutal murder. So when a second murder brings them together, sparks fly and walls shoot up another six feet. Neither wants to be attracted, yet both are. As they fight their chemistry and growing feelings, a diabolical villian seems bent on destroying their lives. Ms. Grimm drew me into the story in her opening scene and held me by the throat until I read "The End." It's easy to understand why this book has won some prestigious awards and nominations. Well done. Very well done. A keeper for sure.

If you like dangerously sexy suspense and page turners that refuse to let you go, then don't miss NOT WITHOUT RISK. I in love with Grimm's strong creative voice and her gutsy, yet vulnerable characters.

Not Without Risk is a non-stop roller-coaster of emotion and suspense from start to finish. Paige and Justin really bring this story to life, we get to see both their perspective's, and their own thoughts and reasonings for the things they do making it easier to bond and relate to them. Both Paige and Justin were likable and well-fleshed characters with emotional hang-ups stemming from their respective pasts'. The plot was well done, and while I thought I knew who the villain was, Grimm threw a curveball I didn't see coming. A wonderful, immersing read. I look forward to reading more from Ms. Grimm in the future.

Priyanka *The Book Ninja* says

I loved the story. The twists and turns made the story more enjoyable to read. Also, have to mention the love story between Justin and Paige. It was hot and it was romantic. The pull and the push between them made it for me.

The suspense aspect was very well executed by the author. I wasn't expecting that person to be the villain of the story. But that person was the killer...lol...

Overall a must read for any person who's looking for a romantic suspense. You'll get both in the book.

Not Without Risk is a great romantic mystery read. Sarah Grimm did not fail to deliver an intriguing, suspenseful story.

Written with passion and emotion, the characters and plot captures my imagination. Each scene brought out a crucial part of the story and made it more interesting than the next with twists and turns. Sergeant Nick Harrison and Paige Conroy are engaging and likable characters. Their romance and love scenes were sensual and intimate. As they get closer to solving the case, their relationship and job is also at risk. I thoroughly enjoyed this book and highly recommend it to anyone that enjoys strong romantic suspense elements. Well done!

Paige Conroy receives a call from her past and discovers an old friend dead. Enter homicide cop Justin Harrison just now back on the job after being shot. There is an instant mind blowing connection between the two but he doesn't do love and she doesn't do cops after losing her cop fiancé on the job three years earlier. Problem is she now has a stalker and it is up to Justin to keep her alive. Can he keep her and his heart safe?

I really got a kick out of this. The characters were real and the interaction between Justin and Paige was intense. If you want a quick romantic suspense read I recommend Not Without Risk.

Sergeant Justin Harrison knows he has returned to early from being shot six months ago, but he needs to get back to work. His first day back on the job he is called to investigate a murder of another cop and the woman who found him is a mystery in it's self.

Photographer Paige Conroy has know idea why her old friend called her out of the blue needing to see her right away, finding him dead though shakes her to the core. Not completely healed from when she witnessed her fiancée murder, she doesn't know how much she can handle especially when it comes to the mutual attraction between her and Justin. When it begins to look like Paige is the key to the murder and her life is in danger, Justin breaks his vow of no commitments wanting to protect her in every way possible.

This was a bit of a roller-coaster, you have a couple of subplots going on with both Justin and Paige but it all makes for an intriguing read. Justin scorches up each page he is on, I was swooning. Was kept guessing who was behind the cat and mouse game with Paige, entertaining read.
