He'd always be there for her, always. But only for her.

Grace's life is perfect – great boyfriend, great family, great life at college. It's all coming together, everything she wanted as a child.

Cain never had a family. His mother died when he was a baby, and he never had a father. Raised by a series of foster parents, he's spent his whole adult life drifting around, until now that is.

When the two of them meet, there are obvious sparks, but they're nothing compared to what follows, a series of events that will cause Grace's perfect life to crumble all around her. But he's always there, always there to save her when she needs saving, to protect her when she needs protecting. Even if she doesn't know it.

As their lives continue to intertwine, a shocking revelation causes Cain to question everything in his life, leading him on a path that brings his world, and Grace's, crashing down in front of them.

This was good. Not overly descriptive. There is drug use and alcohol abuse. There writing was good and there was a nice twist towards the end.

Kimothy says

a good story and progressed well and tightened the tension throughout good twists also

When I read a book I judge it like this:

5 stars= LOVE it! Couldn't put it down and the story was amazing. I scream from the mountain tops for my friends to read it!

4 stars = Really like it. There was just something missing to where I wasn't in love, or there was something that bugged me. I would probably tell my friend to read it. If I thought they would like that kind of story.

3 stars= It was ok. It isn't bad, but I just felt "meh" while reading it and wouldn't recommend it to my friends

2 stars= I just really didn't like the book. Some books have really annoying characters, nothing at all happens, or I just don't feel connected to the characters so I don't want to keep reading. And if I don't feel connected then reading becomes a chore. I would not recommend these books to a friend. Or enemy

Tammy says

Terrible. Story was crap, but the poor editing was what made it intolerable.

Deanna says

Good story about how your actions can affect you and those around you. How someone you barely know can affect your life in ways you just can't understand. This is about Cain and Grace and how they deal with the

situations life hands them and try to get there lives back on track. They also learn something interesting about each other along the way.

Nycole says

Do NOT be fooled by the cover this book is NOT a romance.

Simona Webb says

SIBLINGS - Aye dios mio!!!! I wanted a romance between the two!! Shorter, loved the fact that they are siblings - "her protector"!
Moving on to book two!!

Tanya says

The story was so disjointed and never seemed to draw me in and flow. Very weird book.

Heather Deters renaud says

Not what I expected but good.

Just when i'm finally getting into the story and wanting two of the characters to be the ones getting together there's a twist. I kind of liked the two different pov's throughout the story though. I've read others that were irritating when it was done that way, but this one didn't seem to bother me.

There are quite a few spelling errors that should really be fixed (sorry misspelled words in a book drive me nuts! lol) other then that was a good start to a series and can't wait to read the other two. I hope Cain and Grace find happiness and there HEA in book 2 and 3! :)

Kelly says

This is really more like a 3.5 but I'm bumping it up to 4 stars because I will remember this story. Although the editing is more like 3 stars (extra words, reversed order words a few spelling errors).

This will pull you in straight away. Geesh I didnt think I could handle it at first very sleezy! then it toned down with the drugs. I loved the alternating POV and found both Cain and Grace to my liking. All the side

characters were a bit blah. Not enough details and boy was I wanting a romance with Grace and Cain. Emily was someone I didn't care for. Seeing where the book is headed she needed more page time and character development.

The twist is probably what will make me remember this story yet because of it I will probably not continue with the series.

3.5.

Good story. Very different. Didn't expect it. The story kept you going. I couldn't put it down. I read it within 3 hours. Can't wait to read more of grace and Cain story. If you want a different kind of read, I highly recommend it. Not the usual rich lifestyle reading. Grace life went from easy school girl into the hard life of drugs. It took a while to understand why she would change.

Fran Gray says

Read it in a couple of hours. Not what I thought it was going to be. Very good read.

Kay Eileen Gleason says

Great story line

Enjoyed all the characters, hopefully they all continued in the next book. Was also realistic as far as the storyline went. Was a love story, also a family story. Would recommend it to anyone who enjoys a mellow love story.
