Returned Mia Fox

Returning to the Romani Realms was the last thing they wanted...

Samantha defied death and returned home from the Romani Realms, but a piece of her heart remained. In that forsaken and dangerous purgatory she met and fell in love with Daniel, a permanent resident of the Romani Realms. She loves him with all her soul, but is love enough reason to risk her life?

Charlotte wants nothing more than to live a quiet, domestic life with Phineas, the demon gypsy who holds her heart. But their future depends on finding their way back to Shadow, the infant who will one day be born from their union, but for now resides as a young child in the Romani Realms.

As a genie, Suki has watched over Samantha and Charlotte, while James, her Shade and supernatural protector, has patiently supported her. His duty to her and their entire relationship is threatened when one Releasor is foreshadowed to harbor corrupt wishes. Only in the Romani Realms can Suki determine if the threat is real.

To stay or return? Each one has their reasons.

Sue Brooks says

WOW - another awesome book by Mia Fox!!! I will start by saying that this is the 3rd book of a series and that you really need to read the first two books before reading this one. Now it is NOT mandatory - but this book will start off making more sense if you do.

I love the way that Mia Fox keeps the story of the Romani Realms going. The characters continue to grow and the story in regards to them just keeps getting better and better. The way that the characters intertwine - yet try to keep separate can be mind boggling. I find that when I sit down with this book to read (heck make that the whole dang series) that it is hard to stop reading for fear that I might miss something!!! I don't write spoilers - so I refuse to say what is happening as the story progresses - but this is definitely a MUST READ!!!

I received a complimentary copy of this book by the author in exchange for my honest opinion in a review.

Emmanuelle says

This book continues right where Resurrected dropped off. Our group of travelers all seem content back in the real world, except Samantha. Behind everyone's back, she schemes her return to the Romani Realms. This book takes you on an adventure with twists and turns you won't see coming. Now to wait for the fourth book!
