Stupid 4 Love Shaye B.

After finding out she was expecting her first child, Dharia Lawrence realized she wanted more in life. Suddenly being the girlfriend of a trapper wasn't what she wanted. Giving her long-time boyfriend the ultimatum— leave the drug game or lose her, ended their relationship. Jax's decision forced Dharia to find a way to mend her broken heart; which caused her to fall into the arms of the handsome millionaire and music executive, FarrGOD

Farren Stone, known in the music industry as FarrGOD, found himself on top of the world. All the money, success, and fame he could want, but no true love in his heart. After several unsuccessful attempts at trying to make it right with his ex, he realized they were never meant to be. On a flight to New York, he locked eyes with the beautiful and mesmerizing Dharia. Her beauty and charm caught his eye and he made it his mission to have her for himself.

Farren and Dharia's romance was off to a picture-perfect start. That was until secrets were unveiled and skeletons tumbled from their closets. Dharia was trying to no avail to keep her feelings for her ex, Jax, under control; but it was proving to be an impossible task because he was embedded in her heart. Trying to juggle between her future and past sends Dharia's emotions all over the place. Can she let everything she built with Jax go to focus on Farren? Or is she too stupid for his love to let go?

We've all been there; it's the feeling you get when you find yourself doing the very things you've promised never to do. The pain of taking someone back that doesn't deserve your love. It's the pain in your heart when you finally get the courage to leave after they've begged you to stay. THIS is Stupid 4 Love!

Good book

This was a really good book, but I couldn't force myself to read another line about Dharia. I know this is fiction, but how can anyone be that stupid. Jax left her high and dry for Jasmine, yet she still entertaining him. Had the nerve to get mad because Jasmine was pregnant. I have no words to describe my dislike for Robyn. I honestly thought Dharia didn't deserve Farren.

Abeni Gregory says

This was a good one

I really liked Farren and Dharia together. They definitely went through a lot so early in their relationship though. I had tears in my eyes when Jax and Jasmine did Dharia like they did. She didn't deserve that at all but she shouldn't have gave in to his threats without telling Farren. I can't wait for Iris and Baby J's story to come!! I know it's going to be good!!

Krystal Bonnet says

Great read.

I loved this read. The Characters where so relatable. Dharia was definitely meant to be with "Beans". Rhobyn was just a fill in until she can along. I would love read to more on the Brothers.

Loveeeed It!

I'm glad Dharia & Farren met each other! I was scared that she was going to allow Jax to mess up what she had but glad that she didn't! Can't wait to read about Iris & baby J.

Review

First read by this author and i must say it was pretty good. Who would of thought that meeting someone on an airplane would turn into a romance what Darhia and Farren had was real and amazing. I hated what Jax

and Jasmine did to her. Robin was trash i do wish you would do a story with Iris and Baby J though.

FarrGOD= BAE

I loooooovvvvvveeee me some Farren. He was so real and dedicated to his Pretty Thug. I hated how things went with Dharia losing Fharia but I'm glad they bounced back from it. Jax, Jasmine, and Robyn were just stupid and I'm glad they got what was coming on them. Definitely can't wait to read Jarred and Iris's story next!

Alesia Russell says

Farren is the Man!! Not many characters like him. He & Dahria were handcrafted for one another. Seeing the true Dahria come out more each chapter was entertaining. Jax and Jasmine were pathetic, but paid for sins in interesting ways! Loved the Stone family dynamics. Mother Love was a rock star. Looking forward to the spin-off, should be funny!!

Ashley Jones says

Love it

Yes!! I'm a sucker for love. I can't believe Jax switch sides like that. I was sure he was gone stop up to the plate because of the history but I was wrong. Now beans was that dude and I found a new bae. Great read

Excellent book.

Loved the character. They drew me in. Farren and Dharia I just love them. The Stone clan just made me laugh especially Man Love but she wasn't no joke. All of them just made me fall in love with this book. Loved the storyline. Great book

Tammy Pratt says**Loved it!**

The story flowed very well,, I loved Farren, he was a smart thug,. It took me a while to like Serbia because she was not as strong as she should have been, but eventually she got with the program. Looking forward to reading Iris and Hardens story, hopefully we can see how Farren,Dariah and the babies are doing.

Taffany Hampton says**Amazing Read**

Farren and Dharia were great for one another! They had several road blocks, but everything worked out for their well being. Jax, Jasmine, and Robyn all got what they deserved! Awesome read!

Book junkie💋 says**??????????**

This book was so good. From beginning to end, I couldn't put it down. Farren and Dharia were perfect for each other. Robyn was so annoying, like girl get somewhere and sit down???? I'm glad Jax and Jasmine got handled, I felt so bad for what they did to Dharia. I loved mother love and I'm glad that Dharia had a friend like Iris. It was also good to see that her brother got his life together. Hopefully we'll be able to read more on him. This was a ? read can't wait to read more.

Halimah Grant says**Great book**

This was a good love story I love how he never gave up on her and stuck by her side through the thick and then.. then married her and finally going to have his real baby that he wanted it was good book

Crystal LaBeashia says**Stupid 4 Love**

Omg..this book had me going through all my emotions! Jax deserves what he got! I'm mad because they should've let Dharia beat Jasmine until her arms got tired! Farren was a stand up guy! I really enjoyed this one here! Can't wait until Jarren and Iris come out!! Awesome writing 🐶?!!
