## **Sweet Matchmaker** Jean Oram

Ginger McGinty hates liars. And she just married a spy.

Bridal shop owner Ginger McGinty excels at matchmaking unless it's for herself. That is, until she meets the dreamy Aussie who helps her get into an event meant for engaged couples. Logan Stone is sweet, caring, thoughtful and fun—everything she desires in a man. But it turns out, her new fake fiancé could use a bit more than just a pretend engagement to get him into parties—he needs a quick marriage keep him in the country so he can be with his adopted special needs daughter.

With a marriage of convenience pro-con list longer than the average wedding veil, Ginger puts her faith in romance and offers Logan her hand in return for one thing—no lies.

But little does she know, almost everything she knows about her new husband is based on a lie.

Everything except his kisses and the way he accidentally spills his soul whenever they meet. And that's quickly becoming a problem for Logan Stone who depends on distance and deceit to keep civilians such as Ginger safe from his enemy's clutches.

Will the two find love in their marriage of convenience, or will everything break apart when the truth rises to the surface, shattering everything, including their trust?

# **From Reader Review Sweet Matchmaker for online ebook**

## **Cheryl says**

Short and sweet, I enjoyed Ginger and Logan's story, far-fetched as it may have been. I find myself wishing, after reading others reviews, that it has been longer and that Logan really was a James Bond-type spy! That's what happens sometimes with novellas...no matter how satisfying, many leave you wanting more. Sweet Matchmaker did that to me.

Thanks to Netgalley and the publisher for the ARC!

---

## **Terri says**

Jean Oram writes sweet romances. This is one of those stories where one of the people needs to get married to stay in the country and the wedding happens very quickly. There is definite attraction between them. This is a green card story with a big twist.

Ginger needs a temporary fake fiance. Logan needs a fiance that will marry him so that he can stay in the country long enough to finish up an investigation of an illegal diamond business. Ginger is a sucker for accents and Logan is Australian--uh, oh! Will Ginger figure out she just married a spy?

This is a light, fast, entertaining read with engaging characters.

---

## **Joanna says**

Although an easy read with chemistry between the character, I just found it all a little far fetched and not quite believable.

---

## **Jillian says**

### **Fun sweet read**

Wow! This was such a fun book! I bought it several months ago and has been sitting on my kindle waiting to be read. I finally got around to reading it and was not disappointed.

This story starts off with a spy, Logan trying to infiltrate into Vito's criminal world. Unsuspecting Ginger comes along and unknowingly fills the role of fake fiancée he was looking for. Soon they find themselves in a Honeymoon cottage and falling in love while Logan tries to keep Ginger safe. That being said be assured that this is a clean romance, no sex and no vulgarities.

The book was sweet and exciting without having a lot of drama and intense moments. The author kept it light but interesting.

---

## **Jane says**

Flirty, climatic, clean romance novel. From the opening page their story starts. I liked how they met, and how their relationship evolved. The prizes were unrealistic and I think we could have got the same point without the power of 3 x 2... but definitely liked the spy storyline. Being Australian, the slang used was quite funny and used in the right context.

---

## **Judy C says**

Ginger and Logan weren't a match made in heaven but a product of surcumstanses, yet it worked. They were both at the right place at the right time and sometimes love comes when you least expect it. Such a heartwarming wholesome love story, crossover into Blueberry Springs and a new series Veils and Vows. It's a story you want want to miss.

---

## **Marie Bourgerly says**

Ginger and Logan meet and pretend to be engaged to get into an event for engaged couples in Indigo Bay. She ends up winning several prizes including an elopement package and the honeymoon cottage. Logan will lose his visa to Australia if he doesn't find a way to extend it with a marriage of convenience. He also has to think about his ward Annabelle with Downs Syndrome, who is in a special home in Indigo Bay and hates change. Annabelle is who wins Ginger over to agreeing to the marriage of convenience. But Logan is very secretive and it seems like he is up to no good. Will he be able to keep Ginger safe without blowing his cover? Nice summer romance with plenty of humor and action.

---

## **Margaret says**

Logan and Ginger are so cute as an instant couple. They start out pretending but they both quickly realise that the feelings they have are not fake. Ginger is so good at finding partners for other people so it is great that she finally finds a nice guy for herself. Logan has a lot more to offer than he thinks, he might think he isn't meant for a relationship but he shows how much love he has to give when he takes on guardianship of Annabelle. He is ready to settle down he just needed to meet Ginger first so that he could realise that she was what he was missing. I love visiting Indigo Bay and Blueberry Springs.

---

## **Jemi Fraser says**

So Good!!!!

I loved this book! Ginger and Logan were intriguing and complex characters who jumped to life on the page. The plot is fun and makes all kinds of unexpected twisty turns. Can't wait to read more of the Indigo Bay series AND the Blueberry Springs series. An excellent read!

---

## **Donna says**

I absolutely loved Sweet Matchmaker! Jean Oram has written another utterly irresistible sweet romance filled with humor, drama, and romance. Ginger and Logan met in a humorous way and they clicked from the beginning. Their phony marriage allowed each of them to accomplish their individual goals as well as pushed them together in intimate ways. The introduction of Annabelle brought new insight into Logan and what kind of man he really was. He is my kind of man: sweet, smart, sexy, special. He knows how to treat a lady right. And with an Aussie accent...well. what more could a lady ask for?

I strongly urge you to read Sweet Matchmaker. It is well-written with believable, likable characters, and a plot that kept me hooked from page 1. I highly recommend reading all the books by Jean Oram. She is an awesome author.

Reviewed at Romance Is Ageless

I had such a good time with Logan and Ginger's romance in Sweet Matchmaker. It might have started out as a totally fake relationship based on far different needs for them each – but it grew into something so much more, something well worth fighting to keep.

Ginger is the owner of a bridal shop back in Blueberry Springs. She's in Indigo Bay to help her business, connect with engaged couples and make certain that her business stays afloat. Trouble is, she needs a fiancé in order to get into the engaged couples events and she's coming up against a dead end with this gentleman keeping that red rope entryway firmly engaged. Luckily while spinning her tale of a "just stepped away" fiancé the gentleman she'd bumped into earlier, the one with the amazing Australian accent also needs into that event for very different reasons... and Logan firmly claimed her right then and there with a story the guard dog employee bought hook, line and sinker. Funny how fate just seemed to step in at the right moment – but it's up to Logan and Ginger to make this work.

Everything you need to know to pick up this book is in the story blurb – and I really do hope you'll grab Sweet Matchmaker for it's a charming romance with a couple that has some very real issues to deal with. Logan is desperate to stay in the states to wrap up the case he's been working on, he's so close he can taste the arrest. His little farce with Ginger was only supposed to help him out for a few days, he would make sure she was safe and unhurt physically. But he knew he couldn't help the emotional hurt he was going to cause, and for the first time he hesitated at what he had to do, because hurting Ginger didn't set right with him. I fell in love with Logan, and I believe you will as well. Ginger's grandmother is an amazing woman who delivers a loving but stern conversation exactly when Ginger needs to hear it. Annabelle, who Logan is guardian for, is a sweet teenager who will capture your heart easily. Yes, there are bad guys, but they don't fill up this story as more than side characters – this one is all about falling in love when you least expect it and laying everything on the line to keep that love for a lifetime.

I would happily recommend Sweet Matchmaker and the entire Indigo Bay series to any Contemporary

Romance reader who loves a good romance, enjoys those secondary characters who bring a book alive, and experiencing falling in love along with the main characters. This one is a keeper, just like Logan.

I own a Kindle edition of this book.

### **Paula says**

Sweet Matchmaker is the perfect title for this sweet romantic story of Ginger and Logan. Jean Oram gives the reader a lighthearted romance concerning a bridal shop owner and an undercover agent. While it is not a comedy, it is also not an action-paced thriller. Not nail biting or graphic in violence which is fine with me. I found it to be an entertaining read.

The focus of the story is on Ginger's and Logan's meeting and quick wedding of convenience. The purpose of that wedding is as good as any I have read for that trope. It has dual POV which helps to see why they behaved as they did. However, it is Ginger's actions concerning her relationships with men that is dealt with in depth. Logan is for all his "lies" a pretty straight forward kind of guy. He is a Roger Moore type of spy than he is a Daniel Craig type.

Fans of the Blueberry Springs Series and the Indigo Bay Series will be thrilled that both places are connected in this short novel. It is the first for me to read of either series, so I can say it is a stand-alone story. Sweet Matchmaker is a fun, sweet story of two people who didn't realize that they were looking for true love.

An ARC of the book was given to me by the publisher through Net Galley which I voluntarily chose to read and reviewed. All thoughts and opinions are my own.

### **Cindy Cooke says**

#### **Great sweet read, mild interaction**

When an international spy needs a fiancée to help with his cover, he has little idea of what's really going to happen. And when a struggling entrepreneur with dreams of buying a wedding business needs a fiancée to get into the engagement getaway to get more clients and ideas for her future business, she gets far more than she bargained for. How can this mock marriage ever be more than a farce? Trust, staying power, and love, that's how. Oh, yes, don't forget the kisses. . .they help a lot, too!  
Great book, Ms Oram. Thanks for a good read!

I received this book in a multiple giveaway, and I am volunteering my review for the benefit of other readers.

### **Kylene says**

Ginger and Logan need admittance to an engaged-couples-only event for different reasons. They pretend to be engaged, and soon afterwards, they end up married but will they stay married?

I was in the mood for something short and light, so I picked up this book. It is short, cute, and happy, but I feel like it tried to do too much in too few pages.

---

**Tami says**

3.5

Fake relationship, foreign spy contemporary romance. Sweet.
