Corey Nicholson says

I really enjoyed this book. I am looking forward to reading the rest of the series.

Carol [Goodreads Addict] says

The Ending Beginnings: Carlos, is the first of six prequel novellas for The Ending Series by Lindsey Fairleigh and Lindsey Pogue.

This was a crazy good introduction into what promises to be an outstanding series. We are introduced to Carlos and his sister Vanessa. What starts out to be a normal day in high school turns out to be the beginning of a horrible nightmare.

There has been what was thought to have been a flu epidemic spreading around the world but what turns out to be a global pandemic. People are dying by the thousands or maybe even millions.

“Our country is at war. Humanity is at war, yet our enemy is not one we can fight openly. Our enemy has swept through every nation, attacking discretely, killing indiscriminately.”

Carlos, Vanessa and little four year old Annie are all alone, trying to figure out what to do, who to turn to. TV, radio and cell phones have all ceased operation. Most everyone seems to be dead.

This was a completely awesome introduction to this series. It is well written and gripping. I can't wait to dive further into this, meet other new characters, and see what happens next.

Dena says

This helps so much for me to better understand Carlos. He wanted to be saved only to be captured by darkness.

Solid!!

Vanessa Dutra says

Good short story, easy to read. Got me thinking 'omg what's gonna happen' the whole time.

Kelsey Powers says

I'm giving this book 5/5 for the simple reason that from the very first page I was completely hooked!! Basically all other facets of my life dropped away until I finished this book. Don't expect shocking twists and turns and also don't expect exemplary literary prose, just accept that this book is escapism at it's finest!

Theresa says

Short story of Carlos experiencing the start of the plague in Wakima, Washington. Losing his mother and little brother. Finding the little girl: Annie and his brother's return.

Most memorable scene: the President's announcement and the hospital fire.

Mimi Davis Hopkins says

Death By Flu

I give this story 4 stars only because it was too short. I was given this story free for an honest review. I read the Ending Series by this author and decided to take this book because I really enjoyed the series. This is a very good story, nice flow which seems to tell the world ending from the view of individuals. This is good but like I stated it was too short, it could have included the view of two families instead of just the one. But it is a great read.

Delia says

I've read them all, loved them all...wanted to cry when the series ended. That should be every author's goal response in their readers.

Taiyewo says

Another great tidbit into this series! I'm glad to see a little into the life of one of the newer side characters. Hope to find out about Carlos and his sister Vanessa!

Jason Bradley says

The 'flu' is ravaging the city where Carlos lives. This is well written and a great beginning. I plan to read further in this series.

Megan says

Awesome! I only wish it was longer...

Crystal Rafuse says

If this is any indication of how the other *Beginnings* novellas are going to be, then I am hooked all over again! It's been a while since I read *After the Ending*, but I find myself easily sucked right back into the story here. I like Carlos, which is great, because I wasn't totally convinced how I felt about him in *After* (even though he was only a minor character). Although I do have to say, I miss Dani and Zoe, and can not wait to get *Into the Fire*!

Dorothy Garland says

It was a nice surprise, a little more believable than some end of time series I have read. The friendship between Zoe and Dani and the mad crush Dani had on Zoe's brother was also believable. The series is off to a good start can't wait to read next book in series
