Beautiful

I waited to read this until I had a few and I'm so glad I did! Red Phoenix did an absolutely amazing job writing how Master Anderson felt about Sir and Brie.

Wow

It was so good to see Brad find his soulmate and how he helps Brie in this book. It's good and exciting and is hard to put down.

Red thrills us once again with another installment in the Brie series, this time with A Cowboy's Heart revolving around one Master Brad Anderson, close friend of Thane Davis and new Headmaster of the Submissive Training Center. This time around, Red brings us the story from Brad's POV, giving us insights for the first time into what makes him tick, what his thoughts and desires are, what he wants out of life.

Brad has a lot going on in this book. He's packing up his house in Colorado and handing over the reins of his Colorado Training Center to his trusted friend Samantha Clark. On his journey to California he makes an overnight stop in Las Vegas and meets a very alluring redhead who reminds him very much of the one woman he loved and lost. His connection to her is deep and it makes him wish for a future with this woman who calls to his soul. But a future isn't possible right? I mean, he's the new Headmaster of the training center which requires him to actively participate in the training of submissives.

He arrives in LA and throws himself headfirst into the training center and trying to move on from Shey but Brad is put to the test when he receives the devastating news that Sir Thane, his closest and dearest friend has been in a terrible plane crash. He does everything he can to be there for Brie, but the deep affection he's always felt for her puts him on notice to keep an emotional distance from her. On top of that, Thane's crazy half sister Lilly is stirring up trouble for Thane and threatening Brie.

Brad is stretched in too many directions and to top it off ends up in an accident of his own. Miserable and feeling helpless he reaches out to the woman he knows he can't have but can't stop thinking about. When Shey surprises him in LA, Brad starts wondering if he can in fact have the woman he wants so desperately?

Red delivers each of these stories with so much emotion that I can't help but become invested in them from beginning to end. I've always felt a soft spot for Brad after he suffered such heartbreak earlier in his life. I've always secretly prayed he would find someone to love but it was going to take a very special woman to capture his heart. I feel like there is still much to learn about young Shey Allen in the coming books.

The beloved Tono Nosaka makes a last minute appearance in this book when Brad calls him in to look after Brie while he's laid up from his accident. It will be interesting to see if Nosaka will be able to be an emotional support for Brie without overstepping the boundaries with Brie. I can't wait to see how his story will play out with his upcoming book, Breathe With Me.

Another amazing installment, Red!

I just...

Red did it again! Following this series from the beginning to where things stand now...well this book was a rollercoaster for sure! So much left unsaid, unknown, and up in the air! I cannot wait for the next!!

Master Anderson's book! A whipping good time for all to share.

A Cowboys Heart

Lovely story where Brad and Shey find one another and fall in love. Brad starts his new job as headmaster at the training centre with a new intake of subs. He does a scene with Boa (oh my!!) Brad is also looking after Brie while Brie and Thanes story continues with heart felt emotions.

Can't wait to read the next book in this series.

Who Doesn't love a sexy cowboy? Now make that sexy cowboy a Master Dominant and give him expert skills with a bull whip and an amazing sense of humor and I think we will all fall in love !!

I love that Red decided to tell this part of the Brie series from Master Anderson's point of view. It was a great change and a chance to fill like we were getting a little closer with this sexy as heck Dom. We get to see what this wonderful man is thinking and feeling and start to realize that even sexy scary Dom's have insecurities and hurt emotions. I think this book just made me fall a little more in love with one of my favorite Masters. I can't wait to read the next installment from Tono's POV !!

*Note – This series needs to be read in order to be able to follow the story line.

I wasn't sure I would fall in love with Master Anderson, he has always been in the series, but Red has outdone herself this time. The character has so much depth it's amazing. With Thane in the hospital Brad had taken it upon himself to come to Brie's aide. He is so dedicated to seeing her through this sad situation with his best friend and Brie. We get to see what his life has been like and the heartache he has suffered. He meets Shey on his way to LA to take over as Head Master of the Academy and she has a real impact on him. I enjoyed this story

2.5 Stars

I do love Master Brad Anderson and his witty charm with his spark of humor, however his tale just wasn't to my liking. His protection of Brie was heroic when it came to her and Sir's rescue, but to go all the way back from the wedding, i really didn't care too much from that standpoint.

I do like the start of the men's POV. I liked how Red switched up the writing. I do love this series and I am a fan of Red Phoenix's. This book however, just didn't hit home with me. With a series of more than 11 books, surely one or more will not be making the mark.

Chris Murray says

Excellent!!!!

Another wonderful story from Red Phoenix. Master Anderson is sexy as hell. His love for Cayenne is so purrrrrrrfect. And WOW Shey is a surprise. Another must read.

AudreymlHawkins says

WOW!!!!.....Just Wow

I cannot believe all that is being thrown at the lovely young Brie! The challenge that is posed to Master Anderson as he cares for Brie is heartwarming yet perfectly displays his honor to not only his friend Sir Thane Davis but illustrates his beautiful friendship and respect for Brie.

I LOVE LOVE LOVE Master Anderson's surprise guest!!! So glad to see his chance at happiness with someone so well matched for him.

Tammi Plummer says**Never ever do you let me down**

I am so in love with the books. The characters and the stories. I love the very strong alpha character but also the deep passion they have for friendship and in return the ladies of their lives.

Felicia Aldridge says

Master Anderson has truly captured my heart! I love the fact that he very sensitive to other ppl...always watching and analyzing everything. He's just a sweetie!

Cassandra Caress says

Definitely 5 stars for this new installment in the Brie's Submission series!

And this time Red Phoenix has changed the POV. The series has to be read in order and if you have, you know that the series so far was told from Brie's POV. But now Red Phoenix gives us the POVs from our most beloved Doms beside Sir Thane Davis - starting off with Master Brad Anderson.

From the very beginning Master Anderson is a vital part in the journey of Brie's submission and you always thought he would be that everlasting bachelor. Teaching and playing with submissives, never allowing deeper feelings after his one big hurt. But one night in Vegas might change his whole life.

This story starts at the wedding reception of Sir Thane and Brie with a very hot walk in the dark, on to a sinful night in Vegas and then we see the shocking events from Enchant Me.

We learn so much more about Master Anderson, his strong and his vulnerable side, his funny and serious side, his dominant and open side. That one scene...phew! Yet in all his strong dominant maleness, he is not afraid to admit his limits.

Once again Red Phoenix has this beautiful way to continue the story which draws you in right from the start. A lot of questions that were burning a whole in my heart haven't been answered yet and I'm sure this path will continue for a little while longer til we finally know. It's the way that emotions are transported and the different sides of BDSM that makes this one of my all time fav series!
