## **Awakening** Dana Fuller Ross

Sally Holt and her friend India Blackstone move east to make new lives in New York City, with Sally in the heady social world of the debutante, and India as a struggling Greenwich Village artist. Amid husbands and lovers, scandal and passion, these two courageous women bear witness to the first World War, the age of jazz and bathtub gin, the Wall Street crash and the Depression.

**Sarah says**

Reads like it was pumped out by a robot (which it kind of was), but you know what? For a light, quick read, it's not that bad. Slim-to-no literary merit, but it's fun and breezy. And I love when historical fiction books shoe-horn in ridiculous amount of historical references. Our beloved male love interest, Frank had--by page 33--gotten involved with Jane Addams and her settlement house movement and taken up with Bill Haywood and the IWW to agitate on behalf of labor. And it only got goofier from there.

Middling book, but good for a refreshing mindless read.
