Bear's Gold Yvette Hines

Riley Gold is on the run. Her ex-boyfriend has been stalking her for the last year and she can't get out of Dodge, Oregon fast enough. However, she should have planned her escape better, and maybe she wouldn't have ended up caught in a rainstorm, in the dead of night with a flat tire. Trapped in the woods and miles away from the next town, Riley sets off on foot to a large cabin home for help and refuge for the night. Is it just her imagination or is someone...or something following her?

With the First Moon Festival on its way and pheromones saturating the air, Theo Kodiak is a sniff away from going feral. As the father of two boys, it doesn't leave him a lot of time to find a companion to help raise them. Low and behold, fate shines down on him and presents a sensuous woman at his door. Riley is cold, scared and in danger, but she just maybe exactly what he needs in his life. The erotic attraction between them can't be evaded and soon they are swept under a tidal wave of euphoria.

When a threat from both their past jeopardizes everything that is important, Riley and Theo find themselves united and a force to be reckoned with. However, something else may stand in the way of this Were-bear getting his gold.

Andrea Jackson says

So sweet. Sexy hero. This take on the 3 bears fairy tale made me smile.

Kelly says

I do enjoy a twist on established fairytales. In this instance, Riley ends up shacking up with Theo and his boys when she's stranded on the mountain road. Naturally, the big Moon Festival is coming up and Theo's considering choosing a new mama for his boys.

There's attraction. There's the denial of attraction (don't worry, that doesn't last too long). There's a shady ex who won't let Riley go.

Fun and sexy with a side of ... well, actually, it's just fun and sexy. There's a bit of backstory and a bit of angst. It works.

-Kelly @ Reading the Paranormal

Alicia McCalla says

Great short novel. Decent plot and likeable characters.

Fashionista says

Pretty good read. The chemistry between the characters was Hot and sweet. I loved his twin boys; the little Kodiaks are so cute! But, I have to stop teasing myself with novellas, when I know that they are just too short for me;-)

I wish the story could have gone on a little more. LOL

Jeanna-Has Probably Read It! says

Somebody said it best this was a story Goldilocks and the three bears except Papa Bear was looking for his Mama Bear and all the sex she could give.

Tony says

Cute take on the Goldilocks and the Three Bears tale.

A??ela W. says

This was a good book I have a soft spot for paranormal romance. Riley Gold was driving back to her hometown after leaving Oregon trying to escaping her stalker ex boy friend Fred when she has an accident that leaves her stuck in Den County. Theo Kodiak is a bear shifter who lost his wife 3 years ago leaving him to raise twin cubs he knows its time to find another mate, because the twin need a mother and he is lonely. Riley runs to Theo's house after the crash and something scaring her in the forest (Theo in bear form) they have a connection that either one of them knew why. This was my first time reading this author this book was well written and I liked both of the MC's they were both looking for something Riley was running from place to place and Theo was hiding out with his boys. Theo is a good father and productive member of Den County. Both Riley and Theo try to fight their feelings for each other Riley falls in love with Theo's twin sons, Aubrey and Bernie, and the town of Den County. She realizes she doesn't want to leave Den County but she has been running so long she doesn't know how she can stay. Even with the love of a good man and his children. Although Theo wants Riley she doesn't know he is a were-bear she is a human. The sex scenes in this book were hot as hell and I was glad that Theo and Riley got their happy ending after Riley's stalker ex showed up threatening her and one of Theo's rivals hitting on Riley and the secret's all come out and Riley leaves only to go home a realize that she didn't fit in and a big secret is revealed. Riley learns that what she thought were memories all are true and she learns where her true place in life is. Overall this was a good story and I am looking forward to reading more in this series.

Erosa Knowles says

As usual, Yvette did an awesome job on this short story. Loved the twins and the mystery of how she was able to bond with him so quickly.

Whitney says

Another shifter story but this time with bears!

There wasn't much I didn't like about Bear's Gold. I will say that I felt some things could have been fleshed out a bit more to make the story longer and not so rushed toward the end. There were also some typos throughout that were distracting.

I like the cleverness used with all the character's last names and allusion to the goldilocks and the three bears story. At times it was heavy-handed and too obvious, but clever nonetheless.

I wanted to see more Theo and his family outside of his sons. Like his brothers and his parents and I wanted

Riley to get to know them. We met a slew of other characters that didn't really drive the plot. I wanted more lore in general about were-bears than a rushed explanation near the end. There was seriously nothing alluding to native american lore until the end and that could've been amazing had it been a motif throughout the book.

I really enjoyed the sexual tension and the sex scenes between Riley and Theo. They were scorching.

I understood Riley and her need to find a home and put roots down and I'm glad she got her happy ending. Overall this was a good story and I'd definitely read more from this author.

3.5 Stars

namericanwordcat says

Oh, this is a fun bon bon of a Bear Shifter Romance! Yum, Yum, Honey!

I adore bear shifters so I am not that hard to please but our hero is a wonderful father and a great big hot handsome bear of a man. He has twin sons and they are fun characters.

Our heroine is moving back home to out run a stalker ish ex boyfriend. There is a storm. She crashes into a tree near a remote shifter town and bam! she finds a bear shifter's cabin...like you do in Romanceland. If I want a bear shifter of my own, then I am going to have to drive to the back of beyond in the woods and ram my Honda Fit rudely into some foliage apparently. Luckily, I found my bear a long time ago and don't need to wander around aimlessly hitting innocent trees with my car in the rain. My insurance agent is disappointed.

Anyhow! The couple has mad mating heat going on. They fight it because of the human/bear thing. She doesn't know he is a bear though.

Things work out without too much drama. There are good twists along the way. I like this couple, the kids, and love the town. Bon Bon.

There are lots of little great jokes in here. This is a bear shifter town and everyone has bearish names and loves honey. I think there should have been more berries. Bear culture is well developed. I roll around in that stuff like clover.

Our heroine is an African American BBW and our hero is paler but that aspect of the book is handled with a light touch. This is good but it could have been a little more seamless. It is awkwardly threaded in.

I look forward to visiting this town again!

Rebekah Weatherspoon says

Really liked this one. Already bought #2. Will review for the Margins. :D

Jenn says

3 Bear Stars

- ✓ Fast paced story
- ✓ Barely any real drama & resolves quickly
- ✓ Light & easy read
- ✓ Steamy scenes
- ✓ Story is based mostly around the couple
- ✓ Could be read in one day

What I liked:

- ☞ Bear references: the county, peoples names, signs....
 - ☞ Theo's twin boys
 - ☞ The town folks of Den County
 - ☞ Theo is an awesome dad
 - ☞ Every time the boys called their dad "Papa Bear"
 - ☞ Parts of the story felt like Goldilocks and the Three Bears (which makes sense due to part of the title.)
 - ☞ How fast and easy Riley took to the twin boys and how protective she is with them.
 - ☞ Dual POVs
-

raeneysa says

I like how the this author went into detail on how the heroine met the hero from past to future into present. this read is romance without being to kiss face lol.

Trickiegyrl says

A quickie retelling of Goldie Locks and the three bears. I enjoyed it.

A Voracious Reader (a.k.a. Carol) says

4.5

*Book source ~ Free from AllRomance

With an ex-boyfriend stalking her Riley Gold decides to take off and head back to her home town. Always restless, always searching for an elusive something, she doesn't want to head back to her family, but feels she has no choice. When her tire blows out and she hits a tree she rethinks her idea to take the scenic route. Now she's stuck in Den County with no cell service and no hotel. Luckily Theo Kodiak offers his spare

bedroom while her car is repaired, but the heat between them is off the charts and shouldn't even be possible since she's a human and he's a were-bear. This place, this man and his young sons and these people seem so right for her, but she isn't clued into what their secret is. Will she accept what they are? Could she really have found what she was searching for?

Mmmm...were-bears. I love them. They may be my favorite shifter though I'm not sure exactly why. Anyway, this is a decently written paranormal story with a little suspense thrown in, some humor and a whole lot of heat. I love Riley's confusion about how much everyone in the county seems to love honey and honey products. lol Everyone's bear-related names are fun and the steaminess is wowzers. There are a few editing issues, but nothing major. This was quite an enjoyable read for me. I will definitely look up more of this new-to-me author's work.
