*Katy Evans*

**Boss** Katy Evans

**“We play by my rules now.”**

**—Kit, the new boss**

Who does Kit Walker think he is? The trust-fund heir waltzes in and wants to boss me around, but if I catch him misbehaving, his father will yank his inheritance. Stalemate, right? Not when our chemistry is irresistible! Ironically, we run the top dating app. Could this be my “perfect match”...or the perfect scandal? —Alexandra, the one in charge

### YaYa says

3.5 stars

A nice, quick insta-love story with a strong female and male boss leads. Lots of sparks and very steamy sexy times. Highly recommend for those looking for a fun read that may help you out of a book funk.

\*An arc was provided by the publisher via NG in return for an honest opinion.\*

### Cristina | CristiinaReads says

⇒⇒***No matter what or where, I will always be drawn to anything by Katy Evans and this beauty is calling my name...***

⇒⇒As a true fan of Katy's work, I will **never back down to reading any of her novels!** Especially when it's **a steamy, office romance that will have you wanting more.** This kind of romance is the type of romance that Katy is known for and deserves every form of appreciation because of it. Kit Walker and Alexandra will stand tall with **power and determination as individuals.** When they first meet, the instant attraction is present. Due to the fact that they both work together, there is a limit of what they can see of each other. However, once they are **together both physically and emotionally**, it is a dynamic duo that will make you crave more of their story.

⇒⇒There is **drama, there is steam, passion, and all sorts of secret and alpha possessive scenes.** But most of all, there is the whole perspective of fighting for the **one you truly love.** Kit Walker does that, and he does it in a way that will consume you with love and adoration towards him and Alexandra.

## **Michelle Rodriguez says**

I haven't read a Harlequin Romance in years. When I started reading romance, I would pick up either a Desire or Blaze from the bookstore.

If you're looking for an quick, easy office romance, Boss doesn't disappoint.

Full review closer to release.

## **buzy\_reading says**

When the CEO retires, his colleague is assigned to help transition the new successor. With no business experience the new successor must prove himself worthy. A trial run is provided while the colleague reports back to the CEO. All is compromised when love blooms in the workplace.

Harlequin Desire stories move quickly sizzling up the pages with steamy sex scenes. They are set in a world of luxury and drama. This particular story is an office romance between the boss and the colleague. This one had luxury with a side order of drama. The primary focus was on mentoring and training the inexperienced boss.

Overall: These two characters had opposite work ethics. It started with hate then turned into a mutual understanding of friendship. Alex's character is an all work and no play type of gal, while Kit is an all play with no work experience type of guy. Yet, together they balanced each other out.

Alex's character was a spitfire in the office. Remove her from the office and she was timid and careless. I struggled with her careless choices in social settings. I also struggled with the way Alex reacted and responded to Kit. She lost her mind in his presence behaving recklessly. While Kit's character was put together at all times having control of his actions. I liked him, yet I didn't trust him either.

I really like the way Katy writes her sex scenes. Those scenes are smokin hot. Quite honestly the sex scenes were the best part of the story. The office gossip and project assignment wasn't all that exciting to read.

*I adore everything Katy Evans. I also adore office romance. Guess who's freaking excited?!*

---

## **Romantic Intentions Quarterly says**

Kit Walker, established playboy, is attempting to establish himself as the new head of his father's online

dating business. Department Head Alex is keen to support Kit at first, but her empathy soon turns to hostility when Kit's method of establishing himself is over-riding her decisions and design work. A completely ridiculous drunken outburst from Alex – that would get her fired on the spot in the real world – resets the relationship and they embark on an affair. However, Alex has been given a secret mission from Kit's father to report back to him on Kit's progress within the company. Will exposure spell the end of their romance? There is a creepy friend, levels of betrayal, and some decent sex scenes to make this an okay modern romance. – Megan Osmond

3 1/2 stars.

This review appears in Romantic Intentions Quarterly #4.

### **Heather andrews says**

There are times Alex knows when to cut her losses, "when it's over, Kit and I lie in bed. My legs are trembling. "I feel like with all these distractions, I should give up on making the soup." This was a quick fun reas that I really liked.

### **Cecily Bonney says**

I love me some Katy Evans. I was so excited when Netgalley approved me to read and review this book.

Alexandra is the best at Cupids Arrow and everyone knows it. Even the CEO Alistair knows it and he groomed her to be great!

Then out of the blue Alistair decides to retire and leave his son Kit in charge of is pride and joy. I really like how much Alistair cares for Alexandra, it is like a father daughter thing.

Now that Kit is running the place he and Alexandra are all out of sorts. He has never worked a day in his life but Alexandra has.

I fell like Kit is a little jealous of Alexandra because his father speaks so highly of her and he pretty much just let her run her team with no supervision.

Alexandra doesn't know if she hates him or wants me. That is completely unlike her to do and feel so much. She is not use to his presents or the heated stares he gives her.

Then one drunken to honest night changes things up just a little. And no dirty nerd it us not what you think...or is it.

I can tell you that this man Kit is a true gentlemen and I love it!

I actually loved everything about this read. Heck I even thought that Alistar planned the whole thing out...having these two youngsters working together but I was wrong.

Anyway....you will love how it all starts, happens, and end. Oh and I cant wait for book two...that will be Kit's brother William's story.

Happy reading Bookies!!!

What is crazy is the song that was playing in my head the whole time was...

I don't want to live forever by Zayn and Taylor Swift

### **Lisa says**

Now this is a romance! It felt like exactly what you want and expect from an office love story. I'll admit it took me a minute to warm up to Alex. She was so tightly wound and defensive! Making judgements about Kit without knowing him. I love how his walls come down around her. There's all this tension, plus they work together so maybe they shouldn't be together. There's desire, but oh, there is swoony romance. He definitely knows how to woo. He woos so well. I loved their story and look forward to more like this.

### **Rosa Sharon (iScream Books Blog) says**

*"He speaks in a toe-curling British accent that should be outlawed in the States."*

I'm a Katy Evans fan and was thrilled to find this new Harlequin Desire story.

The mouth-watering sexy **Boss** who shows up to shake up her orderly life was not what she'd been expecting. She thinks he's just a playboy who thinks he can charm his way into everyone's good graces, but she has news for him, she's not that girl.

Alexandra has been the 'secret weapon' at her job. She's worked tirelessly for years, burning the candle at both ends, making a difference. She's proud of her accomplishment and feels appreciated by the owner. But that was before he introduced her to his youngest son and that gorgeous asshole started taking charge. She's not going down without a fight and he's got his work cut out for him if he thinks he's going to win her over. Game on.

Woo Hoo! I enjoyed the sparks flying between these two. Especially when I was privy to her thoughts and she kinda liked it when he bossed her around. I'm excited to report that sexy Kit has a brother who laughed at his problems. A self-proclaimed bachelor that has no use for a woman. I can't wait to meet the woman that changes his mind. Game on.

### **Lacey (Booklovers For Life) says**

I was so happy when Katy Evans' announced she would be releasing a book for Harlequin Desire. I knew this book would be quick and steamy, and thankfully Katy didn't disappoint. She writes alpha heroes so well, and Kit Walker is full of alpha goodness. I couldn't get enough of his and Alexandra's story! If you like office romances with a strong heroine, I highly recommend you read Boss!

Full review to come!

*Thanks to the publisher for generously providing me an ARC to review.*

### **K's Secret Books says**

3.5 stars

It honestly pains me to say this because I'm usually crazy about Katy's writing but, this one wasn't my favorite. It was a quick easy sexy read. I'm all about a steamy office romance. I enjoyed Kit and Alex's sizzling chemistry. I loved the banter back and forth and Alex's fiery personality. I did at times find it a little rushed. It wasn't my favorite but, it was still a good read. I'll read whatever she writes.

---

### **Bigbooknut says**

3.25 stars

I'm a big fan of Katy Evans. Remy is one of my top 10 favorite heroes. As I alluded to earlier, I was afraid that the constraints of a category romance might affect her voice. Happily, this wasn't the case at all. The witty exchanges and strong sexual chemistry between the hero and heroine that Ms Evans does so well were here in abundance. The story started out very strong, but the characters were not always consistent and I think the shorter story length impacted her pacing. The initial conflict between Alexandra and Kit resolved itself rather quickly, so the drama that arose much later seemed rushed and forced. Yes, she had laid some groundwork, but it came so late that that aspect of the story just didn't work for me. (view spoiler) In spite of these issues, I still enjoyed the book and am looking forward to his brother's story.
