Easy Gardens for North Central Texas Steve Huddleston , Pamela Crawford

This groundbreaking book shows beginners and experienced gardeners alike how to create gorgeous gardens with the easiest, colorful, low water plants that north central Texas has to offer. It features over 1000 spectacular photos of annuals, perennials, shrubs, and trees that thrive with little or no irrigation and only require minutes of care per year - plants that can breeze through hot, humid, Texas summers while attracting butterflies, birds and hummingbirds. Shop for plants like a pro by taking the book with you to garden centers and checking out the latest information on the newest plants around from people who have grown them! Create traffic-stopping color combinations from the over 150 easy examples shown. The book is extremely easy to follow, with thousands of color photographs, as well as many budget gardening tips. For Dallas/Fort Worth and 50 surrounding counties. Area includes Wichita Falls, Sherman, Denton, Arlington, Fort Worth, Dallas, Abilene, Temple, Killeen, and Waco.

M.E. Kinkade says

An absolutely phenomenal reference guide! I read it like a novel and have already recommended it to every gardener I know. I love the beautiful photos and the easy organization. One of the best features may be the planting guide of two other plants that make good pairings. It's nicely arranged and bounding with information. I can't wait until spring!

Katherine says

The book was filled with beautiful pictures and very useful information. Given the extreme heat of Texas summers combined with the water restrictions; this book offered many plants to consider. I used many of the suggestions in this book and have enjoyed attracting both butterflies and hummingbirds to my yard. This book has been a very useful resource.

jen8998 says

Extremely useful reference for gardening in the hot, dry Texas climate.

EJ says

A must-have reference for any gardener living in North Texas.
