## Her Men Sam Crescent

No woman should ever dread her wedding, but staring into her husband's eyes, Abby can see the hatred shining back at her. She's been blackmailed into marriage and now belongs to a man who thinks she's a gold-digging whore. Not the best circumstances to start a marriage.

James has a secret and has been blackmailed into a marriage he doesn't want in order to keep his private life out of the press. Even as his wife sweetly smiles at him, he can't allow himself to believe that she's innocent in all of this. He has a plan to make sure this marriage doesn't last long, and he's going through with it!

Abby doesn't trust James, but she doesn't want to be miserable and wishes there was something she could do to help him—and herself.

What is his secret? Why would he marry her to protect it? And why is James more than happy to have another man join them?

# From Reader Review Her Men for online ebook

## Michelle says

I quite liked the book. My only real problem was that the men's relationship didn't quite ring true. I think if there had been a bit of a prologue or if the first chapter or two had been about the men exclusively it would have felt more authentic. The characters were all likable and I did cheer for them to get a happy ending as a three. Enjoy.

## Neringa Neringiukas says

I like this type of stories. Blackmail. Forced marriage. Asshole H at the beginning. But... So okay, this story does has all I listed and some more and it would be ok book, but there was something I struggled with. Or more correctly someone. Abby. In overall she wasn't a bad character, it just I would had liked that she stood up for herself, had been a bit selfish and thought more about herself and her needs, instead of listening and following everyone's else orders. Abby was just too soft, submissive and trusting for my taste.

## Kara says

### Naughty

I read this book in just a few hours it was that good!! Blackmail never sounded so good. Sam Crescent really delivers, as always, on dirty talk, sexy alpha males and hot sex. This is a must read book for sure but just a warning you might need a couple of cold showers!!

## Amelia Foster says

So excited to review HER MEN by one of my fellow Evernight authors Sam Crescent.

First, I have to say I have a HUGE diversity in the kinds of romance I read. I will gobble up nearly any subgenre of romance from a sweet contemporary to a tawdry BDSM menage and everything in between. I am basically the Lady Liberty of the romance world. Give me your swoony, sexy, or historic smut, yearning for... well, you get the picture. Basically I love love in any and every form. M/F, M/M, F/F, M/M/M/M/M/M/M/F (yeah, no seriously, that exists) you name it.

And I say all of that because HER MEN falls into a unique category. Often a menage story that features two men and one woman doesn't have a lot of interaction between the men. HER MEN is not like that at all. There are some amazingly delicious scenes between Drake and James in addition to the scorching hot sex between James and Abby and Abby and Drake. Plus their threesome scenes are positively delightful.

Aside from the steamy sexy times, there are dark forces working behind the scenes to threaten the union the three have managed to find.

This was a quick and easy read that drew me in. James was a little hard to like at first, but Drake definitely has enough charm to cover them both. Abby finds her voice and strength through the love of two good men... but the question is, will the three of them be able to stand against those sent on destroying them?

Find out for yourself by grabbing this hot little read! Just the right dose of sexy times AND happy times when you need a fast fix.

---

### **Lauren says**

3.75 Stars

This story is short, fast paced and an enjoyable read. I devoured this book within half an hour and was satisfied throughout. I found the writing style easy to follow, the characters likeable and the storyline enjoyable. I liked Abby. I felt sorry for her in the beginning. I really hated the way her parents treated her and that they forced her into marrying a man that didn't want her. I wasn't a fan of James at first. I understood his anger at Abby's parents blackmailing him. I understand why he was the way that he was. I just wanted him to be nicer to Abby. He saw the way she acted towards her parents at the wedding but he still didn't trust her.

I liked Drake, I like that he was nice to Abby. I liked that he encouraged James to get to know and be nice to Abby.

I liked seeing the passion and chemistry between Abby and James build. I was still a little wary of James until halfway through but his love for Abby and Drake was clear to see.

The storyline for this book is easy to follow and an enjoyable read.

### **Falyn says**

I actually ended up liking this one more than I thought I would.  
It had a little mystery and a lot of sexy.

---

### **Jennifer Finn says**

Abby was being forced to marry James Darcy, a man who looked at her with contempt in his eyes. Her parents arranged everything, telling her if she didn't marry James they would have her institutionalized. They have a doctor friend at the hospital who would like nothing more than to make her his plaything. She goes through with the wedding and when she gets to her new home she meets James' assistant, Drake. James is being blackmailed by Abby's horrible parents and he thinks she's just like them. Drake has been best friends with James for ten years and he convinces him that Abby is nothing like her parents. This book was smoking hot and I loved it.

---

### **Brandi says**

I liked this one, particularly the whole forced-into-marriage-so-I-hate-you-but-secretly-lust-after-you thing. It

heightened the sexual tension & made things a bit steamier when they finally started happening.

My only problem... I think that James actually fit better with just Drake than he did with Drake AND Abby. It was more believable & didn't feel forced, like how the three of them felt at times.

Overall though, it was good. I wouldn't mind if it had been longer & showed them spending more time together but it was perfect for a weekend read.

Side Note: I said it once & I'll say it again. "Creamy" should NEVER be used to describe lady bits. It just makes the woman sound like she has an infection down there. #nasty

## **Flavs is Mrs David Gandy♥~♥' says**

3.5 Stars

So this was a bit unexpected. Didn't know what to expect as I didn't read the blurb. But all in all the storyline wasn't too bad. I actually enjoyed most of it. Some parts I was annoyed with. Especially Abby kept saying 'she's not a bad person', okay we got it the first time, lol

Other than that James I don't know what to say. I don't understand why he went through with the whole blackmail thing as I mean really who cares what you do in your private life.

Drake was sweet and kept on wanting to change James's mind about Abby. So I liked him more than James. Everything else I enjoyed. The steamy sexy scenes, the hate love relationship and the bit of drama with the parents was good.

---

## **Rhonda says**

This is going to be a short review as I do NOT want to spoil the story. Basically Abby is forced by her parents to marry James. In turn, the parents are blackmailing James to marry their daughter to keep his secret!! I will say that I spent the majority of this book hating James but as things are slowly revealed, I came to love him. There are reasons why but I can't reveal them! LOL My only complaint is that I wish Abby would have been a little bit stronger and wouldn't have taken what James dished out to her but I can see where she would act like that after being treated so horribly by her parents, all her life. So in that respect, I'll give her a pass. All in all, this was a wonderful book and I loved it!!

---

## **Shelly says**

I've read this author before so the style of writing isn't new or unexpected. What I got and what I hoped for are two completely different things. I hoped for well rounded characters each with their own interesting background. What I got was a hurried hot mess that used 'one week later' to advance the plot. There's so much repetition that it could literally fill a book because it did.

Whatever character development there was was lost to me. Abby's story is a most over the top soap opera - why are her parents the way they are? James - rich guy has a secret. That secret was silly and it was even

recognized as silly in the story...smh...Drake's story was non-existent to say the least.

This read like a good outline for a story but unfortunately for us readers who cranked out \$3.99 for what read like a short story, it was poorly executed when it came time for the sentences/paragraphs/etc.

Happy reading folks!

---

### **Heidi says**

What starts of as a disaster turns in to something so beautiful and unexpected.

No one should dread there wedding day right? Abby did see her parents had blackmailed her in to marrying a man she never new.

James is being blackmailed in to marrying Abby he thinks she is a good digger like her parents and treats her just like she is, but it takes Drake to see past her we.l.s and to push James in to seeing her just as she is an amazing woman with baggage from her God awful parents.

Now James and Abby are trying to build there marriage on a good foundation what will she say when she finds out Drake is more than a friend but his forever too?

This book was beautifully written and so cleverly done I loved it the author keeps me at the edge of my seat throughout.

4 Out Of 5 Hearts From Cariat Books.

---

### **Jessica Gomez says**

I like the premise of this story. I like the overall theme sort of. I couldn't stand the female lead because she really lacked a spine. I mean come on. She could have stood up for herself at least. I can't really stomach weak female leads.

---

### **Fabiola Cadet-Destil says**

?????

Wow, another juicy steamy love story from miss Sam Crescent! I love it, it was beautifully written, and I can't wait for another one lime this book. It definitely deserves that 5 stars!

---

### **Turtlex says**

Trifecta of sexy

Unwilling alpha brute forced to marry sexy virgin in blackmail scheme. Completely over the top drama at it finest. This marriage of convenience quickly turns to more. And by more i mean a three some
