It's Only Physical Trista Ann Michaels

Daniel "Mac" Mackenzie is a "one night stand" kind of guy. Love 'em and leave 'em, that's his motto. Meeting Miranda may just put an end to that line of thought. Even though the two have agreed to keep their relationship strictly physical, Mac cannot help but want more of Miranda than just her body. But Miranda is holding something back and Mac intends to find out what that is.

Miranda has been running from her past and an abusive ex-husband for over two years. Afraid to trust, Miranda doesn't let anyone get close. When Mac offers her a strictly physical relationship with no strings attached, she hesitantly agrees.

After all, Mac isn't her mob boss ex-husband. What harm could it do?

Unfortunately, Miranda finds out when her worst fear comes alive in the form of an angry ex-husband determined to see her pay.

Beth Thomas says

I

Jasmine says

didn't like it kept skipping through didn't finish the book

Netanella says

I guess my standards for erotica have changed. I need some type of plot that actually makes a little bit of sense - otherwise, go ahead and write fantasy or futuristic, not contemporary. Otherwise, it's so much window dressing crap for women's porn. And the author does women's porn well.

But, for plausible story line, please tell me why a wife who testifies and helps convict her mafia husband for murdering a cop isn't in the Witness Protection Program? She's hiding on her own in the little town of Mayberry?? And when said mafia boss escapes jail, no one from the DA's office notifies her? Argh. If I want to suspend belief, put me on the Star Ship Enterprise and give me some Captain Kirk.

Amanda The Book Slayer says

This book was okay. I would say if you are looking for a book to take to the lake or snow lodge then this book is for you. It is an easy read and quite predictable. However, the cover is Sexy as HELL!

Lorice DeBlanc-Brim says

Well done!

Miranda is a strong woman to go through what she went through with her ex-husband. I don't think I would have the strength to. She should have seeked counseling, I know I would.

Mac fought his feelings for her for the longest. Well it just goes to show that even a physical relationship is not always a good idea, it could lead to something more. Love is always the best medicine.

Karla says

Amazingly good. I picked it out of boredom and found myself surprisingly entertained. Didn't want to put it down.

Miranda is running away from her past. While on a plane back home in the small town she now resides, she meets Mac a handsome plane captain on his way home. The chemistry between them is explosive and leads to dinner and then to what Miranda believes is a one night stand, after all, she knows she can't get attached. She runs away while Mac is sleeping without leaving a phone number, which irks Mac, since he wants to see her again, crazy since he is the king of one night stands, after having his heart broken he believes he is not capable of loving again. They meet again when they least expect it and begin a purely physical relationship, which ends in them falling for each other, but not wanting to confess, least they scare the other. Until Miranda's past comes back knocking in the form of her Italian mob boss ex husband.

Amanda Gill says

A fun and quick read this book left me satisfied. Miranda hasn't had an easy marriage and things are only going to get worse before they get better. Her husband is an abusive mobster and she's stuck. Her only hope is to escape and hope he never finds her. Hoping doesn't do Miranda much good and it may cost her, her life. Mack has spent his days hopping from one bed to another and he's perfectly content to continue doing so until he meets Miranda. A chance encounter will change both of their lives, but will her past catch up to her and ruin her future. Packed with lots of steamy sex scenes and a plotting ex-husband; It's Only Physical packs a nice little punch. I'd definitely recommend this light read to romance fans who like it spicy.

stelladeer says

Great book

I really enjoyed this book
it was filled with action and romance. definitely a keeper in my collection. hot read.

Mary says

This was so quickly put together and rushed it was terrible and excruciating to read.

Julianna says

Very quick read. Kind of predictable but still really good!
