### **Ren Rabbit says**

Let's be clear: Voodoo is a religion and about much, **much** more than simply sticking needles in dolls. It has a rich tradition, fascinating spirits, Gods and is as varied and colorful as the people who practice it. That being said:

This is exactly what I've been looking for, not because it works (this cherry-picked, over-marketed nonsense never works because there is a little more to any kind of (witch)craft, spirit-working, hexing, cursing or however you want to call it! - No, it works because it is a fantastic stress reliever. Whenever I come home from a rough day - and I mean rough in capital letters - usually caused by the same old tired hags at work, then this is my go-to-kit.

After I'm done reliving the events of the day and taking my anger, frustration and resentment out on the (poor) doll I have successfully "let go." The doll, the kit, the "ritual" - all these tools make that easier for me to visualize and let it happen. It's more a psychological than a "magical" tool. And In that sense I can only recommend it!
