This book is funny because it was Halloween and Ms.Mary was dressed as a bat for Halloween.The first chapter is about how Halloween is getting ready to start.Mr.Granite assigned a spooky freaky student teacher and AJ.The gang think that she might be a vampire.Why because Ms.Mary lives in a cave and sleeps upside down

We've read a few books in the My Weird School Daze series by Dan Gutman and Jim Paillot and we like the humor and silliness.

Some of the conversation between the children is rude and mean (like calling someone a dumbhead), but we discuss what's not appropriate when it comes up in the story. I actually like that the conversation seems somewhat natural, with a little ribbing here and there and some bickering along the way. We discuss where there are errors (for example, AJ loves to say "million hundred," even though that's not a real number.) And we laugh at the corny plots and funny situations.

Our oldest really likes this series and I've just discovered that there's a whole series of books (My Weird School) that feature these same kids in second grade, so I suppose we should go back and read those first before continuing on with this series, where they are in third grade.

Aurora Says: Not the best chapter books in the world - but they are funny. I would not recommend them to kids under 7 because its a little inappropriate. Its funny - of course it is 7 and up it would be good. Its not that complex into a good story - doesn't tell a message or anything but that is pretty much all I have to say about

it.

I don't see why A.J thinks that kissing is disgusting don't his parents kiss, too. It's something that happens in life he will probably do it when he's older, too. Also, for being in the G.T. program he seems very dumb.

### **Gracie says**

I thought it was very good it had a bit of humour in it and like the endow there was something in the bathroom but im not going to say because of spoilers I think you should read this book if you like a bit of scary stuff (but its not that scary) and if you like a bit of a mystery (but not really a mystery just a little bit of a mystery) son suggest reading this book because it is very good. :) (also the reason it took me a long time to Read this is because I lost the book and I just found it a few days agouti I just started reading it again today) :) :) ;;) ;;) :;)

Genre: Young readers fiction

Another in the My Weird School Daze series that entertains the reader. Children will like this book because it is easy to read and full of humor. It relates to children and how they feel about their school and teachers in a silly and fun way.

Awful book. The reused phrases and structure of the stories become very old and irritating. Do a search of characteristics of G.T. kids and its easy to see that A.J. is clearly not gifted and talented. I am a gifted and talented person, so I find this character very irritating and inaccurate.

A.J. is irritating and annoying and pretty moronic, such an insult to children. If I had kids, this is not a book I would present them when there are so many other books out there that are better. I am not a fan of the opening of any of these novels. What is so fun about reading a book about a kid who starts his story saying he hate things? Hes a complete downer and an overall brat. I know not all kids like school, but not every kid goes into class daily thinking "I hate this I hate this" because they usually find the things they enjoy to focus on, like "I hate class, but at least I sit next to my friend. I can't wait for lunch." There is always at least one thing to like and in my experience kids tend to focus more on what they like. That or in the morning they are just focused on how tired they are. There's no full blown hate. Unless I just knew a lot of not average children growing up. Also I was hoping that after they introduced Miss Mary there'd be some clarification and education about British people being, you know, just normal people from another place? No such thing, which is pathetic, since it will leave kids with the idea that British people are weird and dress like punk/goths, when that is a counter culture. My grandfather is British and he isn't nearly THAT strange. Many Americans fall under the goth, punk, and beatnik looks, so why did the character HAVE to be British, when the kids won't learn much of anything about the culture? They don't have to learn in every book, but at least don't go around spreading false images as though they are normal. Failure to employ Chekhov's Gun is definitely at work, a basic principle of creative writing.

I'm appalled by the stupidity of this book and its characters.

## **Benjamin says**

I really liked it. I liked how every time Zack said "Mary" and Miss Mary said "Zack" and Mr. Granite said "Not again!". And though it has a bunch of really funny things and I really liked the first footnote.

## **Shelli says**

Dan Gutman understands young reader's humor and has created a fantastic book formula to draw in even the most reluctant of readers. The *My Weird School* series is perfect for students to practice their reading skills with its repetitive yet hysterical narrative and story lines. But don't mention that part to your kiddos, they might run away in fear they could learn something. A must have collection for any grade school library or

classroom!
