## From Reader Review Shadow Unit 7 for online ebook

### **Lasciel says**

I don't think this story will ever get old. The characters and their struggles are just so compelling and real. I just want to read more.

---

### **Ryan says**

I was particularly excited because Holly Black joined in the fun. Satisfying, though unbalancing. Sort of a turning point in relationships and events, I guess. More please.

---

### **Nighteye says**

Read part of it on their webb, good stories.... :)

---

### **Lianne Burwell says**

Volume 7 includes 3 'episodes' as well as the extra scenes. The team is still rebuilding after the lead agent made a serious mistake, and after he was himself kidnapped and tortured. There is also the fallout from what happened after the kidnapper was caught.

The three stories includes a trip to Miami to deal with a pair of gammas who are killing people by making them think they are in a fire. It is also a chance for Reyes to build bridges with Chaz, who is still having problems based on Reye's actions previously.

The next story undid the rebuilding, but this time focussing on a different member of the team running into trouble, then running.

Finally was the 'very special christmas episode', which deals with Reyes and Todd's first case when the WTF unit was first being formed in '95. It involves two FBI agents and one of their cases in 1964.

Bit by bit, I am getting caught up on the 'show' (and have to keep reminding myself that there isn't an actual show to watch). It will be a rough day when I reach the most recent episode and I end up having to wait for the next one.

---

### **Lotta says**

Approximate dates. I suck at reviewing lately. So this partly deals with the fallout after Reyes's capture, if I

remember correctly.

---

**~Anita~ says**

The description of the goth club (in one of the vignettes) doesn't ring true. I'm not goth but i've been to a goth club or two in my time. My partner who is High Goth read it over and agreed.

---

**Jeremy says**

If you're at the seventh book in this series you already know what to expect. The continued growth of the characters is really engaging, however it would be nice to see some more normal interaction between the characters instead of just when something bad is happening or things are being switched up. I will still continue happily powering through this series though!

---

**Ron says**

Interesting developments in the gammas and betas. Interesting stories about the early history of Reyes and Todd.
