## **The Hitwoman and the Sacrificial Lamb J.B. Lynn**

Some jobs are more challenging than others.

Take for example, Maggie's latest assignment: assassinating a heartless, indiscriminate sniper. He deserves to die, but making that happen is tricky, especially considering that a certain red-headed police detective has been assigned to protect him.

And that's not the only job Maggie has.

She's struggling to find a way to communicate with her pets and care for her orphaned niece, while searching for information about her sister who disappeared years earlier. An investigation that puts her in harm's way.

Maggie struggles to do all her jobs, while contending with her nutty family, vague psychic predictions, an unexpected chicken, and a complicated romantic relationship.

Is she up for the challenge? Or will one mistake cost her everything?

Aaarrghhh! Left me hanging but in the very best way.

This book continues the misadventures of Maggie but it is so much more than Maggie. I have so many favorites. The niece is the reason why Maggie does what she does but in a way, she keeps the whole story together. Katie is the innocent glue. I'm so excited to see her progress...I mean this is a book about a woman trying to keep it together killing bad people but I just want to jump in and help Katie continue recovering...or maybe I just want to be in the same room with Angel. I have a picture of him in my mind and I like it. He's quickly claiming a top spot.

There are so many stories within the story, it might be a good idea to have a guide to follow. So far, the author is doing a good job keeping them fresh but please do read the series...it'll help keep everyone straight.

That being said, I have some questions begging to be answered: where does Patrick run off to all the time, what's the story behind Jack - I want to like him but I don't know enough, will little Dominic be okay soon, what's going to happen with the real estate job (the real estate schooling scene was a gas), and that white hat lady, what's up with her?

Just like a good serial show on TV, stay tuned for the next episode...except this is better, no commercials and better plots. Although, it'd be fun to throw some talking animals in a TV or movie adaptation.

**FANTASTIC!**

JB Lynn's Hitwoman series is always wickedly entertaining & this new book does not disappoint. Poor Maggie & her eccentric family & friends are dysfunctional to the max. But while the characters are awesomely quirky, they are still extremely likable. Her talking pets are downright hilarious. Yet while there are lots of laugh out loud moments, there are also many poignant ones watching poor Maggie having to juggle her responsibilities to her niece Katie as the little girl tries to recoup from her physical & mental traumas, dealing with her mentally imbalanced mother & aunts, searching for her long lost sister, & all while planning her next hit. This is a fantastic read with hopefully many more to come!

The latest in this series is great. Don't expect anything but fun and an enjoyable read. Maggie stumbles from one problem to the next but always comes out on top

I Loved this book. I received it as an ARC and I am very lucky to be able to read these books early! Maggie Lee is back with her niece Katie, her aunts, her pets, her murder mentor Patrick and the manny Angel as well as other characters from the previous books. In this book she has to figure out how to find Darlene, how to support herself and care for Katie as well as how to execute a new "hit." She does this in the usual laugh out loud and chaotic fashion that I love so much in these books. Talk about dysfunction! That is her family times 10! I root for her and Patrick's relationship to progress but there are so many barriers to that. I highly recommend this page turner as well as all the books in this series.

The continuing saga of Maggie. This is why i keep coming back for more. Maggie is the most unexpected person. With each book she learns more about herself and her family while she tries to figure out her future. It seems like her life is always on go go go! There are so many secondary characters in this series but frankly i don't have to much trouble following them all. If they haven't appeared in a while it doesn't take long for me to say...."Oh yeah" with a laugh. Maggie, if you have been reading the books has always been able to speak with her animals. She's lost that ability and is frantically trying to find a way to get it back. Unfortunately nothing seems to be working. I hate that she can't speak to them. After so many books listening to what the animals have to say i find it frustrating as a reader to not be able to hear them anymore. Hoping she can figure out soon but there is no way i can guess how the author is going to come up with a way. That's one of the best things about this series you are always guessing where the author is going. Where the twists will come. It's what i believe keeps the series fresh. None of these books takes days to read so anyone can still book up book one and enjoy the series and get caught up quickly. Exciting and funny and engaging and a quick enjoyable read! Leave ya smiling even when there is a little cliff hanger at the end. You never have to wait to long for the next book.

Okay I love Mags and was happy to see the same characters in this book 12 of the popular series. Maggie is seeking to get her communication skills back and is seeking help from Armani and a Shaman. What she gets is a chicken. Yes, a feathered chicken but you need to get the book to find out the significance. Patrick plays a role as does her mobster boss. It is a funny episode in the life of Maggie and her niece Katie. Give yourself a good laugh, and get this book.

I badly needed a laugh & JB Lynn never fails to deliver. The "charge of the animals" had me laughing out loud (especially Godzilla) & I like where she's going with this series. It's a plus that Ms. Whitehat wasn't in this book. Now if she could only do something about Patrick because personally I like Angel better. Again my only issue is that her books end too soon & I'm already waiting for another one!

I continue to love and be entertained by this series! Maggie continues to be drawn to Patrick (the bad boy) and Angel (dreamy). She is so desperate to speak to her animals again that she allows Armani to convince her to see the Shaman and she ends up going home with another animal! She has a new murder contract and she continues in her search for her sister who is presumed dead. Along the journey are a lot of funny moments. I read this so fast that I'm now left anxiously waiting for the next one!!! Can't wait!

#### **It finally happened.**

I can't believe Maggie and Patrick finally got some time alone together and I thought things would maybe improve in their relationship but yet again it couldn't be that easy. It makes me wonder if Maggie's mom is just playing crazy just get some peace in her life from this family. Also, I'm starting to feel maybe she should be with Angel and can't wait to where their relationship is going.

This is one of my favourite series Maggie is back and more neurotic than ever, if that's even possible. Maggie is trying to juggle even more in her mixed up life than ever let's hope she can pull it off. In The Hitwoman and the Sacrificial Lamb Maggie is still settling into having Katie home and making sure her young niece is getting the best care. Maggie and a certain red haired detective/hitman get closer one minute and further apart the next it's a completely mixed up going nowhere relationship but it seems to fit into Maggie's life for now. Then there is Angel the Manny he is trying to get closer to Maggie by getting her to accept his help more and more but Maggie knows she has to keep him at arms reach he can never find out what she really does for a job, he can never know she is a hit woman for his uncle. So can Maggie do everything she needs to and keep her sanity at the same time? Hopefully :-)

The Hitwoman and the Sacrificial Lamb by J. B. Lynn is the twelfth book in this series. It was a fun and complex read for me. I am a total newbie to this series, so I had so many questions regarding the characters as the story progressed.

I adored all of the characters. They are distinct personalities with quirks and attitudes that often made me laugh out loud. The animals were a joy and added so much to Maggie as she bumbled on within her dysfunctional life. I laughed and cheered as Maggie struggled to learn to accept help from others. She grew a lot in this story so I am anxious to see how she handles her next assignment. I will also be getting the previous books in the series so that I am all caught up with this series.

I received an ARC in exchange for an honest review.

JB Lynn hits another one out of the park. I love this series and I love these characters. Maggie is so awesome. I love all the critters. And I love the burgeoning something between Maggie and Katy's manny. Her misadventures are always fun, but with a subtle tug at the heartstrings in every story. This addition to the series doesn't disappoint. I can't wait for the next book!

Love this Series!

This is a great book; this is the twelfth book in the Confessions of a Slightly Neurotic Hitwoman series by JB Lynn. Maggie is back and still struggling to find a way to communicate with her pets again. She is also trying to juggle taking care of her niece work two jobs and she gets a new assassination job from the mob boss she works for. If you are looking for a great book that will keep you up past your bedtime then you need to read this book and series. This book has it all a little mystery and humor. I can't wait until the next book in this series comes out.

A Review copy was provided to me in exchange for a fair and honest review. The free book held no determination on my personal review.

## **Linda Quick says**

I LOVED this book! It is at times literally laugh out loud funny and at others, poignant. Maggie is tasked with killing a murderer. She has little ethical concerns with this task, but a great many logistical concerns about how to make it happen while the target is being guarded by cops - including her murder mentor.

Unfortunately, for Maggie, this isn't even the most stressful thing she has to deal with in her life. Learning how to be a custodial aunt of her recovering niece, her feuding aunts, juggling multiple jobs, not being able to reach her sort of boyfriend, not being able to hear her animals....the list goes on and on. Once more, the author has brought this together and created an engaging tale that will keep you hooked. This is a must read for fans of the genre. While it is a stand alone novel, you will enjoy it so much more if you have read the

prior books.
